It's true that some people spend years studying Italian before they finally get around to speaking the language. But here's a better idea. Skip the years of study and jump right to the speaking part. Sound crazy? No, it's language hacking. Unlike most traditional language courses that try to teach you the rules of Italian, #LanguageHacking shows you how to learn and speak Italian through proven memory techniques, unconventional shortcuts and conversation strategies perfected by one of the world's greatest language learners, Benny Lewis, aka the Irish Polyglot. Using the language hacks -shortcuts that make learning simple - that Benny mastered while learning his 11 languages and his 'speak from the start' method, you will crack the language code and exponentially increase your language abilities so that you can get fluent faster. It's not magic. It's not a language gene. It's not something only "other people" can do. It's about being smart with how you learn, learning what's indispensable, skipping what's not, and using what you've learned to have real conversations in Italian from day one. The Method #LanguageHacking takes a modern approach to language learning, blending the power of online social collaboration with traditional methods. It focuses on the conversations that learners need to master right away, rather than presenting language in order of difficulty like most courses. This means that you can have conversations immediately, not after years of study. Each of the 10 units culminates with a speaking 'mission' that prepares you to use the language you've learned to talk about yourself. Through the language hacker online learner community, you can share your personalized speaking 'missions' with other learners - getting and giving feedback and extending your learning beyond the pages of the book . You don't need to go abroad to learn a language any more.

L'autrice nasce in Germania, dove vive un'infanzia felice, ma dopo la separazione dei genitori viene costretta a trasferirsi in Sicilia con la madre. Per fare chiarezza, soprattutto a se stessa, sui rapporti uomo-donna dal punto di vista psicologico, mette insieme una serie di interviste a donne single, uomini single, coppie, donne sposate, uomini sposati, amanti, nonch è lunghe istruttive chiacchierate tra donne, spietate nella descrizione delle loro quanto mai pittoresche esperienze sessuali. Tutto in chiave ironica e dissacrante. Quello che ne risulta è la constatazione che "" l'uomo ideale"" esiste, ma che spesso ci si accontenta di quello che capita, e che non sono i maschi quelli da combattere ma il maschilismo.

"Did Rudolf Steiner dream these things? Did he dream them as they once occurred, at the beginning of all time? They are, for sure, far more astonishing than the demiurges and serpents and bulls found in other cosmogonies." -- Jorge Luis BorgesRudolf Steiner recorded his view of the world in numerous books. He also gave more than 5,000 lectures, in which he explained his ideas, using only minimal notes. When describing especially difficult subjects, Steiner frequently resorted to illustrating what he was saying with colored chalk on a large blackboard. After his earlier lectures, the drawings were erased and irretrievably lost. After the autumn of 1919, however, thick black paper was used to cover the blackboards so that the drawings could be rolled up and saved.The Trustees of Rudolf Steiner's Estate in Dornach, Switzerland, possess more than a thousand such drawings. A selection of these drawings was first shown to the general public in 1992, and since then, exhibitions in Europe, America, and Japan have generated much interest in Steiner's works.

Come un'innocente gita al fiume può trasformarsi nella più inimmaginabile avventura della letteratura europea? Semplicemente inseguendo un coniglio bianco con un panciotto e un orologio da taschino. Comincia così, senza stupore, il viaggio di Alice nel paese delle meraviglie, uno strano mondo abitato da animali parlanti e stizzosi, sorridenti e sentenziosi. Ma la sua storia non è solo il capolavoro fiabesco che tutti hanno conosciuto, è anche una fitta trama di significati nascosti e palesi nonsensi, imbastita per scardinare le logiche anguste dei precetti morali. Il viaggio di Alice diventa così occasione, per adulti e bambini, di scoprire la luminosa mutevolezza di tutte le cose. Pubblicato per la prima volta a Londra da Macmillan & co, nel 1865
