For a long time, France and its culture have been one and the same. However, of this past glory, all that is left today is navel-gazing, nostalgia and timidity. Covering art, fashion, philosophy, literature and cinema, Donald Morrison argues that French culture no longer has the kind of international standing it once did.

**Stories for Late Night Drinkers** Houghton Mifflin Harcourt

Every December an envelope bearing a stamp from the North Pole would arrive for J.R.R. Tolkien's children. Inside would be a letter in a strange, spidery handwriting and a beautiful colored drawing or painting. The letters were from Father Christmas. They told wonderful tales of life at the North Pole: how the reindeer got loose and scattered presents all over the place; how the accident-prone North Polar Bear climbed the North Pole and fell through the roof of Father Christmas's house into the dining room; how he broke the Moon into four pieces and made the Man in it fall into the back garden; how there were wars with the troublesome horde of goblins who lived in the caves beneath the house, and many more. No reader, young or old, can fail to be charmed by Tolkien's inventiveness in this classic holiday treat.

Drawing on extensive archival material, it offers new information regarding both the well-known and forgotten screen adaptations of Agatha Christie's stories, including unmade and rare adaptations, some of which have been unseen for more than half a century. This history offers intriguing insights into the discussions and debates that surrounded many of these screen projects – something that is brought to life through previously unpublished correspondence from Christie herself and a new wide-ranging interview

**... Bordeaux and Its Wines** Macmillan

This highly acclaimed biography from the author of *Last Train to Memphis* illuminates the extraordinary life of one of the most influential blues singers of all time, the legendary guitarist and songwriter whose music inspired generations of musicians, from Muddy Waters to the Rolling Stones and beyond. The myth of Robert Johnson's short life has often overshadowed his music. When he died in 1938 at the age of just twenty-seven, poisoned by the jealous husband of a woman he'd been flirting with at a dance, Johnson had recorded only twenty-nine songs. But those songs would endure as musical touchstones for generations of

blues performers. With fresh insights and new information gleaned since its original publication, this brief biographical exploration brilliantly examines both the myth and the music. Much in the manner of his masterful biographies of Elvis Presley, Sam Phillips, and Sam Cooke, Peter Guralnick here gives readers an insightful, thought-provoking, and deeply felt picture, removing much of the obscurity that once surrounded Johnson without forfeiting any of the mystery. "I finished the book," declared the *New York Times Book Review*, "feeling that, if only for a brief moment, Robert Johnson had stepped out of the mists."

*Book Review Index* Metropolitan Books  
The first volume of *Paths to Contemporary French Literature* offered a critical panorama of over fifty French writers and poets. With this second volume, John Taylor—an American writer and critic who has lived in France for the past thirty years—continues this ambitious and critically acclaimed project. Praised for his

---

independence, curiosity, intimate knowledge of European literature, and his sharp reader's eye, John Taylor is a writer-critic who is naturally skeptical of literary fashions, overnight reputations, and readymade academic categories. Charting the paths that have led to the most serious and stimulating contemporary French writing, he casts light on several neglected postwar French authors, all the while highlighting genuine mentors and invigorating newcomers. Some names (Patrick Chamoiseau, Pascal Quignard, Jean-Philippe Toussaint, Jean Rouaud, Francis Ponge, Aimé Césaire, Marguerite Yourcenar, J. M. G. Le Clézio) may be familiar to the discriminating and inquisitive American reader, but their work is incisively re-evaluated here. The book also includes a moving remembrance of Nathalie Sarraute, and an evocation of the author's meetings with Julien Gracq. Other writers in this second volume are equally deserving authors whose work is highly respected by their peers in France yet little known in English-speaking countries. Taylor's pioneering elucidations in this respect are particularly valuable. This second volume also examines a number of non-French, originally non-French-speaking writers (such as Ghérasim Luca, Petr Král, Armen Lubin, Vénus Ghoura-Khata, Piotr Rawicz, as well as Samuel Beckett) who chose French as their literary idiom. Taylor is in a perfect position to understand their motivations, struggles, and goals. In a day and age when so little is known in English-speaking countries about foreign literature,

---

and when so little is translated, the two volumes of *Paths to Contemporary French Literature* are absorbing guides for literary scholars, writers, poets, students of French culture, and readers of contemporary fiction and poetry.
