The law of attraction is something almost everyone has experienced, on a conscious or subconscious level at one time or the other. Even as we speak, you have experienced the law of attraction at some point in your life. Do you doubt this immutable fact? Consider this: Look back to all those times when you were thinking about someone, your phone started ringing with the person you were thinking of on the other end of the line, or the time when you were thinking about someone, and out of nowhere, you bump into the person on the street. You may choose to label these things mere 'coincidences, ' 'luck, ' or 'fate' because a part of you finds it difficult to accept the existence of energy in sync with your thoughts, an energy capable of attracting the things you want. This energy is the universal energy. You can tap into this energy to transform every aspect of your life and attract everything you desire. How do you do that; how do you tap into this power? Well, you use the law of attraction. What is

the law of attraction? This book will teach you everything about the law of attraction, how it works, and then detail how you can consciously begin to use it to get the things you want whether these things are the ideal relationship, a good job, better health, money, you name it.

You Are About To Learn How To Unleash The Full Power Of The Law Of Attraction To Manifest Anything You Desire In Life! We all have both material and immaterial things we desire to achieve but very few of us actually know how close we always are to achieving them before we give up. We then marvel at how easy other people around us achieve seemingly difficult goals- and then blame our intellectual differences, luck and other factors as a way to justify our situation compared to theirs. But in most cases, it's never any of those factors we create as one of the most powerful laws of the universe asserts. The law of attraction says that you attract into your life whatever you focus on and feel strongly about. If you focus on the good and positive things in your life, those things will be attracted to your life automatically. If you focus on negativity and lack, that's exactly what you attract and get. Thoughts determine feelings, feelings determine actions, and actions determine your reality. So if you've been looking for a way to get a new job, a new house, a good woman or man, pass your examinations, get promoted or anything else, no matter how complex it may seem, achieving it has always been simpler than you may have ever thought- that's why some people never seem to struggle! But easy as it may sound, you may still wonder... But I always have positive thoughts...How come they never reach the reality stage? How can I align my mind with my desires? How does this law even work? Or how do I get started? If you're having these or other similar questions, this book will answer them all using simple, straightforward language that will ensure you put what you learn into action. Here's a bit of what it contains: The basics of the law of attraction, including what it is, what it is all about, how it works and more How to use the law of attraction to manifest anything you want in your life Myths about the law of attraction debunked Importance of mending your mind and minding your business The place of your feelings and emotions in manifesting anything you want How and why your mind has unlimited power and how to tap into that power How to attract your desired life How to align with the higher self 3 steps to allowing abundance in your life by applying the law of attraction How to live the life you want Secret and motivations of success and moving forward in life True meaning of success How to remain humble when facing success Dangerous myths of success Aligning with the law of success The place of gratitude in keeping the law of attraction working in your life ...And so much more!
