This book publishes, for the first time in full, the two most revealing of Mark Twain's private writings. Here he turns his mind to the daily life he shared with his wife Livy, their three daughters, a great many servants, and an imposing array of pets. These first-hand accounts display this gifted and loving family in the period of its flourishing. Mark Twain began to write "A Family Sketch" in response to the early death of his eldest daughter, Susy, but the manuscript grew under his hands to become an exuberant account of the entire household. His record of the childrens' sayings—"Small Foolishnesses"—is next, followed by the related manuscript "At the Farm." Also included are selections from Livy's 1885 diary and an authoritative edition of Susy's biography of her father, written when she was a teenager. Newly edited from the original manuscripts, this anthology is a unique record of a fascinating family.

For Héctor and Lilia, pursuit of the American Dream became every parent's worst fear when

their infant daughter vanished as they crossed from Mexico to the United States—now they must try to get her back. With great empathy and a keen awareness of current events, Michel Stone delivers a novel of surpassing sensitivity and heart. Young lovers Héctor and Lilia dreamed of a brighter future for their family in the United States. Héctor left Mexico first, to secure work and housing, but when Lilia, desperate to be with Héctor, impetuously crossed the border with their infant daughter, Alejandra, mother and child were separated. Alejandra disappeared. Now, four years later, the family has a chance to reunite, but the trauma of the past may well be permanent. Back in their sleepy hometown of Oaxaca, the couple enjoys a semblance of normal life, with a toddler son and another baby on the way. Then they receive an unexpected tip that might lead them to Alejandra, and both agree they must seize this chance, whatever the cost. Working increasingly illegal jobs to earn money for his journey north, Héctor seeks more information about his long-absent daughter. Meanwhile, a bedridden Lilia awaits the birth of their third child, but cannot keep herself from reliving the worst mistakes of her past. In luminous, compassionate prose, Michel Stone drops readers into the whirlwind of the contemporary immigrant experience, where a marriage is strained to the breaking point by the consequences of wanting more for the next generation.

By one of Britain's most gifted scientists: a magnificently daring and compulsively readable account of life on Earth (from the "big bang" to the advent of man), based entirely on the most original of all sources--the evidence of fossils. With excitement and driving intelligence, Richard Fortey guides us from the barren globe spinning in space, through the very earliest signs of life in the sulphurous hot springs and volcanic vents of the young planet, the appearance of cells, the slow creation of an atmosphere and the evolution of myriad forms of plants and animals that could then be sustained, including the magnificent era of the dinosaurs, and on to the last moment before the debut of Homo sapiens. Ranging across multiple scientific disciplines, explicating in wonderfully clear and refreshing prose their findings and arguments--about the origins of life, the causes of species extinctions and the first appearance of man--Fortey weaves this history out of the most delicate tracteries left in rock, stone and earth. He also explains how, on each aspect of nature and life, scientists have reached the understanding we have today, who made the key discoveries, who their opponents were and why certain ideas won. Brimful of wit, fascinating personal experience and high scholarship, this book may well be our best introduction yet to the complex history of life on Earth. Dave's facing an eternity of turning the hot dogs and installing pork cracklins displays for Radu, his crappy boss and Vampire Master. "An incredibly important, extremely relatable memoir about learning to love the hardest person of all: yourself." —Liz Prince, author of Tomboy "Compelling, funny, occasionally heartbreaking, and full of genuine hope in ways that most graphic memoirs never achieve artistically. ... Don't miss this one." —Library Journal Starred Review At once punk rock and poignant, Ink in Water is the visceral and groundbreaking graphic memoir of a young woman's devastating struggle with negative body image and eating disorders, and how she rose above her own destructive behaviors and feelings of inadequacy to live a life of strength and empowerment. As a young artist living in Portland, Lacy Davis's eating disorder began with the germ of an idea: a seed of a thought that told her she just wasn't good enough. And like ink in water, that idea spread until it reached every corner of her

being. This is the true story of Lacy's journey into the self-destructive world of multiple eating disorders. It starts with a young and positive Lacy, trying to grapple with our culture's body-image obsession and stay true to her riot grrrl roots. And while she initially succeeds in overcoming a nagging rumination about her body, a breakup with a recovering addict starts her on a collision course with anorexia, health food obsession, and compulsive exercise addiction. At the request of her last real friend, she starts going to a twelve-step Overeaters Anonymous course, only to find that it conflicts with her punk feminist ideology. Blending bold humor, a healthy dose of self-deprecation, vulnerability, literary storytelling, and dynamic and provocative artwork by illustrator Jim Kettner, Ink in Water is an unflinching, brutally honest look into the author's mind: how she learned to take control of her damaging thoughts, redirect her perfectionism from self-destructive behaviors into writing and art, and how she committed herself to a life of health, strength, and nourishment.

