This landmark work is the first sustained critique of Latin American neostructuralism, the prevailing narrative that has sought to replace "market fundamentalism" and humanize the "savage capitalism" imposed by neoliberal dogmatism. Fernando Leiva analyzes neostructuralism and questions its credibility as the answer to the region's economic, political, and social woes. Recent electoral victories by progressive governments in Latin America promising economic growth, social equity, and political democracy raise a number of urgent questions, including: What are the key strengths and weaknesses of the emerging paradigm? What kinds of transformations can this movement enact? Leiva addresses these issues and argues that the power relations embedded in local institutions, culture, and populations must be recognized when building alternatives to the present order. Considering the governments in countries such as Chile, Argentina, and Brazil, Leiva examines neostructuralism's impact on global politics and challenges whether this paradigm constitutes a genuine alternative to neoliberalism or is, rather, a more sophisticated form of consolidating existing systems.

The Entrepreneurial Research University in Latin America examines the fascinating clashes between the Latin American tradition and the influence of new globalized forms of organization represented by entrepreneurial university models. With particular emphasis on the governance of university research, the author aims to answer key questions: Why and how do local traditions or global forces shape structural and cultural organizational change? Are these changes necessarily related to the improvement of the quality of teaching and research?

This edited collection brings together the latest research on discourse and society in Latin America and Caribbean in one volume. Employing cross-cutting approaches to current political, institutional and media discourses, it bridges existing theoretical and analytical gaps between the socio-political macro issues and the micro aspects of linguistic analysis to provide fresh insights that deconstruct the complex socio-political power dynamics in Latin America and the Caribbean. Across eight chapters this volume explores the regions' thorny relationship with their complex histories of colonialism and slavery as well as the ongoing, multifaceted constructions of hegemonic and counter-hegemonic identities at the individual, regional and national levels. In doing so, it demonstrates the unique and rich particularities of these regions and why it is that they challenge many conventional dogmas and methods across the Social Sciences. This book will be of particular interest to scholars working in Discourse Studies, Sociology, Politics, Anthropology and Latin American and Caribbean Studies.
