A regional language is a language spoken in an area of a sovereign state, whether it be a small area, a federated state or province or some wider area. Internationally, for the purposes of the European Charter for Regional or Minority Languages, "regional or minority languages" means languages that are: traditionally used within a given territory of a State by

nationals of that State who form a group numerically smaller than the rest of the State's population and different from the official lang

To open the Region and Language window, do the following: In Windows 8, move the pointer over the lower-left corner of the desktop, then right-click and choose Control Panel. Click the Clock, Language, and Region option then click the Region link. In Windows 7, choose Start > Control Panel and then click the Region and Language link.
