An independent test organization is an organization, person, or company that tests products, materials, software, etc. according to agreed requirements. The test organization can be affiliated with the government or universities or can be an independent testing laboratory. They are independent because they are not affiliated with the producer nor the user of the item being tested: no commercial bias is present. These "contract testing" facilities are sometimes called "third party" testing or evaluation

These are just a few of the purposes or reasons why laboratory report forms are mandatory to be utilized. This is mainly due to the fact that these form templates make your lab reports look formal and organized. And that, with these laboratory forms, you will be able to produce or generate more accurate and formal reports.
