Christopher, the leader of an elite U.S. special operations unit undertakes one of the most important missions of his military career, attempting to rescue a French journalist kidnapped by ISIS, while distracted with trusting God over himself. He is confused and angry with God and ineffective in his leadership, however, Jackson, the team-deputy and long-time mentor and friend provides much-needed stability for Christopher and the team. The operation reinforces in Christopher that God was not to be trusted when needed most and Jackson leaves the mission searching for God and meaning to his life, as the men prepare to return to Washington D.C for debriefing. As Christopher and his team redeploy from the rescue mission back to Washington D.C., they find themselves out of work as the National Security Advisor deactivates the Christopher-led unit pending an investigation into the failed journalist rescue. Things go from bad to worse for Christopher and Jackson as the two disgraced soldiers are thrust, unbeknownst to them, into the midst of the Rapture. They attempt to keep the chaos of a post-rapture world at bay, in a series of globetrotting missions, from rural Virginia to Brazil, ancient Babylon to remote Alaska. The actions of the president and others leave the world on the brink of World War. Christopher continues throughout each mission to trust himself above God. He refuses to listen to the Holy Spirit-inspired advice that those around him provide and the question lingers will he reconcile and surrender his pain to God.

Covering the Millerite movement of the 1830s and 1840s, sabbatarian Adventism prior to organization of the denomination, and the Seventh-day Adventist Church since its organization in 1861-63, this volume provides a comprehensive history of the denomination. The first major element of the book is a chronology of Adventist history that begins with William Miller's conclusion in 1818 that the Second Advent of Jesus would occur about 1843 and extends through the Science and Theology Conferences of 2002-04. The interpretive introduction that follows places the emergence of Adventism within the context of the Second Great Awakening, describes the development of sabbatarian Adventism from its early opposition to church organization to its highly institutionalized and bureaucratically structured contemporary form, and examines the denomination's geographical expansion from a small North American sect to a global church. The dictionary entries that constitute the bulk of the volume address individuals, organizations, institutions, and doctrines that have been important in the history of the church, including dissident movements and individuals who have emerged as critics of the denomination and its beliefs. Second, there are entries on the development and current situation of Adventism in many individual countries. Finally, thematic entries on such subjects as art, music, literature, health care, and women address other elements important to understanding church life. The dictionary entries are followed by a bibliography of scholarly and popular works published by the denomination, commercial and academic presses, and individuals and organizations.

This book approaches environmentalism via two academic disciplines, sociology and philosophy. Both have concerns about the environment's ability not only to sustain itself but to thrive. The authors argue that rather than simple sustainability, we must promote thrivability for the sake of protecting the environment and all living things. In this greatly expanded second edition, the authors have updated data and examples, introduced new topics and concepts, and emphasized the need to lessen our dependence on fossil fuels. Numerous topics are explored, from the differences between sustainability and thrivability, and the overuse of plastic, to mass extinction, the role of natural disasters and more. The Covid-19 pandemic offers an added perspective on the relationship between disease and the environment.

Physical health influences spiritual and emotional health as well as the ability to minister effectively. As Ellen White said so succinctly: "The misuse of our physical powers shortens the period of time in which our lives can be used for the glory of God. And it unfits us to accomplish the work God has given us to do" (Christ's Object Lessons, p. 346). In this volume Dennis Smith invites you to spend 40 days continuing the work God has given you while exploring a wholistic view of health the importance of caring for mind, body, and soul and the integral role of the health message during these last days of earth's history.

The impact of The Late Great Planet Earth cannot be overstated. The New York Times called it the "no. 1 non-fiction bestseller of the decade." For Christians and non-Christians of the 1970s, Hal Lindsey's blockbuster served as a wake-up call on events soon to come and events already unfolding -- all leading up to the greatest event of all: the return of Jesus Christ. The years since have confirmed Lindsey's insights into what biblical prophecy says about the times we live in. Whether you're a church-going believer or someone who wouldn't darken the door of a Christian institution, the Bible has much to tell you about the imminent future of this planet. In the midst of an out-of-control generation, it reveals a grand design that's unfolding exactly according to plan. The rebirth of Israel. The threat of war in the Middle East. An increase in natural catastrophes. The revival of Satanism and witchcraft. These and other signs, foreseen by prophets from Moses to Jesus, portend the coming of an antichrist . . . of a war which will bring humanity to the brink of destruction . . . and of incredible deliverance for a desperate, dying planet.

The Final Battle for Earth presents events contained in the Book of Revelation (a 2000-year-old prophetic book in the Holy Bible) as a well-orchestrated divine plan to take over the control of the earth from Satan. This final battle to crush Satan and his minions will be accompanied by a series of cataclysmic natural and anthropogenic events (hunger, economic crisis, war, pandemics), and unprecedented natural disasters that may be attributed to climate change. There is a consensus that the earth is facing a dangerous future. The United Nations projects that almost half of humanity is at risk of dying. While the scientific community link this danger to climatic impacts, many Christians believe that the end of age is imminent. Cryptic details of the events surrounding the Second Coming of Christ and end of age carefully hidden in the Revelation, predict a series of catastrophic events that will cause the death of over half of the world's population. The Final Battle for Earth thoughtfully outlines the end-time events and challenges long-held ideas and theories concerning the end-time--especially those surrounding the fall of Satan, the great the tribulation, the rapture, the first resurrection, the Battle of Armageddon, and what is expected of Christians during the end-time.

Divine Predictions of Mrs. Ellen G. White Fulfilled Paradigma Ltd

"The Lord has shown me that Satan was once an honored angel in heaven, next to Jesus Christ. His countenance was mild, expressive of happiness like the other angels. His forehead was high and broad, and showed great intelligence. His form was perfect. He had noble, majestic bearing. And I saw that when God said to his Son, Let us make man in our image, Satan was jealous of Jesus. He wished to be consulted concerning the formation of man. He was filled with envy, jealousy and hatred. He wished to be the highest in heaven, next to God, and receive the highest honors. Until this time all heaven was in order, harmony and perfect subjection to the government of God."-Ellen G White

Revelation Zondervan

The missionary work of the Seventh-day Adventist Church started in Southern Malawi in 1902, and histories of churches are usually told from that starting point. This book uses a different approach, it tells the story of Lunjika Mission (earlier called Mombera Mission) which begins in 1932, showing how the SDA Church met a new culture, that of the strongly patrilineal Ngoni and their neighbours to the North, and how it dealt with other churches that had started missionary work in that broad area up to two generations before.
