A quarter of a century ago, the Land Rover Discovery defined a stroke how traditional 4 x 4 all-terrain ability could co-exist with family-estate practicality at an affordable price. Since 1989, the Discovery has gone through several iterations, but its essential qualities have remained unchanged. Practical, capable, and above all completely distinctive - the stepped roof seemed odd at first but now defines the Discovery shape - the Discovery has gone on to become one of Land Rover's best-loved products. *Land Rover Discovery - 25 Years of the Family 4 x 4* looks in detail at the four generations of Discovery, including full specification details and production histories. Topics covered include the design and development of the original Discovery in the late 1980s, and the move into North America; the new 300Tdi engine and R380 gearbox of 1994, and the BMW takeover; Series II models of 1998-2004, and Land Rover's move from BMW to Ford; Discovery 3/'LR3' - 2004-2009, and the new TDV6 engine, developed by Jaguar; Discovery 4/'LR4' - the all-purpose family luxury car; special editions and derivatives of all four generations of Discovery, including Discoverys for the emergency services and the Camel Trophy and G4 Challenge competition vehicles. Superbly illustrated with 351 colour photographs.

whole new market for Land Rover, creating its own niche halfway between the traditional rough and ready Land Rover off-roader and the upmarket Range Rover cruiser. Its reputation as a rugged workhorse both on and off-road has ensured that the Discovery has remained one of the worlds best-selling 4x4s since its introduction. Revealed to the world in 1948, the Land-Rover not only revived the Rover Company's fortunes in an austerity-riddled post-war period, but galvanized its future, thanks to the model's almost immediate success. With the manufacture of an initial 48 'pre-production' examples coming to a close, the first official production models were assembled - starting with chassis 860001. As original factory records prove, this pivotal vehicle was destined for His Royal Highness King George VI, but the decision was made to postpone the presentation and instead, 'number one' was retained by the factory until 1950, when it was registered JUE 477 before leaving Rover Company ownership. After decades left out in the cold and exposed to the elements, 860001 had certainly seen better days, but thanks to the determination of Sir Jim Ratcliffe, founder and Chairman of INEOS, the future of JUE 477 was secured in 2017. Over the next two years, a dedicated team of experts, led by chief restorer, Julian Shoolheifer set about restoring the vehicle while retaining as much of its original DNA as was physically, and safely, possible and making sure that this remarkable vehicle's history and past life was still worn with pride.

A memoir of how a small number of British officers led Muslim soldiers in the hard-fought anti-insurgency war that

has shaped today's Gulf. While the Americans were fighting in Vietnam, a struggle of even greater strategic significance was taking place in the Middle East: The Sultanate of Oman stood guard at the entrance to the Arabian Gulf, and thus controlled the movement of oil from that region. In the 1960s and 70s, the Communists tried to seize this artery and, had they succeeded, the consequences for the West and for the Middle East would have been disastrous—and yet, few people have ever heard of this geo-political drama at the height of the Cold War. In the Service of the Sultan “ is an enthralling book. In a mere 180 pages, Ian Gardiner, an army officer who fought with the Sultan of Oman's forces, succeeds in three major objectives. He describes what it is like to be a young officer leading men of different nationalities into combat against wily and courageous guerrillas. He captures the landscape and the spirit of Oman, ‘ that entrancing, fascinating, hauntingly beautiful country. ’ Finally, he puts the battles he fought in their geopolitical context . . . It should be read with enduring pleasure by anyone who wishes to reaffirm his pride in his country and in its fighting forces ” (The Telegraph). “ For anyone interested in understanding the ingredients behind a successful counterinsurgency campaign, In the Service of the Sultan is a must read. ” —Imperial Armour Blogspot “ Politics, history, irregular warfare, religion, and international affairs: all are ingredients in this absorbing, informative read. ” —Oxford & Cambridge Club Military History Group

No Country for Old Men Bantam

This blistering novel—from the bestselling, Pulitzer Prize – winning author of The Road—returns to the Texas-Mexico border, setting of the famed Border Trilogy. The time is our own, when rustlers have given way to drug-runners and small towns have become free-fire zones. One day, a good old boy named Llewellyn Moss finds a pickup truck surrounded by a bodyguard of dead men. A load of heroin and two million dollars in cash are still in the back. When Moss takes the money, he sets off a chain reaction of catastrophic violence that not even the law – in the person of aging, disillusioned Sheriff Bell – can contain. As Moss tries to evade his pursuers – in particular a mysterious mastermind who flips coins for human lives – McCarthy simultaneously strips down the American crime novel and broadens its concerns to encompass themes as ancient as the Bible and as bloodily contemporary as this morning's headlines. No Country for Old Men is a triumph.
