They say there are no second acts in American lives, and third acts are almost unheard of. That's part of what makes Brian Wilson's story so astonishing. As a cofounding member of the Beach Boys in the 1960s, Wilson created some of the most groundbreaking and timeless popular music ever recorded. With intricate harmonies, symphonic structures, and wide-eyed lyrics that explored life's most transcendent joys and deepest sorrows, songs like "In My Room," "God Only Knows," and "Good Vibrations" forever expanded the possibilities of pop songwriting. Derailed in the 1970s by mental illness, drug use, and the shifting fortunes of the band, Wilson came back again and again over the next few decades, surviving and—finally—thriving. Now, for the first time, he weighs in on the sources of his creative inspiration and on his struggles, the exhilarating highs and the debilitating lows. I Am Brian Wilson reveals as never before the man who fought his way back to stability and creative relevance, who became a mesmerizing live artist, who forced himself to reckon with his own complex legacy, and who finally completed Smile, the legendary unfinished Beach Boys record that had become synonymous with both his genius and its destabilization. Today Brian Wilson is older, calmer, and filled with perspective and forgiveness. Whether he's talking about his childhood, his bandmates, or his own inner demons, Wilson's story, told in his own voice and in his own way, unforgettably illuminates the man behind the music, working through the turbulence and discord to achieve, at last, a new harmony.

A perfect and irresistible idea: A cookbook filled with delicious, healthful recipes created for everyone on a tight budget. While studying food policy as a master's candidate at NYU, Leanne Brown asked a simple yet critical question: How well can a person eat on the \$4 a day given by SNAP, the U.S. government's Supplemental Nutrition Assistance Program informally known as food stamps? The answer is surprisingly well: Broiled Tilapia with Lime, Spicy Pulled Pork, Green Chile and Cheddar Quesadillas, Vegetable Jambalaya, Beet and Chickpea Salad—even desserts like Coconut Chocolate Cookies and Peach Coffee Cake. In addition to creating nutritious recipes that maximize every ingredient and use economical cooking methods, Ms. Brown gives tips on shopping; on creating pantry basics; on mastering certain staples—pizza dough, flour tortillas—and saucy extras that make everything taste better, like spice oil and tzatziki; and how to make fundamentally smart, healthful food choices. The idea for Good and Cheap is already proving itself. The author launched a Kickstarter campaign to self-publish and fund the buy one/give one model. Hundreds of thousands of viewers watched her video and donated \$145,000, and national media are paying attention.

Even high-profile chefs and food writers have taken note—like Mark Bittman, who retweeted the link to the campaign; Francis Lam, who called it “Terrific!”; and Michael Pollan, who cited it as a “cool kickstarter.” In the same way that TOMS turned inexpensive, stylish shoes into a larger do-good movement, Good and Cheap is poised to become a cookbook that every food lover with a conscience will embrace.

How we raise young children is one of today's most highly personalized and sharply politicized issues, in part because each of us can claim some level of "expertise." The debate has intensified as discoveries about our development-in the womb and in the first months and years-have reached the popular media. How can we use our burgeoning knowledge to assure the well-being of all young children, for their own sake as well as for the sake of our nation? Drawing from new findings, this book presents important conclusions about nature-versus-nurture, the impact of being born into a working family, the effect of politics on programs for children, the costs and benefits of intervention, and other issues. The committee issues a series of challenges to decision makers regarding the quality of child care, issues of racial and ethnic diversity, the integration of children's cognitive and emotional development, and more. Authoritative yet accessible, From Neurons to Neighborhoods presents the evidence about "brain wiring" and how kids learn to speak, think, and regulate their behavior. It examines the effect of the climate-family, child care, community-within which the child

grows.

One-in-seven adults and one-in-five children in the United States live in poverty. Individuals and families living in povertyÉnot only lack basic, material necessities, but they are also disproportionately afflicted by many social and economic challenges. Some of these challenges include the increased possibility of an unstable home situation, inadequate education opportunities at all levels, and a high chance of crime and victimization. Given this growing social, economic, and political concern, The Hamilton Project at Brookings asked academic experts to develop policy proposals confronting the various challenges of America's poorest citizens, and to introduce innovative approaches to addressing poverty.ÉWhen combined, the scope and impact of these proposals has the potential to vastly improve the lives of the poor. The resulting 14 policy memos are included in The Hamilton Project's Policies to Address Poverty in America. The main areas of focus include promoting early childhood development, supporting disadvantaged youth, building worker skills, and improving safety net and work support.

