In the 1980s and 90s the Australian Defence Force introduced a much-modified Land Rover 110 as the Defence Force's basic lightweight utility vehicle. The basic cargo and general service models of the Australian Land Rover 110 are known as the "Truck, Utility, Lightweight, MC2" and the "Truck, Utility, Lightweight, Winch, MC2" respectively. There are several specialist variants of the Australian Land Rover 110, but the base vehicle is the same in most cases. Although never its official name, the Australian Defence Force Land Rover 110 is known among military vehicle enthusiasts as the "Perentie." They are almost universally considered to be the most capable Land Rover 110/Defender vehicles in the world. The "Perentie" was popularised around the world as Major Les Hiddins' vehicle in the hit TV series "Bush Tucker Man." This handbook reproduces the Australian Army's Electrical and Mechanical Engineering Instructions for the basic Land Rover "Perentie." It's 622 pages comprise a complete electrical and mechanical repair and servicing handbook for these iconic vehicles. It covers everything from basic servicing to complete rebuilds of the vehicle. Available for the first time in print, this handbook is designed as a workshop reference manual. Don't rely upon loose paper printouts. This edition is purposefully a low cost option and it never goes out of print, so you can keep one copy with the vehicle and another in the workshop.

Getting a Rover K-Series engine properly up and running can be a difficult task, but ultimately the result is always worthwhile. Illustrated with over 300 photographs, Rover K-Series Engine - Maintenance, Repair and

Modification is a practical guide to keeping these unique engines in fine working order. The most well-known issue with the K-Series is the head gasket, and this book demonstrates how to identify common faults, before giving practical advice on how best to solve them. Step-by-step guidance on all aspects of long-term engine maintenance is provided, in addition to the improvements required to prevent further problems. A K-Series engine is then stripped down to examine its clever and interesting structure, and is rebuilt with improvements. Authors of over twenty automotive books and countless articles in assorted motoring magazines, Iain Ayre and Rob Hawkins have combined their knowledge to bring you this book on the Rover K-Series engine, which is fully illustrated with 356 colour photographs.
