A perfect and irresistible idea: A cookbook filled with delicious, healthful recipes created for everyone on a tight budget. While studying food policy as a master 's candidate at NYU, Leanne Brown asked a simple yet critical question: How well can a person eat on the \$4 a day given by SNAP, the U.S. government 's Supplemental Nutrition Assistance Program informally known as food stamps? The answer is surprisingly well: Broiled Tilapia with Lime, Spicy Pulled Pork, Green Chile and Cheddar Quesadillas, Vegetable Jambalaya, Beet and Chickpea Salad—even desserts like Coconut Chocolate Cookies and Peach Coffee Cake. In addition to creating nutritious recipes that maximize every ingredient and use economical cooking methods, Ms. Brown gives tips on shopping; on creating pantry basics; on mastering certain staples—pizza dough, flour tortillas—and saucy extras that make everything taste better,

like spice oil and tzatziki; and how to make fundamentally smart, healthful food choices. The idea for Good and Cheap is already proving itself. The author launched a Kickstarter campaign to self-publish and fund the buy one/give one model. Hundreds of thousands of viewers watched her video and donated \$145,000, and national media are paying attention. Even high-profile chefs and food writers have taken note—like Mark Bittman, who retweeted the link to the campaign; Francis Lam, who called it “ Terrific! ” ; and Michael Pollan, who cited it as a “ cool kickstarter. ” In the same way that TOMS turned inexpensive, stylish shoes into a larger do-good movement, Good and Cheap is poised to become a cookbook that every food lover with a conscience will embrace.

From the author of the bestselling Good & Cheap, a cookbook with self-care at its heart. Leanne Brown acknowledges that feeding yourself is hard, and that it is almost impossible to find the energy to work for yourself when you don ’ t think you are worth it. With these everyday recipes, she provides a reminder that it's OK to lose perfectionism and find pleasure in "good enough" cooking.

This book is open access under a CC BY 4.0 license. This book provides a fresh, updated and science-based perspective on the current status and prospects of the diverse array of topics related to the potato, and was written by distinguished scientists with hands-on global experience in research aspects related to potato. The potato is the third most important global food crop in terms of consumption. Being the only vegetatively propagated species among the world's main five staple crops creates both issues and opportunities for the potato: on the one hand, this constrains the speed of its geographic expansion and its options for international commercialization and distribution when compared with commodity crops such as maize, wheat or rice. On the other, it provides an effective insulation against speculation and unforeseen spikes in commodity prices, since the potato does not represent a good traded on global markets. These two factors highlight the underappreciated and underrated role of the potato as a dependable nutrition security crop, one that can mitigate turmoil in world food supply and demand and political instability in some developing countries. Increasingly, the global role of the potato has expanded from a profitable crop in developing countries to a crop providing income and nutrition security in developing ones. This book will appeal to academics and students of crop sciences, but also policy makers and other stakeholders involved in the potato and its contribution to humankind's food security.

**\*\*A Library Journal Best Book of 2015 \*\*** **\*\*A Christian Science Monitor Top Ten Book of September\*\*** In a world dominated by people and rapid climate change, species large and small are increasingly vulnerable to extinction. In *Resurrection Science*, journalist M. R. O'Connor explores the extreme measures scientists are taking to try and save them, from captive breeding and genetic management to de-extinction. Paradoxically, the more we intervene to save species, the less wild they often become. In stories of sixteenth-century galleon excavations, panther-tracking in Florida swamps, ancient African rainforests, Neanderthal tool-making, and cryogenic DNA banks, O'Connor investigates the philosophical questions of an age in which we "play god" with earth's biodiversity. Each chapter in this beautifully written book focuses on a unique species--from the charismatic northern white rhinoceros to the

---

infamous passenger pigeon--and the people entwined in the animals' fates. Incorporating natural history and evolutionary biology with conversations with eminent ethicists, O'Connor's narrative goes to the heart of the human enterprise: What should we preserve of wilderness as we hurtle toward a future in which technology is present in nearly every aspect of our lives? How can we co-exist with species when our existence and their survival appear to be pitted against one another?

