From up-market Land Rover to art exhibit in the Louvre, from storming off-roader to luxury executive transport, the Range Rover has done it all. The Range Rover inspired a new breed of "leisure" vehicles, seeking to emulate its mix of on-road comfort and off-road prowess. The original Series 1 Range Rover remained in production for 26 years, until it was replaced by the up-market Series 2. The Series 3, launched in 2002, moves the Range Rover emphatically into the luxury car market. This all color book - part of the "You & Your" series - should fascinate all Range Rover owners and enthusiasts. This book covers how the Range Rover came about, the development story, evolution and model changes; how Land Rover made the Range Rover a true marketing success; the story behind the Series 2 Range Rover and the move up-market; the development of the Series 3, taking the Range Rover firmly into the luxury car market; how to go off-roading safely, and where to do it legally; buying a Range Rover, inspection advice, ownership, maintenance and modifications; specifications for all models, production figures, specialists and clubs.

Land Rover Freelander The Stationery Office

Revealed to the world in 1948, the Land-Rover not only revived the Rover Company's fortunes in an austerity-riddled post-war period, but galvanized its future, thanks to the model's almost immediate success. With the manufacture of an initial 48 'pre-production' examples coming to a close, the first official production models were assembled - starting with chassis 860001. As original factory records prove, this pivotal vehicle was destined for His Royal Highness King George VI, but the decision was made to postpone the presentation and instead, 'number one' was retained by the factory until 1950, when it was registered JUE 477 before leaving Rover Company ownership. After decades left out in the cold and exposed to the elements, 860001 had certainly seen better days, but thanks to the determination of Sir Jim Ratcliffe, founder and Chairman of INEOS, the future of JUE 477 was secured in 2017. Over the next two years, a dedicated team of experts, led by chief restorer, Julian Shoolheifer set about restoring the vehicle while retaining as much of its original DNA as was physically, and safely, possible and making sure that this remarkable vehicle's history and past life was still worn with pride.

The iconographic people, The 'Bushmen' or 'San' of the Kalahari, have been the subject of abundant social research over the years. Keyan Tomaselli and his research team from the University of KwaZulu-Natal reflect critically on the way the San have been represented. He uncompromisingly and aptly illustrates the many ethical contradictions in doing fieldwork among the San.
