Christians know the Psalms, sing the Psalms, and pray the Psalms more than any other book of the Bible. Yet, even as believers have grown more devoted to individual psalms, they have lost the big picture-the single sense that unites all the psalms as one coherent book. Michael Barber is at the forefront of an emerging movement in biblical theology. With this book, he is recovering the narrative plot that was the common heritage of Jews and Christians in the ancient world. Barber shows how King David serves as an example for the chosen people as they struggled in exile. As David was rescued by the Lord, so would Israel be restored as a kingdom for all ages. This is the story of Christ as well, whom Barber reveals as the "new David." And, in Christ, it is the story of every Christian. The Psalms bring us-in our reading and in our prayer-from suffering and pleading to glory, triumph, and praise. Barber's analysis follows upon an extensive introduction by Scott Hahn, Ph.D., detailing the historical, cultural, and theological background of the Psalter.

Jesus was a Jew and not a Christian. That affirmation may seem obvious, but here an international cast of Jewish and Christian scholars spell out its weighty and often complex consequences for contemporary Jewish-Christian dialogue. Soundings in the Religion of Jesus contextualizes Jesus and the writings about him that set the stage for Jewish-Christian relations for the next two thousand years. Of equal importance, this book considers the reception, celebration, and (too often) the neglect of Jesus' Jewishness in modern contexts and the impact such responses have had for Jewish-Christian relations. Topics explored include the ethics of scriptural translation, the ideological motives of Nazi theologians and other "quests" for the Historical Jesus, and the ways in which New Testament portraits of Jesus both help and hurt authentic Jewish-Christian dialogue.

A network of complex currents flowed across Jacobean England. This was the England of Shakespeare, Jonson, and Bacon; the era of the Gunpowder Plot and the worst outbreak of the plague. Jacobean England was both more godly and less godly than the country had ever been, and the entire culture was drawn taut between these polarities. This was the world that created the King James Bible. It is the greatest work of English prose ever written, and it is no coincidence that the translation was made at the moment "Englishness," specifically the English language itself, had come into its first passionate maturity. The English of Jacobean England has a more encompassing idea of its own scope than any form of the language before or since. It drips with potency and sensitivity. The age, with all its conflicts, explains the book. This P.S. edition features an extra 16 pages of insights into the book, including author interviews, recommended reading, and more.

Challenges to the reliability of Scripture are perennial and have frequently been addressed. However, some of these challenges are noticeably more common today, and the topic is currently of particular interest among evangelicals. In this volume, highly regarded biblical scholar Craig Blomberg offers an accessible and nuanced argument for the Bible's reliability in response to the extreme views about Scripture and its authority articulated by both sides of the debate. He believes that a careful analysis of the relevant evidence shows we have reason to be more confident in the Bible than ever before. As he traces his own academic and spiritual journey, Blomberg sketches out the case for confidence in the Bible in spite of various challenges to the trustworthiness of Scripture, offering a positive, informed, and defensible approach.

From the outset, this book has evoked strong responses. Its central claim is that given a comprehensive theory of inferential communication, there is no need for a special theory of translation. This has been praised by some as "wise and right" (Dell Hymes) and condemned by others as "astonishing, not to say perverse" (Kirsten Malmkjaer). Gutt's call to move from semiotics to an inferential paradigm of communication remains a challenge for many. The debate continues and so does the demand for the book, resulting in this second edition. There is a 'Postscript' entitled 'A decade later', where the author addresses peer criticism, especially from those involved in the movement of 'translation studies', and attempts to bring out more clearly the unique mandate of translation. New perspectives, such as authenticity, are also introduced. Marginal notes, some tongue-in-cheek, liven up the discussion and new references ensure its currency.

While many books are written on Jesus’ death, a gap exists in writings about the theological significance of a believer’s death, particularly in imitation of Jesus’. Paul, as a first apostolic witness who talked frequently about his own death, serves as a foundational model for how believers perceive their own death. While many have commented about Paul’s stance on topics such as forensic righteousness and substitutionary atonement, less is written about Paul’s personal experience and anticipation of his own death and the merit he assigned to it. Paul and His Mortality: Imitating Christ in the Face of Death explores how Paul faced his death in light of a ministry philosophy of imitation: as he sought to imitate Christ in his life, so he would imitate Christ as he faced his death. In his writings, Paul acknowledged his vulnerability to passive death as a mortal, that at any moment he might die or come near death. He gave us some of the most mournful and vitriolic words about how death is God’s and our enemy. But he also spoke openly about choosing death: “My aim is to know him . . . to be like him in his death.” This study seeks to show that Paul embraced death as a follower and imitator of Christ because the benefits of a good death supersede attempts at self-preservation. For him, embracing death is gain because it is honorable, because it reflects ultimate obedience to God, and because it is the reasonable response for those who understand that only Jesus’ death provides atonement. Studying mortality is paradoxically a study of life. Peering at the prospect of life’s end energizes life in the present. This urgency focuses on living with mission in step with God, the Creator and Sustainer of life, who is rightly referred to as Life itself. By focusing on mortality, we focus on Paul’s theology of life in its practical aspects, in particular, living life qualitatively, aware of God’s kingdom and mission and our limited quantity of days.
