The first volume of Paths to Contemporary French Literature offered a critical panorama of over fifty French writers and poets. With this second volume, John Taylor—an American writer and critic who has lived in France for the past thirty years—continues this ambitious and critically acclaimed project. Praised for his independence, curiosity, intimate

knowledge of European literature, and his sharp reader's eye, John Taylor is a writer-critic who is naturally skeptical of literary fashions, overnight reputations, and readymade academic categories. Charting the paths that have lead to the most serious and stimulating contemporary French writing, he casts light on several neglected postwar French authors, all the while highlighting genuine

---

mentors and invigorating newcomers. Some names (Patrick Chamoiseau, Pascal Quignard, Jean-Philippe Toussaint, Jean Rouaud, Francis Ponge, Aimé Césaire, Marguerite Yourcenar, J. M. G. Le Clézio) may be familiar to the discriminating and inquisitive American reader, but their work is incisively re-evaluated here. The book also includes a moving remembrance of Nathalie Sarraute, and an evocation of the author's meetings with Julien Gracq. Other writers in this second volume are equally deserving authors whose work is highly respected by their peers in France yet little known in English-speaking countries. Taylor's pioneering elucidations

in this respect are particularly valuable. This second volume also examines a number of non-French, originally non-French-speaking writers (such as Ghérasim Luca, Petr Král, Armen Lubin, Vénus Ghoura-Khata, Piotr Rawicz, as well as Samuel Beckett) who chose French as their literary idiom. Taylor is in a perfect position to understand their motivations, struggles, and goals. In a day and age when so little is known in English-speaking countries about foreign literature, and when so little is translated, the two volumes of *Paths to Contemporary French Literature* are absorbing guides for literary scholars, writers, poets, students of French culture, and

readers of contemporary fiction and poetry.

A powerful, intimate portrait of grief and radicalization that grapples with the conundrum of having loved ones we no longer

recognize. After the death of his wife, a father raises his two sons alone. His bond with Fus, the elder, and Gillou, the younger, is a close one. But their town is not a place of opportunity, and it soon becomes clear that the boys are heading down different paths. Gillou sets his sights on university in Paris. Fus, despite his socialist upbringing, falls in with the local far-right group. Though he joins mostly for the camaraderie, their activities, which might on the surface appear harmless, lead to a violent confrontation. How can a father and son find common ground when everything seems set to break them apart? A sudden tragedy will force them to find an answer. Tense, sharp, and ultimately

heartbreaking, *What You Need from the Night* asks what acts can truly be forgiven, and shines a spotlight on the forgotten corners of a country where white supremacy has taken hold much like in the US.

In a lively gastronomical tour around the world and through the millennia, *Uncorking the Past* tells the compelling story of humanity's ingenious, intoxicating search for booze. Following a tantalizing trail of archaeological, chemical, artistic, and textual clues, Patrick E. McGovern, the leading authority on ancient alcoholic beverages, brings us up to date on what we

now know about the creation and history of alcohol, and the role of alcohol in society across cultures. Along the way, he integrates studies in food and sociology to explore a provocative hypothesis about the integral role that spirits have played in human evolution. We discover, for example, that the cereal staples of the modern world were probably domesticated in agrarian societies for their potential in fermenting large quantities of alcoholic beverages. These include the delectable rice wines of China and Japan, the corn beers of the Americas, and the millet and sorghum drinks of Africa. Humans also learned how to make mead from honey and wine from exotic fruits of all kinds: even from the

sweet pulp of the cacao (chocolate) fruit in the New World. The perfect drink, it turns out-whether it be mind-altering, medicinal, a religious symbol, liquid courage, or artistic inspiration-has not only been a profound force in history, but may be fundamental to the human condition itself. This coffee table book will sate the curiosity of any armchair historian interested in the long history of food and wine. [The Small Pleasures of Life](#) Other Press, LLC

Did possessing and killing amount to the same thing deep within the dark recesses of the human beast? *La Bête humaine* (1890), is one of Zola's most violent and explicit works. On one level a tale of murder, passion and possession, it is also a compassionate study of individuals derailed by atavistic forces beyond their control. Zola considered this his ‘most finely worked’ novel, and in it he powerfully evokes life at the end of the Second Empire in France, where society seemed to be

---

hurtling into the future like the new locomotives and railways it was building. While expressing the hope that human nature evolves through education and gradually frees itself of the burden of inherited evil, he is constantly reminding us that under the veneer of technological progress there remains, always, the beast within. This new translation captures Zola's fast-paced yet deliberately dispassionate style, while the introduction and detailed notes place the novel in its social, historical, and literary context.

A “ touching, furious, sharp, and very funny ” novel of an immigrant teenage girl finding her own identity in France (Booklist). Agatha Christie on Screen takes the reader on a journey from little known silent film adaptations, through to famous screen productions including 1974's Murder on the Orient Express, as well as the television series of the Poirot and Miss Marple stories and, most recently, the BBC's acclaimed version of And Then There Were None.

Shortly after Albert Cohen left France for London to escape the Nazis, he received news of his mother's death in Marseille. Unable to mourn her, he expressed his grief in a series of moving pieces for *La France libre*, which later grew

into *Book of My Mother*. Achingly honest, intimate, and moving, this love song is a tribute to all mothers. Cohen himself expressed, "I shall not have written in vain if one of you, after reading my hymn of death, is one evening gentler with his mother because of me and my mother."
