Inspiring Deep Learning with Metacognition Routledge

This book serves as a critical resource for educators across various roles and contexts who are interested in Holocaust education that is both historically sound and practically relevant. As a collection, it pulls together a diverse group of scholars to share their research and experiences.

The volume endeavors to address topics including the nature and purpose of Holocaust education, how our understanding of the Holocaust has changed, and resources we can use with learners. These themes are consistent across the chapters, making for a comprehensive exploration of learning through the Holocaust today and in the future.

Blended Learning. Education in a Smart Learning Environment IGI Global

2023-24 NTA UGC-NET/JRF Teaching & Research Aptitude

Advances in Soft Computing IGI Global

This book constitutes the refereed proceedings of the 51st Annual Conference of the Southern African Computer Lecturers' Association, SACLA 2022, held in Cape Town, South Africa, during July 21-22, 2022. The 10 full papers were included in this book

were carefully reviewed and selected from 31 submissions. They were organized in topical sections as follows: ?curriculum; assessment; teaching in context; innovative teaching; and pandemic pedagogy.

Teaching Reading Comprehension to Students with Learning Difficulties PublicAffairs

The two-volume set LNAI 13067 and 13068 constitutes the proceedings of the 20th Mexican International Conference on Artificial Intelligence, MICAI 2021, held in Mexico City, Mexico, in October 2021. The total of 58 papers presented in these two volumes was carefully reviewed and selected from 129

submissions. The first volume, *Advances in Computational Intelligence*, contains 30 papers structured into three sections: – Machine and Deep Learning – Image Processing and Pattern Recognition – Evolutionary and Metaheuristic Algorithms The second volume, *Advances in Soft Computing*, contains 28 papers structured into two sections: – Natural Language Processing – Intelligent Applications and Robotics

Future of Organizations and Work After the 4th Industrial Revolution Czech Institute of Academic Education z.s.

Maximizing student outcomes in education presents a significant challenge, as traditional assessment methods often fall short in providing actionable insights for improvement. *Perspectives on Learning Analytics for Maximizing Student Outcomes* addresses this challenge by offering a comprehensive solution. Edited by esteemed scholars Gü rhan Durak and Serkan Çankaya, this book provides innovative knowledge and practical experiences on emerging technologies and processes in learning analytics. It covers topics such as data collection, visualization, predictive analytics, and ethical considerations, serving as a guide for academic scholars, technology enthusiasts, and educational institutions. This book empowers professionals and researchers to leverage learning analytics effectively, enabling data-informed decision-making, improved teaching practices, and tailored educational programs. By presenting best practices and future directions, it equips readers with the necessary tools to optimize learning environments and drive student success. With a focus on the transformative potential of learning analytics, this book propels education toward a more efficient and effective system that prioritizes student outcomes.

Proceedings of the 19th International Conference of the Asia Association of Computer-Assisted Language Learning (AsiaCALL 2022) Springer Nature

This book summarizes the results of a multimethod project on school development performed during the COVID-19 pandemic. It combines innovative theoretical approaches and findings as well as long-term online research activities in which student assessments delivered the bases for adaptive teacher trainings. The theoretical foundations relate to sustainable conditions of classroom and school development, an approach to personality development, and a focus on instructional coherence. Empirical findings concern the development of learning-strategy use and classroom needs over time as well as a model for effective teacher education and related course evaluations. A further research area concerns advanced perspectives from digital-learning research, such as the effects of social media in classrooms, mixed and virtual learning materials, computer-based collaborative learning, and innovative interventions in media research. The book is aimed at researchers, teacher trainers, instructional designers, and practitioners in the field of school development as well as teacher education.

Handbook of Research on Education Institutions, Skills, and Jobs in the Digital Era Springer Nature

This is an open access book. The International Conference on Education, Humanities, and Social Science (ICEHoS) is an activity in the form of an international conference by presenting new studies and research results in the fields of Education, Humanities, and Social Sciences. The Elementary School Teacher Education Study Program is the organizer of this international conference. ICEHoS is the second conference held by us and will be held virtually due to the COVID-19 Pandemic which has not shown a better situation. The 2nd ICEHoS 2022 conference is expected to be able to bring together national and international scale researchers, academics, practitioners, students, and community and industry activists in our chosen fields. Considering the COVID-19 pandemic which has impacted various lines,

especially research in this field, the 2nd ICEHoS 2022 international conference has the main theme, “ The future education in society 5.0 to build a strong learning connection. ”

