This book is a compilation of rider profiles written over a three year period which originally appeared in the Classic Motorcycle magazine and with a new set of photographs. All of the riders featured became top men in their fields during their heyday although for some it was the first time they had ever been interviewed. During the 1950's and 60's scrambling especially drew huge crowds to meetings all across the country and thanks to the TV coverage many of the competitors featured became household names. Each chapter features the competition years of the riders but it gives an overview of their careers and tries to convey their enthusiasm for the sport not just statistics or facts and figures.

Particularly famous for their great adventures in the Monte Carlo rally, works Minis humbled many bigger and more powerful cars during the 1960s and 1970s. Mechanic Brian Moylan spent 22 years in the workshops of the BMC Competitions Department where the works cars were built. Here, all the secrets of how ordinary production line Mini Coopers were converted into the mighty giant-killing Minis of motorsport are revealed in full. Contributions from 'Ginger' Devlin & 'Jumping Jeff' Williamson reveal in detail the modifications to the works racing and rallycross cars respectively. "... invaluable to anyone restoring a period car ... good stuff if you're into nuts and bolts, and top value." - Classic & Sports Car "... a technical profile on the various modified Minis that were produced by the BMC competitions department for racing, rallying and rallycross. Separate chapters ... all backed up by appendices on the race and rallycross cars ... complete a package that will interest competitive Mini pilots" - Classics Acting Daft Veloce Publishing Ltd

This title gives a unique insight into the atmosphere and excitement of working in a motorcycle factory. This book provides a straight forward and easy to use guide to the beginner and seasoned mechanic/engine tuner. The book explains the fundamentals of electronic engine tuning in an easy to follow and linear manner. The reader can go chapter by chapter or skip to

whichever section interests them. The book begins with an introduction to Electronic Engine Tuning and covers the tools necessary for electronic tuning, the software required and other basics. The book then takes an in depth look at Fuel Injection, Ignition, Boost Control and Water Injection from the point of view of the electronic tuner. There is a dedicated chapter dealing with tuning for different fuel types and octane levels. Finally, I wrap things up by discussing the fundamentals of 1 dimensional and 2 dimensional mapping and providing a checklist for the beginner tuner to use when setting up an ECU on a new engine.

When Fiat entered rallying in 1970, its ultimate aim was to become World Rally Champion and the 131 Abarth of 1976-1980 provided the machinery to make that possible. It started winning World rallies within months of being launched, and in 1977, 1978 and 1980 the 'works' team also won the World Championship for Makes, and set every standard by which Rally Giants were to be judged. Was there ever any doubt that successors like the Lancia Rally 037 and the Delta Integrale would eventually come from the same stable?
