Everybody wants to think of a great idea that will make them rich. A good indication that you have a great idea is that someone copies it but, by then it can be too late. This is too bad as a lot of the knowhow to protect your ideas is free but buried in a mass of detail and exceptions which most people put in the "too hard" basket. Some IP protection you must pay for, such as trademarks but it is well worth it, provided it is done properly. Intellectual

Property ("IP") has been described by the Financial Times as one of the key drivers of business competitiveness in the 21st century. Therefore, a clear understanding is essential not only for creative people or entrepreneurs but for anyone who wants to succeed in business and not have their ideas stolen. It does not even need to be your idea. Using IP law you can cheaply gain ownership of other people's ideas and then use your business skills to make a killing. By focusing on the IP legal advice that his small to

medium sized business clients have been willing to pay for, Paul Brennan has written a book which will enable you to say "that's my IP" and at least sound as if you know what your talking about which can be the cheapest and most powerful of weapons available to you. Illustrated by legal cartoons drawn by the author this little book combines the qualities of a useful reference book on IP law with wry humour and the odd belly laugh. **YOU WILL LEARN ABOUT:** - Identifying your IP- Protecting your brand and

content- Who owns what in joint projects- Fights over names- Internet disputes- How to avoid unintentionally giving it away Paul is uniquely qualified to write this book. He has practiced law in Europe, North America, Asia and Australia. His experience of IP enforcement with a US multi-national, as a partner in law firms in London and Sydney, and ten years in Asia have combined to give him a broad experience. A post graduate in international copyright law, he now runs his own general commercial and

property law firm working with small to medium sized businesses.

I helped make your advisor's Sales Hype Do you need your advisor to succeed with investments? Do you think your advisor's strategy can beat a market index fund? Do you know how many sales your advisor must make to keep their job? What is your actual total return with all costs included? Why do many Wall Street firm owners use index funds? Most wealthy people can answer these questions. Can you? Today, the information to answer these questions is easily available but only savvy shoppers have used it to succeed. They realize that the

retail financial industry is extremely profitable because the sales hype works even better than it used to work. We have learned how to manipulate behavior better. Our margins are 29%. The \$1.3 Trillion per year revenues come from YOU. I used to work for a few firms. I helped create some of the hype that our sales people used to separate you from your money or your potential future earnings. A plain market index fund beat 92-95% of the returns of our "professional" managers so we steer you away from them. However, we still get most investors to pay even

for poor results. It is marketing, sales and misleading hype! Why should you give up your advisor? You may be giving up 63% of your total potential value. It is easy to do better on your own. Do you really think an expert at selling knows anything about what will happen to a security or the market in the next hour, week or year? Before I show you how to invest for your success, I think it is time you understood the marketing and sales HYPE. Most retail investors hate losing--more than they love winning. Most think Wall Street is a casino where some

win but they forget that only the house wins long term. Isn't it time you learn how Warren Buffett avoids the Sales Hype and invests for success.
