Ladies' Home Journal Meredith Books

An updated edition of a standard in its field that remains relevant more than thirty years after its original publication. Over thirty years ago, sociologist and University of California, Berkeley professor Arlie Hochschild set off a tidal wave of conversation and controversy with her bestselling book, *The Second Shift*.

Hochschild's examination of life in dual-career households finds that, factoring in paid work, child care, and housework, working mothers put in one month of labor more than their spouses do every year. Updated for a workforce that is now half female, this edition cites a range of updated studies and statistics, with an afterword from Hochschild that addresses how far working mothers have come since the book's first publication, and how much farther we all still must go.

Modern Print Activism in the United States
Copyright Office, Library of Congress
The explosion of print culture that occurred in the United States at the turn of the twentieth century activated the widespread use of print media to promote social and political activism. Exploring this phenomenon, the essays in Modern Print Activism in the United States focus on specific groups, individuals, and causes that relied on print as a vehicle for activism. They also take up the variety of print forms in which calls for activism have appeared, including fiction, editorials, letters to the editor, graphic satire, and non-periodical media such as pamphlets and calendars. As the contributors show, activists have used print media in a range of ways, not only in expected applications such as calls for boycotts and protests, but also for less expected aims such as the creation of networks among readers and to the legitimization of their causes. At a time when the golden age of print appears to be ending, Modern Print Activism in the United States argues that print activism should be studied as a specifically modernist phenomenon and poses questions related to the efficacy of print as a vehicle for social

and political change.

The Body Project Hassell Street Press

As the United States struggled to absorb a massive influx of ethnically diverse immigrants at the turn of the twentieth century, the question of who and what an American is took on urgent intensity. It seemed more critical than ever to establish a definition by which Americanness could be established, transmitted, maintained, and judged. Americans of all stripes sought to articulate and enforce their visions of the nation's past, present, and future; central to these attempts was President Theodore Roosevelt. Roosevelt fully recognized the narrative component of American identity, and he called upon authors of diverse European backgrounds including Israel Zangwill, Jacob Riis, Elizabeth Stern, and Finley Peter Dunne to promote the nation in popular written form. With the swell and shift in immigration, he realized that a more encompassing national literature was needed to "express and guide the soul of the nation." *Rough Writing* examines the surprising place and implications of the immigrant and of ethnic writing in Roosevelt's America and American literature.

The Role of Women as Portrayed in the Ladies' Home Journal, 1936-1939 and 1946-1950, and the Degree of Change Temple University Press

Practical approach to landscaping, with how-to directions. Ladies' Home Journal, January 2006 Franklin Classics

A hundred years ago, women were lacing themselves into corsets and teaching their daughters to do the same. The ideal of the day, however, was inner beauty: a focus on good deeds and a pure heart. Today American women have more social choices and personal freedom than ever before. But fifty-three percent of our girls are dissatisfied with their bodies by the age of thirteen, and many begin a pattern of weight obsession and dieting as early as eight or nine. Why? In *The Body Project*, historian Joan Jacobs Brumberg answers this question, drawing on diary excerpts and media images from 1830 to the present. Tracing girls' attitudes toward topics ranging from breast size and menstruation to hair, clothing, and

cosmetics, she exposes the shift from the Victorian concern with character to our modern focus on outward appearance—in particular, the desire to be model-thin and sexy. Compassionate, insightful, and gracefully written, *The Body Project* explores the gains and losses adolescent girls have inherited since they shed the corset and the ideal of virginity for a new world of sexual freedom and consumerism—a world in which the body is their primary project.

How are we to comprehend, diagnose, and counter a system of racist subjugation so ordinary it has become utterly asymptomatic? Challenging the prevailing literary critical inclination toward what makes texts exceptional or distinctive, *Genre and White Supremacy in the Postemancipation United States* underscores the urgent importance of genre for tracking conventionality as it enters into, constitutes, and reproduces ordinary life. In the wake of emancipation's failed promise, two developments unfolded: white supremacy amassed new mechanisms and procedures for reproducing racial hierarchy; and black freedom developed new practices for collective expression and experimentation. This new racial ordinary came into being through new literary and cultural genres—including campus novels, the Ladies' Home Journal, Civil War elegies, and gospel sermons. Through the

postemancipation interplay between aesthetic conventions and social norms, genre became a major influence in how Americans understood their social and political affiliations, their citizenship, and their race. Travis M. Foster traces this thick history through four decades following the Civil War, equipping us to understand ordinary practices of resistance more fully and to resist ordinary procedures of subjugation more effectively. In the process, he provides a model for how the study of popular genre can reinvigorate our methods for historicizing the everyday.

A Short History of Ladies Home Journal
NYU Press

Travel is sacred. Travel is a quest. Travel is an escape. Travel is a passion! It is enlightening, a distraction, a novelty, a dream fulfilled. It may inspire joy, terror, longing — often, all three. Women explorers and travelers are a special breed. Some were also great writers, recording their cross-cultural impressions with stunning vividness, blending history, myth, technology, and poetic imagination. The 22 courageous women profiled in this book encircled the globe. Together, they form a grand tradition and speak to us today as never before — Lady Hester Stanhope (1776-1839) left the comfort of England to wander through the Near East — never to return home, so deeply did she treasure her freedom - Fanny Lewald (1811-89) traveled through Europe and especially Italy to record its Risorgimento - Pandita Ramabai (1858-1922) traveled from India and lived through Western experiences that revamped her ideas - Daisy Bates (1859-1951), Irish to the roots, immersed herself in Australian Aborigines - Gertrude Bell (1868-1926), dubbed Queen of the Desert, was the most powerful woman in Edwardian

England - the Danish Isak Dinesen (1885-1962) made her mark in Africa - Ana ĩ s Nin (1903-77) may be thought of as a mental traveler - Freya Stark (1893-1993) — knighted by Queen Elizabeth for her contribution to travel literature — lived among the Druze of Syria and in shades of our own time researched the deadly terrorist group of ancient Persian Assassins - Oriana Fallaci (1930-) has literally covered the world - Valentina Vladimirovna Tereshkova (1937-), has surely traveled the farthest as the first woman in space A dozen other women who boldly crossed international barriers often to encounter the most patriarchal cultures of their time are focused on in this delightful book — a significant contribution to travel literature as well as to women ' s studies. Offering the first comparative study of 1920s ' US and Canadian print cultures, ' Imagining Gender, Nation and Consumerism in Magazines of the 1920s ' comparatively examines the highly influential ' Ladies ' Home Journal ' (1883 – 2014) and the often-overlooked ' Canadian Home Journal ' (1905 – 1958). Firmly grounded in the

latest advances in periodical studies, the book provides a timely contribution to the field in its presentation of a transferrable transnational approach to the study of magazines. While Canadian magazines have often been viewed, unflatteringly and inaccurately, as merely derivative of their American counterparts, Rachel Alexander asserts the value of an even-handed consideration of both. Such an approach acknowledges the complexity of these magazines as collaborative texts, cultural artefacts and commercial products, revealing that while these magazines shared certain commonalities, they functioned in differing – at times unexpected – ways. During the 1920s, both magazines were changing rapidly in response to technological modernity, altering gender economies and the burgeoning of consumer culture. ‘ Imagining Gender, Nation, and Consumerism in Magazines of the 1920s ’ explores the influences, tensions and interests that informed the magazines ’ construction of their audience of middle-class women as readers, consumers and citizens.
