Lunardi delves into the early days of Bracketology, details its growth, and dispels the myths of the process The NCAA Tournament has become one of the most popular sports events in the country, consuming fans for weeks with the run to the Final Four and ultimately the crowning of the champion of college hoops.? Each March, millions of Americans fill out their bracket in the hopes of correctly predicting the future. Yet, there is no true Madness without the oft-debated question about what teams should be seeded where—from the Power-5 Blue Blood with some early season stumbles on their resume to the mid-major that rampaged through their less competitive conference season—and the inventor of Bracketology himself, Joe Lunardi, now reveals the mystery and science behind the legend. While going in depth on his ever-evolving predictive formula, Lunardi compares great teams from different eras with intriguing results, talks to the biggest names in college basketball about their perception of Bracketology (both good and bad), and looks ahead to the future of the sport and how Bracketology will help shape the conversation. This fascinating book is a must-read for college hoops fans and anyone who has aspired to win their yearly office pool.

NEW YORK TIMES BESTSELLER • “A world of invention and skulduggery, populated by the likes of Edison, Westinghouse, and Tesla.” —Erik Larson “A model of superior historical fiction . . . an exciting, sometimes astonishing story.” —The Washington Post From Graham Moore, the Oscar-winning screenwriter of *The Imitation Game* and New York Times bestselling author of *The Sherlockian*, comes a thrilling novel—based on actual events—about the nature of genius, the cost of ambition, and the battle to electrify America. New York, 1888. Gas lamps still flicker in the city streets, but the miracle of electric light is in its infancy. The person who controls the means to turn night into day will make history—and a vast fortune. A young untested lawyer named Paul Cravath, fresh out of Columbia Law School, takes a case that seems impossible to win. Paul’s client, George Westinghouse, has been sued by Thomas Edison over a billion-dollar question: Who invented the light bulb and holds the right to power the country? The case affords Paul entry to the heady world of high society—the glittering parties in Gramercy Park mansions, and the more insidious dealings done behind closed doors. The task facing him is beyond daunting. Edison is a wily, dangerous opponent with vast resources at his disposal—private spies, newspapers in his pocket, and the backing

of J. P. Morgan himself. Yet this unknown lawyer shares with his famous adversary a compulsion to win at all costs. How will he do it? In obsessive pursuit of victory, Paul crosses paths with Nikola Tesla, an eccentric, brilliant inventor who may hold the key to defeating Edison, and with Agnes Huntington, a beautiful opera singer who proves to be a flawless performer on stage and off. As Paul takes greater and greater risks, he’ll find that everyone in his path is playing their own game, and no one is quite who they seem. **NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE WASHINGTON POST AND THE PHILADELPHIA INQUIRER** “A satisfying romp . . . Takes place against a backdrop rich with period detail . . . Works wonderfully as an entertainment . . . As it charges forward, the novel leaves no dot unconnected.” —Noah Hawley, *The New York Times Book Review*

“Though St. John the Evangelist saw many strange monsters in his vision, he saw no creature so wild as one of his own commentators.” ~ G.K. Chesterton The book of Revelation was written to do just that: reveal. But most commentaries nowadays either engage in bizarre speculations about the future, or they keep an embarrassed distance from all the apocalyptic events that the apostle John says will “shortly take place.” In this commentary, Douglas Wilson provides a passage-by-passage walkthrough of the entire book, showing how John’s most notorious prophecies concern the Fall of Jerusalem in A.D. 70. Explaining symbols and characters as he goes, Wilson shows from the text that not only is this book not an elaborate code, but that Revelation is not even ultimately concerned with the end of the world as we know it. Revelation is about the triumph of the Church, which always happens when the Man comes around.

Wars and Rumors of Wars Triumph Books

A stunningly ambitious, prescient novel about madness, generational trauma, and cultural breakdown At the outset of the 2008 financial crisis, Em has a dependable, dull marketing job generating reports of vague utility while she anxiously waits to hear news of her sister, Ad, who has gone missing—again. Em’s days pass drifting back and forth between her respectably cute starter house (bought with a “responsible, salary-backed, fixed-rate mortgage”) and her dreary office. Then something unthinkable, something impossible, happens and she begins to see how madness permeates everything around her while the mundane spaces she inhabits are transformed, through Lucy Corin’s idiosyncratic magic, into shimmering sites of the uncanny. The story that swirls around Em moves through several perspectives and voices. There is Frank, the tart-tongued, failing manager at her office; Jack, the man with whom Frank has had a love affair for decades; Em and Ad’s eccentric parents, who live in a house that is

perpetually being built; and Tasio, the young man from Chiapas who works for them and falls in love with Ad. Through them Corin portrays porousness and breakdown in individuals and families, in economies and political systems, in architecture, technology, and even in language itself. The Swank Hotel is an acrobatic, unforgettable, surreal, and unexpectedly comic novel that interrogates the illusory dream of stability that pervaded early twenty-first-century America.

