I am currently taking an online chemistry course that uses
the late nite lab software, I am currently working on the
Chemical Reaction Types and their Equations lab and am
having a hard time with the questions, has anyone used
this software before? I have the first half filled out but
want to see if I can compare them with someone else's
answers to see if I am on the right track, thanks!

Open the link on the Background page to the
flowchart. Let's start with the first test at the top and
work our way down to through the branches toward
the bottom. 1. Water Solubility: For the purposes of
the qualitative analysis, it is only necessary to
determine whether the compound is soluble, slightly
soluble or insoluble. The soluble compounds in this
experiment all have solubilities ...

Late Nite Labs recreates a traditional lab environment
offering an authentic, accessible experience that

moves learning beyond the classroom. Highly
versatile, Late Nite Labs' open-ended platform is
easily customized to meet a wide variety of teaching
styles and course requirements. Our labs give
students the freedom to experiment and learn from
their mistakes—at their own pace, at any time or place.
