Elsevier Adaptive Learning for the Language of Medicine Access Card Saunders

Reinforce your understanding of medical terminology and apply your knowledge to the clinical setting! Corresponding to The Language of Medicine, 9th Edition, by Davi- Ellen Chabner, BA, MAT, this online course supplements the textbook with interactive exercises, dynamic animations, and narrated slide shows. Together with the text, Medical Terminology Online helps you develop the specialized vocabulary you need to communicate effectively in practice and the word analysis skills you need to define unfamiliar terms. Learning objectives reflect the objectives in the textbook. Threaded case studies highlight patients with particular medical conditions, revisiting those patients throughout a module in a real-world application of medical terminology. Interactive exercises help you recall and recognize medical terms through word building, labeling, spelling, image association, pronunciation, matching, true/false, fill-in-the-blank, and case studies. Medical records activities help you become familiar with entries and terminology in the medical record. Catch That? activities provide review questions and include a link to remediation content for incorrect answers. Glossary of over 5,000 terms offers quick access to definitions along with pronunciations in English and Spanish. Bolded and linked terms connect quickly and easily to definitions and audio pronunciations of terms. Enhanced art program includes additional photos beyond those in the textbook. Animations and slide

shows demonstrate physiologic processes and communicate difficult concepts. Self-mastery quizzes allow you to assess your knowledge at the end of each section to determine your strengths and weaknesses. Self-mastery exams in each module are automatically scored and reported to the instructor. Website activities include online links that allow you to conduct further research. A new design reflects the appearance of the book's latest edition, and includes easier site navigation. Updated content includes new terms and abbreviations reflecting advances in technology and changes in health care. Outcome-based learning includes an objective for each module, with an assessment in each section to determine whether you have achieved the desired outcome/objective.

Medical Terminology Online for the Language of Medicine (User Guide, Access Code, Textbook and Mosby's Dictionary 7e Package) Saunders

Bring medical terminology to life with Davi- Ellen Chabner's bestselling The Language of Medicine, 10th Edition! By presenting medical terms within the context of the body ' s anatomy and physiology, and in health and disease, this proven resource makes it easy to learn a working medical vocabulary built on the most frequently encountered prefixes, suffixes, and combining forms. Practical exercises and case studies demonstrate how medical terms are used in practice. Add an engaging student Evolve website with medical animations and videos, word games, flash cards, and more, and you ' ll be ready to communicate confidently in the clinical setting and succeed in your healthcare career. Simple, clear, non- technical explanations demystify medical terminology even if you have little or no background in medicine or science. Practical applications such as case reports, operative and diagnostic tests, and laboratory and x-ray reports demonstrate the use of medical terminology in practice. Self-study text/workbook approach reinforces learning every step of the way with labeling diagrams, pronunciation tests, and review sheets. Full-color illustrations depict anatomy, physiology, and pathology, putting medical terms in the context of the body ' s structure and function. Comprehensive glossaries and appendices serve as quick references for use in the classroom and on the job. Medical report exercises in each chapter utilize chart notes, histories, and reports to give you practice working with realistic documents. Additional pathology photos clarify terminology and help you identify medical conditions you may encounter in practice. Updated content reflects the latest advances in digestive system operative procedures, the human genome project, normal values for tests in practical applications, and muscle function. The companion CD

tests your ability to identify terms by their pronunciation and provides a fun, engaging way to review terms through games, study tips, photographs, video clips, and animations. A companion Evolve website enables you to assess your understanding with quizzes for each chapter that provide immediate feedback to help you identify specific areas for review.

Medical Terminology Saunders

Vibrational Waters. The Therapeutical Properties of Sacred Springs By Fabio Nocentini This book addresses in detail the subject of vibrational waters: waters that flow in locations of high energy and that can be used in a similar way to homeopathic and Bach flower remedies to promote mental and physical wellbeing. Some of them are also called "Marian Waters" or "Holy Waters," when they originate in a place dedicated to the Catholic faith, yet they are all considered vibrational remedies in every respect, as they have specific energy frequencies. Available in many countries, these waters can be found in shrines or temples of various religions, but also in archaeological or naturalist sites: from Lourdes to the Japanese temple of Kibune, from Fatima and Santa Lucia to Machu Picchu, from the River Ganges and River Jordan to grottos and monasteries. 50 different waters have been studied, using techniques such as dowsing and kinesiological testing. Each water is accurately described in an individual Descriptive Profile, that contains a large amount of information on the curative properties of the water for emotional and mental problems, how it can improve the related physical disturbances, its special uses (for example, application on the body or purification of the environment), the meridians (Traditional Chinese Medicine) and chakras on which it acts and the analogy with Bach flower remedies. Other chapters are dedicated to the ways of using vibrational waters, the procedure to faithfully reproduce them and the methods adopted to discover their characteristics. The final chapter reports some Summarizing Tables to find the most appropriate waters in relation to different problems. LIST OF THE 50 WATERS PRESENTED IN THE E-BOOK:

Banneux (Belgium), Boa Vontade (Brazil), Shrine of Caravaggio (Italy), Chalice Well (United Kingdom), Collevallenza (Italy), Delphi (Greece), Einsiedeln (Switzerland), Ephesus (Turkey), Fatima (Portugal), Fonte delle Fate (Italy), Gallinaro (Italy), River Ganges (India), Gibilmanna (Italy), River Jordan (Israel), Kibune (Japan), Saint Konrad (Germany), La Salette (France), Lichen (Poland), Loreto (Italy), Lourdes (France), Machu Picchu (Peru), Madonna del Sasso (Italy), Maranatha (USA), Maria SS. della Fontenova (Italy), Maria SS. dello Splendore (Italy), Medjugorje (Bosnia and Herzegovina), Montichiari (Italy), Notre-Dame du Folgoet (France), Notre-Dame de la Guérison (Italy), Omiwa (Japan), Oropa (Italy), Otto (Italy), Our Lady of Knock (Ireland), Shrine of Padre Pio (Italy), Sacro Speco (Italy), Saint Ann (USA), Saint Columba (United Kingdom), Saint Nectan (United Kingdom), Saint Paraskevi (USA), Saint-Sulpice (France), San Damiano (Italy), San Filippo Benizi (Italy), San Lazzaro degli Armeni (Italy), Santa Lucia (Italy), Santa Maria alla Fontana (Italy), Santa Maria de Guadalupe (Mexico), Santa Maria della Salute (Italy), Santa Maria in Via (Italy), Santiago de Compostela (Spain), Su Tempiesu (Italy). The book also contains: some photos of the places where the sacred springs are located; the pattern of the regular decagon to enhance and reproduce vibrational remedies; other illustrations about dowsing, kinesiological testing, aura and chakras.
