Exam) Springer  
Twelve-year-old Samuel Collier is a lowly commoner on the streets of London. So when he becomes the page of Captain John Smith and boards the Susan Constant, bound for the New World, he can't believe his good fortune. He's heard that gold washes ashore with every tide. But beginning with the stormy journey and his first contact with the native people, he realizes that the New World is nothing like he

imagined. The lush Virginia shore where they establish the colony of James Town is both beautiful and forbidding, and it's hard to know who's a friend or foe. As he learns the language of the Algonquian Indians and observes Captain Smith's wise diplomacy, Samuel begins to see that he can be whomever he wants to be in this new land.

the forensic science  
community, performing  
vitaly important work.  
However, they are  
often constrained by  
lack of adequate  
resources, sound  
policies, and national  
support. It is clear that  
change and

advancements, both  
systematic and  
scientific, are needed in  
a number of forensic  
science disciplines to  
ensure the reliability of  
work, establish  
enforceable standards,  
and promote best