Theorizing Shadow Education and Academic Success in East Asia Frontiers Media SA

Zusammenfassung: This practical guide assists university faculty in developing and implementing service-learning courses and projects across multiple disciplines. It examines how embedding academic service-learning projects into the core curricula benefits not only the students, but also their universities and communities. The book describes ways in which service learning becomes a powerful teaching method using step-by-step explanations, real-world examples, and instructor checklists and handouts. Chapters detail how to integrate academic service-learning projects into classroom pedagogy and evaluate student experience. Key areas of coverage include: Strategies for ensuring that students engage with academic service-learning projects from the initial stages through completion. Guidance on embedding an academic service-learning curriculum into traditional coursework to supplement students' textbook knowledge and classroom experiences to address real-world problems in the community. Research confirming the ways in which students learn more and score higher on end-of-the-semester tests when courses incorporate academic service-learning projects. Steps to incorporate service-learning projects across various disciplines and coursework to enrich student learning and produce positive outcomes for universities and communities.

Service Learning in Higher Education is an essential resource for professors and graduate students as well as teachers and educational professionals in such varied fields as school and clinical child psychology, educational psychology, social work, pedagogy, educational practice and policy, sociology, anthropology, and all related disciplines

Teaching & Research Aptitude (2023-24 NTA UGC-NET/JRF) YOUTH COMPETITION TIMES

This book constitutes the refereed proceedings of the 13th International Conference on Blended Learning, ICBL 2020, held in Bangkok, in August 2020.

The 33 papers presented were carefully reviewed and selected from 70 submissions. The conference theme of ICBL 2020 is Blended Learning : Education in a Smart Learning Environment. The papers are organized in topical sections named: Blended Learning, Hybrid Learning, Online Learning, Enriched and Smart Learning, Learning Management System and Content and Instructional Design.

The Stolen Year YOUTH COMPETITION TIMES

This book presents selected case studies from the Arab world on the universities responses to the pandemic. This book will look in detail at the priorities of the higher education sector in the post-COVID-19 era and the changes that must be adopted by universities and governments. These changes will allow the higher education sector to emerge from the crisis and build short- and long-term resilience. The onset of the COVID-19 pandemic has induced sudden changes worldwide by setting a global lockdown that has impacted all industries and sectors, affecting our daily lives and forcing us to adapt to a new normal. This book is the first major account of how the pandemic has shaken universities and higher education institutions in the Arab world today and tomorrow. Crucially, it examines the responses of universities to COVID-19, highlights their current position, and addresses the negative and positive outcomes. Has this crisis become an adversity or an opportunity for higher education institutions? What are the pillars that will ensure the success of the Arab higher education sector post COVID-19?

ICT Education Guilford Publications

The COVID-19 pandemic has caused unprecedented ripples throughout society, bringing many sectors and fields, including education, to a virtual halt or forcing them to change their working style abruptly. Based on technological advancements, e-learning preparedness, and human and financial resources, higher education systems and universities in Eastern and Western countries have responded differently to this crisis. **Comparative Research on Educational Policy Responses to the COVID-19 Pandemic: Eastern vs. Western**

Perspectives presents global research on the response of higher education to the COVID-19 pandemic from both the East and the West. It sheds light on the relevant challenges, strategies, and effectiveness of the policies set in place in response to the pandemic. Covering topics such as international student-related policies, pedagogical adaptation, and student motivation, this premier reference source is an essential resource for policymakers, government officials, faculty of higher education, students and educators of higher education, libraries, researchers, and academicians.

Handbook of Research on Innovative Frameworks and Inclusive Models for Online Learning Springer Nature

This volume tackles perceived myths surrounding the academic excellence of East Asian students, and moves beyond Western understanding to offer in-depth analysis of the crucial role that shadow education plays in students ' academic success. Featuring a broad range of contributions from countries including Japan, China, Taiwan, and Singapore, chapters draw on rich qualitative research to place in the foreground the lived experiences of students, teachers, and parents in East Asian countries. In doing so, the text provides indigenous insights into the uses, values, and meanings of shadow education and highlights unknown cultural and regional aspects, as well as related phenomena including trans-boundary learning culture, nomadic learning, individualized learning, and the post-schooling era. Ultimately challenging the previously dominating Western perspective on shadow education, the volume offers innovative theorization to highlight shadow education as a phenomenon

which cannot be overlooked in broader discussion of East Asian educational performance, systems, and policy. Offering pioneering insights into the growing phenomenon of shadow education, this text will benefit researchers, academics, and educators with an interest in international and comparative education, curriculum studies, and East Asian educational practices and policy. Those interested in the sociology of education and educational policy will also benefit from this book.