### *Good and Cheap* Unexpected Arrivals

In the sleepy town of Townsend, Washington, there was an act so gruesome that no one would ever be the same. What heinous crime do I speak of? Skylar Torres thinking she could pull off a crop top with that pudgy body of hers. Oh, did you think I was going to say my murder. Well, I thought it was more sensational than anything else, but the real scandal was who killed me and why. You should already know my name since it was on everyone's lips once they found me with my throat ripped out. People thought they should have only feared me, but the Liberty Lion's cheer squad knew one thing, hunt or be hunted. No one's hands were truly clean from all the dirt and blood on them. A Romeo & Juliet tale for Hamilton! fans. In post-American Revolution New York City, Theodosia Burr, a scholar with the skills of a socialite, is all about charming the right people on behalf of her father-Senator Aaron Burr, who is determined to win the office of president in the pivotal election of 1800. Meanwhile, Philip Hamilton, the rakish son of Alexander Hamilton, is all about being charming on behalf of his libido. When the two first meet, it seems the ongoing feud between their politically opposed fathers may be hereditary. But soon, Theodosia and Philip must choose

between love and family, desire and loyalty, and preserving the legacy their flawed fathers fought for or creating their own. Love, Theodosia is a smart, funny, swoony take on a fiercely intelligent woman with feminist ideas ahead of her time who has long-deserved center stage. A refreshing spin on the Hamiltonian era and the characters we have grown to know and love. It's also a heartbreaking romance of two star-crossed lovers, an achingly bittersweet "what if." Despite their fathers' bitter rivalry, Theodosia and Philip are drawn to each other and, in what unrolls like a Jane Austen novel of manners, we find ourselves entangled in the world of Hamilton and Burr once again as these heirs of famous enemies are driven together despite every reason not to be.

Cities have been some of the most visible manifestations of the evolution of globalization and population expansion, and global cities are at the cutting edge of such changes. Critical Dialogues of Urban Governance, Development and Activism examines changes in governance, property development, urban politics, and community activism in two key global cities: London and Toronto. By taking these two cities as empirical cases, the book engages in constructive dialogues about the forms, governmental mechanisms and

practices, and policy and community-based responses to the concerns facing modern urban centers. Through three central issues, governance, real estate and housing, and community activism and engagement, the authors seek to understand London and Toronto from a nuanced perspective, promoting critical reflection on the experiences and evaluative critiques of each urban context, providing insight into each city's trajectory and engaging critically with wider phenomena and influences on the urban governance challenges in cities beyond.

A cheeky account of a chubby law graduate, as he waddles through life and law text books, in his rather futile attempts at wooing his pretty Gujarati classmate. Ankur Palekar, a third year law student believes his life is quite sorted out, except that he does not want to become a lawyer, has a family history of lunacy and has actually fallen in love. Vyas, Ankur's room mate and best friend, has no such problems - only a girl friend who emerges from a grave yard of all places and who insists on visiting him in his boy's hostel. A Malayali friend, whose car never starts and vocal chords never stop, a college festival being organized without the college and an arranged marriage which is more deranged than arranged are some of the other highlights. Funny, pacey, yet it has it's moments, 'When a Lawyer falls in love....'

"Choctaw Food tells the story of a group of people and the land. Through hundreds of generations living in the American Southeast, Choctaw ancestors wove the region's landscapes into their language, culture, and food. The foodway that they developed was local and productive. Its dishes were flavorful and healthy. Its food production activities brought the community together in a way that was sustainable on the land. Today, this foodway is one of the most threatened parts of our traditional culture. Yes, it contains timeless insights that have the potential to improve quality of life in the 21st century. The pages of this book delve deep into Choctaw history to bring to light the type of practical knowledge needed to bring Indigenous Choctaw food back to the family dinner table. This story is uniquely Choctaw, and yet, it is connected with the heritage of everyone who has ancestors that lived closely with the land."--Page 4 of cover.

A sweeping, lyrical tale of historical fiction that tells the unbelievable story of the early days of the Mormon church through the eyes of

the woman who saw it all—Emma, the first wife of the prophet Joseph Smith. In 1825, in rural Pennsylvania, Emma Hale marries an itinerant treasure-digger, a man who has nothing but a peep-stone in his pocket and a conviction that he can speak directly to God. His name is Joseph Smith and in a few short years, he will found his own religion, gather zealous adherents by the tens of thousands, and fracture Emma's life and faith. While the Mormon religion finds its feet and runs beyond the grasp of its founder, Emma struggles to maintain her place in Joseph's heart—and in the religion that has become her world. The Mormons make themselves outcasts everywhere they go. Joseph can only maintain his authority by issuing ever-stranger commandments on God's behalf, culminating in an edict that men should marry as many women as they please. The Mormons' adoption of polygamy only sets them further apart, and soon their communities are ravaged by violence at the hands of their outraged fellow Americans. For Emma, things take a more personal toll as Joseph brings in a new wife—a woman whom Emma considers a sister. As Emma's family grows along with Joseph's infamy, she knows there will never be peace until Joseph faces the law. But on the half-wild edge of the frontier, he's more likely to find death at the hands of a vigilante posse than a fair trial. For the sake of her people—and her soul—Emma must convince the Prophet of God to surrender... and perhaps to sacrifice his life.