Hailed by The Comics Journal as one of Europe's most important and innovative comics artists, David B. has created a masterpiece in Epileptic, his stunning and emotionally resonant autobiography about growing up with an epileptic brother. Epileptic gathers together and makes available in English for the first time all six volumes of the internationally acclaimed graphic work. David B. was born Pierre-François Beauchard in a small town near Orléans, France. He spent an idyllic early childhood playing with the neighborhood kids and, along with his older brother, Jean-Christophe, ganging up on his little sister, Florence. But their lives changed abruptly when Jean-Christophe was struck with epilepsy at age eleven. In search of a cure, their parents dragged the family to acupuncturists and magnetic therapists, to mediums and macrobiotic communes. But every new cure ended in disappointment as Jean-Christophe, after brief periods of remission, would only get worse. Angry at his brother for abandoning him and at all the quacks who offered them false hope, Pierre-François learned to cope by drawing fantastically elaborate battle scenes, creating images that provide a fascinating window into his interior life. An honest and horrifying portrait of the disease and of the pain and fear it sowed in the family, Epileptic is also a moving depiction of one family's intricate history. Through flashbacks, we are introduced to the stories of Pierre-François's grandparents and we relive his grandfathers' experiences in both World Wars. We follow Pierre-François through his childhood, adolescence, and adulthood, all the while charting his complicated relationship with his brother and Jean-Christophe's losing battle with epilepsy. Illustrated with beautiful and striking black-and-white images, Epileptic is as astonishing, intimate, and heartbreaking as the best literary memoir.

A fresh, modern prose retelling captures the vigorous and bawdy spirit of Chaucer's classic. Renowned critic, historian, and biographer Peter Ackroyd takes on what is arguably the greatest poem in the English language and presents the work in a prose vernacular that makes it accessible to modern readers while preserving the spirit of the original. A mirror for medieval society, Chaucer's Canterbury Tales concerns a motley group of pilgrims who meet in a London inn on their way to Canterbury and agree to take part in a storytelling competition. Ranging from comedy to tragedy, pious sermon to ribald farce, heroic adventure to passionate romance, the tales serve not only as a summation of the sensibility of the Middle Ages but as a representation of the drama of the human condition. Ackroyd's contemporary prose emphasizes the humanity of these characters—as well as explicitly rendering the naughty good humor of the writer whose comedy influenced Fielding and

Dickens—yet still masterfully evokes the euphonies and harmonies of Chaucer’s verse. This retelling is sure to delight modern readers and bring a new appreciation to those already familiar with the classic tales.

Cancer Vixen Macmillan

A rich and significant collection of more than one hundred poems, drawn from a lifetime of “wild gratitude” in poetry. In poems chronicling insomnia (“the blue-rimmed edge / of outer dark, those crossroads / where we meet the dead”), art and culture (poems on Edward Hopper and Paul Celan, love poems in the voices of Baudelaire and Gertrude Stein, a meditation on two suitcases of children’s drawings that came out of the Terezin concentration camp), and his own experience, including the powerful, frank self-examinations in his more recent work, Edward Hirsch displays stunning range and quality. Repeatedly confronting the darkness, his own sense of godlessness (“Forgive me, faith, for never having any”), he also struggles with the unlikely presence of the divine, the power of art to redeem human transience, and the complexity of relationships.

Throughout the collection, his own life trajectory enriches the poems; he is the “skinny, long-beaked boy / who perched in the branches of the old branch library,” as well as the passionate middle-aged man who tells his lover, “I wish I could paint you— / . . . / I need a brush for your hard angles / and ferocious blues and reds. / . . . / I wish I could paint you / from the waist down.” Grieving for the losses occasioned by our mortality, Hirsch’s ultimate impulse as a poet is to praise—to wreathe himself, as he writes, in “the living fire” that burns with a ferocious intensity.