The instant New York Times bestseller from author, comedian and actor Patton Oswalt, a "heartfelt and hilarious" (USA TODAY) memoir about coming of age as a performer during the late 1990s while obsessively watching classic films at a legendary theater in Los Angeles. "[Oswalt has] a set of synapses like a pinball machine and a prose style to match" (The New York Times). Between 1995 and 1999, Patton Oswalt lived with an unshakable addiction. It wasn't drugs, alcohol, or sex: it was film. After moving to Los Angeles, Oswalt became a huge film buff (or as he calls it, a sprocket fiend), absorbing classics, cult hits, and new releases at the famous New Beverly Cinema. Silver screen celluloid became Patton's life schoolbook, informing his notion of acting, writing, comedy, and relationships. Set in the nascent days of LA's alternative comedy scene, Silver Screen Fiend chronicles Oswalt's journey from fledgling stand-up comedian to self-assured sitcom actor, with the colorful New Beverly collective and a cast of now-notable young comedians supporting him all along the way. "Clever and readable...Oswalt's encyclopedic knowledge and frothing enthusiasm for films (from sleek noir classics, to gory B movies, to cliché-riddled independents, to big empty blockbusters) is relentlessly present, whirring in the background like a projector" (The Boston Globe). More than a memoir, this is "a love song to the silver screen" (Paste Magazine).

"Ingenious and funny . . . Magnificent." -- Alan Moore, creator of Watchmen and V for Vendetta Jack Sparks died while writing this book. It was no secret that journalist Jack Sparks had been researching the occult for his new book. No stranger to controversy, he'd already triggered a furious Twitter storm by mocking an exorcism he witnessed. Then there was that video: forty seconds of chilling footage that Jack repeatedly claimed was not of his making, yet was posted from his own YouTube account. The claim has been made by a number of prophecy writers that the early church was predominately premillennial on millennial issues and exclusively futuristic on almost everything else. This means that early Christian writers who commented on prophetic passages like the Olivet Discourse (Matt. 24, Mark 13, Luke 21) believed and wrote that the biblical authors were always referring to events in the distant future just before the return of Christ. While these claims have been made with certainty, there has always been a lack of clear historical documentation to back them up. Sometimes the historical record has been stretched and exaggerated to fit an already developed theory. But since the futurist perspective has been promoted as an early church reality by so many for so long, few people today actually

question it. The Early Church and the "End of the World" is the first book to question the prevailing futurist view by a careful study of the historical record. The Early Church and the "End of the World" asks this fundamental question: What did the earliest of the early Christian writers actually believe about prophetic events? We can only answer this question by actually studying what they wrote. Unfortunately, we do not have a complete record of the period. To make our historical investigation even more difficult, there are translation issues. Many of the works of those who wrote soon after the destruction of Jerusalem in A.D. 70 and beyond remain untranslated. This book seeks to remedy some of these problems. Thomas Ice, in his chapter on the history of preterism in The End Times Controversy, makes some bold historical claims that cannot be supported when the historical record is actually analyzed. The early church was not monolithic in its views of Bible prophecy. There was no unanimous acceptance of either premillennialism or a distant futurism. The Early Church and the "End of the World" will show that some of the earliest writers, most likely writing before the destruction of Jerusalem in A.D. 70, were referring to the judgment coming of Jesus, an event that the gospel writers tell us was to take place before that first-century generation passed away (Matt. 24:34). Adding to the confirmation of this view are the writings of the church's first historian, Eusebius Pampilus of Caesarea, whose Ecclesiastical History is a window on the first few centuries of the church. In addition, Francis Gumerlock has undertaken the task of translating a number of ancient and medieval commentators who have written on Matthew 24. He shows that many early and medieval writers believed that these prophecies had already been fulfilled before the end of Jerusalem, that is, before its destruction by the Romans in A.D. 70. - Publisher.

