These proceedings represent the work of researchers participating in the 10th International Conference on e-Learning (ICEL 2015) which is being hosted this year by the College of the Bahamas, Nassau on the 25-26 June 2015. ICEL is a recognised event on the International research conferences calendar and provides a valuable platform for individuals to present their research findings, display their work in progress and discuss conceptual advances in the area of e-Learning. It provides an important opportunity for researchers and managers to come together with peers to share their experiences of using the varied and expanding range of e-Learning available to them. With an initial submission of 91 abstracts, after the double blind, peer review process there are 41 academic Research papers and 2 PhD papers Research papers published in these Conference Proceedings. These papers come from some many different countries including: Australia, Belgium, Brazil, Canada, China, Germany, Greece, Hong Kong, Malaysia, Portugal, Republic of Macedonia, Romania, Slovakia, South Africa, Sweden, United Arab Emirates, UK and the USA. A selection of the best papers – those agreed by a panel of reviewers and the editor will be published in a conference edition of EJEL (the Electronic Journal of e-Learning www.ejel.com). These will be chosen for their quality of writing and relevance to the Journal's objective of publishing papers that offer new insights or practical help into the application e-Learning.

Viewpoint is an innovative course that's based on extensive research into the Cambridge English Corpus, taking students to a higher level of proficiency to become effective communicators. Viewpoint Level 1 Student's Book A is for young adult and adult students

who have reached an upper-intermediate level of English proficiency (B2). Units 1-6 in this level teach the language, skills, and strategies that students need to progress beyond intermediate level and to speak and write in English naturally, effectively, and appropriately. From the same author team as the ground-breaking Touchstone series, Viewpoint 1A also draws on the Cambridge International Corpus which underpins a highly effective approach to teaching English language. Certified Nurse Educator (CNE®/CNE®n) Review, Fourth Edition SAGE Publications Seeking a job as a first-year teacher, Robin Robertson heads for an interview at the Westminster Rural Agricultural Schools in the spring of 1956. Here, Robin could teach and also coach varsity basketball and counsel students. Amid the pressures of beginning a new career, he starts to wonder whether a big-city person like himself can adapt adequately to the lifestyle of small-town, rural America. This story pictures a way of life that has vanished in all too many places. Many readers will relate to the challenges, conflicts, and rewards between students and an untried but idealistic teacher. Others will recall athletic contests won and lost and perhaps will remember counseling that went way beyond arranging school schedules. The author draws upon forty-three years of educational experience in high school and community college -- focusing on that memorable first year in front of a classroom, being in charge of the community's "Winter Entertainment Committee" (basketball games), and creating a newly mandated school guidance program.

The first letter received by the author, dated September 9, 1988, is from a former student from 1977 who sends happy-birthday wishes, and condolences for a double tragedy. The last 2 letters are both written Easter Sunday 2010: one, by the author to his friend Rudy. They met in first grade in September 1932; their friendship has lasted 78 years. The other letter is from the youngest of the authors 4 children, his son Matt, who was born in 1959 after 3 daughters. Matt also has 3 daughters, and in his letter conveys unexpected but good news from Austin, Texas. Before the author retires in June 1991 from teaching advanced placement English for 40 years at 2 high schools, he corresponds with several former students, friends, and family, including 4 younger brothers who live in Chicago, St. Louis, San Francisco, and Seattle. After he retires, the author travels extensively on escorted tours to continental Europe and England, as well as to Turkey, and several times visits a friend in London. During his retirement years, the author battles prostate cancer and heart surgery, tutors for an adult literacy program at Abington townships public library, makes several trips to New York for Broadway shows and Metropolitan Opera productions. After Matt gives his father a laptop, the author spends most of his time writing about his travels. After his oldest grand-child marries, she gives birth to a son. The author becomes a great-grandfather.

The book is about me and my interaction with students, faculty, and everyone else. I want to move through my life from birth to the present. The 85 years of life have been eventful, and I am grateful for those who helped me arrive at this point in life. I want to convey the events that guided me through my early years, grade, high school, Army, marriage, college, teaching, and retirement. Each day was a learning experience. The goal was to make teaching more rewarding to the students. Many assignments that are included were not present when I started in 1965. My work during the summers helped me understand the innovations – NC (numerical control), CNC (computer numerical control), EDM (electric discharge machining). That learning helped me convey that knowledge to the students. Included are jobs made by the students that were designed to provide similar experiences found in the machining industry. There are stories about students and teachers that filled my days as a teacher. Lastly, there are assignments a person can try. My only comment is, “ don ’ t do the last two because they are difficult. ” That was a favorite comment to get students to work the difficult problems.

A Guide to Study Skills and Careers in Criminal Justice and Public Security is the ultimate how-to resource for success in the study of criminal justice. Renowned author Frank Schmalleger, who has over 40 years of field experience, has teamed up with researcher and educator Catherine D. Marcum to introduce students to the field of criminal justice, break down its many components, and describe a variety of employment opportunities available to criminal justice graduates. Students will learn how to effectively approach the study of criminal justice; communicate successfully with professors, peers, and potential employers; choose classes that will assist with career goals; develop good study habits and critical thinking skills; and write effectively in criminal justice. Additionally, as their academic careers advance, students will gain insights into how to best prepare for successful careers.

Intelligent Systems: Concepts, Methodologies, Tools, and Applications IGI Global

A large international conference on Advances in Machine Learning and Data Analysis was held in UC Berkeley, California, USA, October 22-24, 2008, under the auspices of the World Congress on Engineering and Computer Science (WCECS 2008). This volume contains sixteen revised and extended research articles written by prominent researchers participating in the conference.

Topics covered include Expert system, Intelligent decision making, Knowledge-based systems, Knowledge extraction, Data analysis tools, Computational biology, Optimization algorithms, Experiment designs, Complex system identification, Computational modeling, and industrial applications. Advances in Machine Learning and Data Analysis offers the state of the art of tremendous advances in machine learning and data analysis and also serves as an excellent reference text for researchers and graduate students, working on machine learning and data analysis.

Teaching Religion and Violence Routledge

His reputation is legendary. His life an adventure. His pursuers merciless. Florian Homm. A 6-foot-5 colossus. A wrecking ball. An unscrupulous hedge fund manager. The ugly face of the new turbo-charged capitalism. A mover and shaker, at 26, of millions for South American governments and the fabulously wealthy. A cold-hearted mercenary, he disemboweled companies auctioning off the best pieces to the highest bidder. A man who had scores of homes, two jets and hundreds of millions of dollars, but who still didn't have one thing: enough – instead he was driven to consume beyond excess.

As if in a daze, Florian Homm forged through his life with brutal efficiency. It began in Oberursel, a small town in Germany, and led him through Harvard into the heart of the financial markets. Both brilliant and charismatic, his career took off like a comet in the world's toughest business. In the course of his working life, he profited from the bankruptcy of the Vulkan shipping company in Bremen, rehabilitated the German soccer club Borussia Dortmund, and was gunned down in Venezuela. But even then, after a close shave with death, Florian Homm knew only one way forward: the race to the top. Until his recklessness caught up with him in a hard beat. It's the story of a brilliant financial juggler, a runaway, a fugitive, the notorious enfant terrible of the European financial world.
