KIT OMEGAS (4 cylinders) CNG - Landi Renzo

On carburetor engines, we use the 2nd generation system that has a switch that switches from gasoline to natural gas (CNG) marking the amount of gas inside the cylinder, pressure reducer of 3 stages with electric drive and manual adjustment of gas output. Installation Manual and Programming Key Switch 094M (Carburetor) Professional Autogas/CNG Installation | MLN Technology

Installation of an LPG or CNG system will not affect the vehicle 's ability to run on petrol. The driver may decide which fuel to use by simply pressing a changeover button on the dashboard. Today 's gas systems are easy to use as they ensure the vehicle always starts up running on petrol and automatically switches to gas after about 15 to 60 seconds, when optimal running parameters have ...