Scholarly essays on the achievements of female artists working in and inspired by the American South Looking back at her lengthy career just four years before her death, modernist painter Nell Blaine said, "Art is central to my life. Not being able to make or see art would be a major deprivation." The Virginia native's creative path began early, and, during the course of her life, she overcame significant barriers in her quest to make and even see art, including serious vision problems, polio, and paralysis. And then there was her gender. In 1957 Blaine was hailed by Life magazine as someone to watch, profiled alongside four other emerging painters whom the journalist praised "not as notable women artists but as notable artists who happen to be women." In Central to Their Lives, twenty-six noted art historians offer scholarly insight into the achievements of female artists working in and inspired by the American South. Spanning the decades between the late 1890s and early 1960s, this volume examines the complex challenges these artists faced in a traditionally conservative region during a period in which women's social, cultural, and political roles were being redefined and reinterpreted. The presentation—and its companion exhibition—features artists from all of the Southern states, including Dusti Bongé, Anne Goldthwaite, Anna Hyatt Huntington, Ida Kohlmeyer, Lois Mailou Jones, Alma Thomas, and Helen Turner. These essays examine how the variables of historical gender norms, educational barriers, race, regionalism, sisterhood, suffrage, and modernism mitigated and motivated these women who were seeking expression on canvas or in clay. Whether working from studio space, in spare rooms at home, or on the world stage, these artists made remarkable contributions to the art world while fostering future generations of artists through instruction, incorporating new aesthetics into the fine arts, and challenging the status quo. Sylvia Yount, the Lawrence A. Fleischman Curator in Charge of the American Wing at the Metropolitan Museum of Art, provides a foreword to the volume. Contributors: Sara C. In In the Bleak Midwinter, Julia Spencer-Fleming's Malice Domestic-winning first mystery, Reverend Clare Fergusson was quickly introduced to a more eventful life than she had expected after moving to the small town of Millers Kill in upstate New York. But the Episcopal priest and former Army Air Force chopper pilot proved to her flock—and to police chief Russ Van Alstyne—that she could cope with the unexpected, even when it was as dire as murder. In this new adventure for the two ill-matched friends (who are gamely resisting something beyond friendship), evidence shows that a small town can hold just as much evil as the Wicked City. The Chicago Tribune says "[Spencer-Fleming] pulls it off again" in A Fountain Filled With Blood.

With many scholars and analysts questioning the relevance of deterrence as a valid strategic concept, this volume moves beyond Cold War nuclear deterrence to show the many ways in which deterrence is applicable to contemporary security. It examines the possibility of applying deterrence theory and practice to space, to cyberspace, and against non-state actors. It also examines the role of nuclear deterrence in the twenty-first century and reaches surprising conclusions.

The remarkable life and times of the man who popularized American folk music and created the science of song Folklorist, archivist, anthropologist, singer, political activist, talent scout, ethnomusicologist, filmmaker, concert and record producer, Alan Lomax is best remembered as the man who introduced folk music to the masses. Lomax began his career making field recordings of rural music for the Library of Congress and by the late 1930s brought his discoveries to radio, including Woody Guthrie, Pete Seeger, and Burl Ives. By the 1940s he was producing concerts that brought white and black performers together, and in the 1950s he set out to record the whole world. Lomax was also a controversial figure. When he worked for the U. S. government he was tracked by the FBI, and when he worked in Britain, MI5 continued the surveillance. In his last years he turned to digital media and developed technology that anticipated today's breakthroughs. Featuring a cast of characters including Eleanor Roosevelt, Leadbelly, Carl Sandburg, Carl Sagan, Jelly Roll Morton, Muddy Waters, and Bob Dylan, Szwed's fascinating biography memorably captures Lomax and provides a definitive account of an era as seen through the life of one extraordinary man. *Central to Their Lives* HarperCollins