Last Days (winner of the British Fantasy Award for Best Horror Novel of the Year) by Adam Nevill is a Blair Witch style novel in which a documentary film-maker undertakes the investigation of a dangerous cult—with creepy consequences When guerrilla documentary maker, Kyle Freeman, is asked to shoot a film on the notorious cult known as the Temple of the Last Days, it appears his prayers have been answered. The cult became a worldwide phenomenon in 1975 when there was a massacre including the death of its infamous leader, Sister Katherine. Kyle's brief is to explore the paranormal myths surrounding an organization that became a testament to paranoia, murderous rage, and occult rituals. The shoot's locations take him to the cult's first temple in London, an abandoned farm in France, and a derelict copper mine in the Arizonan desert where The Temple of the Last Days met its bloody end. But when he interviews those involved in the case, those who haven't broken silence in decades, a series of uncanny events plague the shoots. Troubling out-of-body experiences, nocturnal visitations, the sudden demise of their interviewees and the discovery of ghastly artifacts in their room make Kyle question what exactly it is the cult managed to awaken – and what is its interest in him?

She fears the dark. He rules it. Her dresses are too tight, her heels too tall. She laughs too loudly, eats without decorum, and mixes up most sayings in the book. Little do most know it's just a sparkly disguise, there to hide one panic attack at a time. Nobody can crack Gianna's facade . . . no one anyway, until he comes along. Most see a paragon of morality; a special agent upholding the law. In the New York underworld, others know him as a hustler, a killer, his nature as cold as the heart of ice in his chest. Christian Allister has always followed the life plan he'd envisioned in his youth, beneath the harsh lights of a frigid, damp cell. With a proclivity for order and the number three, he's never been tempted to veer off course. But perhaps one should never say never . . . One winter night and their lives intertwine.

She hates him--his stone-cold demeanor, his arrogance and too-perceptive eye--but over the years, even as their games consist of insulting each other's looks and intelligence, she begins to live to play with him. Nowhere in Christian's plans had he ever prepared for Gianna. She's chaos embodied, not his type, and married, but none of that can stop his eyes from following her wherever she goes. All along, she doesn't even know that she's his--his frustration, his fascination. His maddest obsession.*Can be read as a standalone

This doctoral dissertation demonstrates that Revelation was written prior to the destruction of the Jewish Temple in AD 70, and that it was prophesying that event. It proves this early date for Revelation by providing both internal evidence from within Revelation and external evidence from Church history and tradition.

From the bestselling author of *Saban, 4th and Goal*, and *Sowbelly* comes the thrilling, untold story of the quest for the world record tarpon on a fly rod—a tale that reveals as much about Man as it does about the fish. In the late 1970s and early 1980s, something unique happened in the quiet little town on the west coast of Florida known as Homosassa. The best fly anglers in the world—Lefty Kreh, Stu Apte, Ted Williams, Tom Evans, Billy Pate and others—all gathered together to chase the same Holy Grail: The world record for the world's most glamorous and sought-after fly rod species, the tarpon. The anglers would meet each morning for breakfast. They would compete out on the water during the day, eat dinner together at night, socialize and party. Some harder than others. The world record fell nearly every year. But records weren't the only things that were broken. Hooks, lines, rods, reels, hearts and marriages didn't survive, either. The egos involved made the atmosphere electric. The difficulty of the quest made it legitimate. The drugs and romantic entanglements that were swept in with the tide would finally make it all veer out of control. It was a confluence of people and place that had never happened before in the world of fishing and will never happen again. It was a collision of the top anglers and the top species of fish which would lead to smashed lives for nearly all involved, man and fish alike. In *Lords of the Fly*, Burke, an obsessed tarpon fly angler himself, delves into this incredible moment. He examines the growing popularity of the tarpon, an amazing fish has been around for 50 million years, can live to 80 years old and can grow to 300 pounds in weight. It is a massive, leaping, bullet train of a fish. When hooked in shallow water, it produces "immediate unreality," as the late poet and tarpon obsessive, Richard Brautigan, once described it. Burke also chronicles the heartbreaking destruction that exists as a result—brought on by greed, environmental degradation and the shenanigans of a notorious Miami gangster—and how all of it has shaped our contemporary fishery. Filled with larger-than-life characters and vivid prose, *Lords of the Fly* is not only a must read for anglers of all stripes, but also for those interested in the desperate yearning of the human condition.