Creating Equitable Services for the Gifted: Protocols for Identification, Implementation, and Evaluation IGI Global

Given the importance of the development of intellectualism and the need to ensure equity and access to learning experiences, educators at all levels must be aware of research-based protocols to identify, serve, and evaluate programs for diverse gifted learners. It is essential to understand how gifted education can increase equity in identification practices for historically underrepresented groups, what the specific curricular opportunities are that must be provided to learners to develop gifted programs, and what the key considerations are to the design and implementation of authentic and equitable programs for gifted learners. *Creating Equitable Services for the Gifted: Protocols for Identification, Implementation, and Evaluation* curates cutting-edge protocols in the field of gifted education related to the areas of equitable identification, implementation of services, and programmatic assessment. These protocols seek to initiate discussion and critical discourse regarding diverse gifted learners among higher education faculty, state department personnel, district administrators, and classroom teachers. Covering topics such as digital differentiation, equitable assessment, and STEM education, this text is ideal for teacher education programs, preparation programs, university degree programs, university credential programs, certificate programs, faculty, graduate students, state departments of education, superintendents, coordinators, administrators, teachers, professors, academicians, and researchers.

Bridging Theory and Practices for Educational Sciences

Higher Education in the Arab World Taylor & Francis

An NPR education reporter shows how the pandemic disrupted children ' s lives—and how our country has nearly always failed to put our children first The onset of COVID broke a 150-year social contract between America and its children. Tens of millions of students lost what little support they had from the government—not just school but food, heat, and physical and emotional safety. The cost was enormous. But this crisis began much earlier than 2020. In *The Stolen Year*, Anya Kamenetz exposes a long-running indifference to the plight of children and families in American life and calls for a reckoning. She follows families across the country as they live through the pandemic, facing loss and resilience: a boy with autism in San Francisco who gains a foster brother and a Hispanic family in Texas that loses a member to COVID, and finds solace when they need it most. Kamenetz also recounts the history that brought us to this point: how we thrust children and caregivers into poverty, how we over-police families of color, how we rely on mothers instead of infrastructure. And how our government, in failing to support our children through this tumultuous time, has stolen years of their lives.

ECKM 2023 24th European Conference on Knowledge Management Vol 2 Springer Nature

The Handbook of Research on Innovative Frameworks and Inclusive Models for Online Learning is edited by Jared Keengwe, an experienced professor in Curriculum Design and Instruction. This comprehensive reference guide offers academic scholars a collection of diverse frameworks from empirical studies, literature reviews, and case studies related to inclusive models for online learning. Covering a wide range of topics, including pedagogical adaptations to online learning, innovative pedagogical theories, inclusive teaching and learning, and best practices in online course design, the handbook provides practical insights to achieve effective pedagogical outcomes grounded on sound theoretical frameworks. Whether you are an online educator, instructional designer, teacher educator, librarian, student, online learning researcher, or educational manager, this handbook can serve as a valuable resource to guide your research, design, and practice in online learning. *The Handbook of Research on Innovative Frameworks and Inclusive Models for Online Learning* is a must-read for academic scholars who want to stay updated on the latest research, theories, and models for effective online education.

Sport Management Education IGI Global

Online instruction is rapidly expanding the way administrators and educators think about and plan instruction. In addition, due to a pandemic, online instructional practices and learning in a virtual environment are being implemented with very little training or support. Educators are learning new tools and strategies at a quick pace, and often on their own, even through resistance. It is important to explore lessons learned through the pandemic but also of importance is sharing the virtual classroom options and instruction that align to best practices when transitioning to online instruction. Sharing these will allow educators to understand and learn that virtual instruction can benefit all, even when not used out of need, and can enhance face-to-face courses in many ways. *The Handbook of Research on Lessons Learned From Transitioning to Virtual Classrooms During a Pandemic* is a critical reference that presents lessons instructors have learned throughout the COVID-19 pandemic including what programs and tools were found to be the most impactful and useful and how to effectively embed virtual teaching into face-to-face teaching. With difficult choices to be made and implemented, this topic and collection of writings demonstrates the learning curve in a state of survival and also lessons and resources learned that will be useful when moving back to face-to-face instruction as a tool to continue to use. Highlighted topics include the frustrations faced during the transition, lessons learned from a variety of viewpoints, resources found and used to support instruction, online learner perspectives and thoughts, online course content, and best practices in transitioning to online instruction. This book is ideal for teachers,

principals, school leaders, instructional designers, curriculum developers, higher education professors, pre-service teachers, in-service teachers, practitioners, researchers, and anyone interested in developing more effective virtual and in-classroom teaching methods.