An investigative reporter explores an infamous case where an obsessive and unorthodox search for enlightenment went terribly wrong. When thirty-eight-year-old Ian Thorson died from dehydration and dysentery on a remote Arizona mountaintop in 2012, The New York Times reported the story under the headline: "Mysterious Buddhist Retreat in the Desert Ends in a Grisly Death." Scott Carney, a journalist and anthropologist who lived in India for six years, was struck by how Thorson's death echoed other incidents that reflected the little-talked-about connection between intensive meditation and mental instability. Using these tragedies as a springboard, Carney explores how those who go to extremes to achieve divine revelations—and undertake it in illusory ways—can tangle with madness. He also delves into the unorthodox interpretation of Tibetan Buddhism that attracted Thorson and the bizarre teachings of its chief evangelists: Thorson's wife, Lama Christie McNally, and her previous husband, Geshe Michael Roach, the supreme spiritual leader of Diamond Mountain University, where Thorson died. Carney unravels how the cultlike practices of McNally and Roach and the questionable circumstances surrounding Thorson's death illuminate a uniquely American tendency to mix and match eastern religious traditions like LEGO pieces in a quest to reach an enlightened, perfected state, no matter the cost. Aided by Thorson's private papers, along with cutting-edge neurological research that reveals the profound impact of intensive meditation on the brain and stories of miracles and black magic, sexualized rituals, and tantric rites from former Diamond Mountain acolytes, *A Death on Diamond Mountain* is a gripping work of investigative journalism that reveals how the path to enlightenment can be riddled with danger.

"Innovation" is the hottest buzzword in business. But what if our obsession with finding the next big thing has distracted us from the work that matters most? "The most important book I've read in a long time . . . It explains so much about what is wrong with our technology, our economy, and the world, and gives a simple recipe for how to fix it: Focus on understanding what it takes for your products and services to last."—Tim O'Reilly, founder of O'Reilly Media It's hard to avoid innovation these days. Nearly every product gets marketed as being disruptive, whether it's genuinely a new invention or just a new toothbrush. But in this manifesto on the state of American work, historians of technology Lee Vinsel and Andrew L. Russell argue that our way of thinking about and pursuing innovation has made us poorer, less safe, and—ironically—less innovative. Drawing on years of original research and reporting, *The Innovation Delusion* shows how the ideology of change for its own sake has proved a disaster. Corporations have spent millions hiring chief innovation officers while their core businesses tank. Computer science programs have drilled their students on programming and design, even though the overwhelming majority of jobs are in IT and maintenance. In countless cities, suburban sprawl has left local governments with loads of deferred repairs that they can't afford to fix. And sometimes innovation even kills—like in 2018 when a Miami bridge hailed for its

innovative design collapsed onto a highway and killed six people. In this provocative, deeply researched book, Vinsel and Russell tell the story of how we devalued the work that underpins modern life—and, in doing so, wrecked our economy and public infrastructure while lining the pockets of consultants who combine the ego of Silicon Valley with the worst of Wall Street's greed. The authors offer a compelling plan for how we can shift our focus away from the pursuit of growth at all costs, and back toward neglected activities like maintenance, care, and upkeep. For anyone concerned by the crumbling state of our roads and bridges or the direction our economy is headed, *The Innovation Delusion* is a deeply necessary reevaluation of a trend we can still disrupt.

An instant New York Times bestseller. Critics agree: Michael Wolff's *Landslide* is THE book on Trump. "Landslide . . . is the one to leap upon. Smart, vivid and intrepid . . ." —The New York Times "I inhaled *Landslide*, gobbled it up." —Slate "Wow. Just wow . . ." —Evening Standard "Cruel, unforgiving, muckraking, scandalous. I couldn't stop reading it."—The Telegraph We all witnessed some of the most shocking and confounding political events of our lifetime: the careening last stage of Donald J. Trump's reelection campaign, the president's audacious election challenge, the harrowing mayhem of January 6, the buffoonery of the second impeachment trial. But what was really going on in the inner sanctum of the White House during these

calamitous events? What did the president and his dwindling cadre of loyalists actually believe? And what were they planning? Michael Wolff pulled back the curtain on the Trump presidency with his #1 bestselling blockbuster *Fire and Fury*. Now, in *Landslide*, he closes the door on the presidency with a final, astonishingly candid account. Wolff embedded himself in the White House in 2017 and gave us a vivid picture of the chaos that had descended on Washington. Almost four years later, Wolff finds the Oval Office even more chaotic and bizarre, a kind of Star Wars bar scene. At all times of the day, Trump, behind the Resolute desk, is surrounded by schemers and unqualified sycophants who spoon-feed him the "alternative facts" he hungers to hear—about COVID-19, Black Lives Matter protests, and, most of all, his chance of winning reelection. Once again, Wolff has gotten top-level access and takes us front row as Trump's circle of plotters whittles down to the most enabling and the president reaches beyond the bounds of democracy as he entertains the idea of martial law and balks at calling off the insurrectionist mob that threatens the institution of democracy itself. As the Trump presidency's hold over the country spiraled out of control, an untold and human account of desperation, duplicity, and delusion was unfolding within the West Wing. *Landslide* is that story as only Michael Wolff can tell it.
