Synopsis Learning from Las Vegas created a healthy controversy on its appearance in 1972, calling for architects to be more receptive to the tastes and values of "common" people and less immodest in their erections of "heroic," self-aggrandizing monuments. This revision includes the full texts of Part I of the original, on the Las Vegas strip, and Part II, "Ugly and Ordinary Architecture, or the Decorated Shed," a generalization from the findings of the first part on symbolism in ...

Learning from Las Vegas - Wikipedia

Upon its publication by the MIT Press in 1972, Learning from Las Vegas was immediately influential and controversial. The authors made an argument

that was revolutionary for its time—that the billboards and casinos of Las Vegas were worthy of architectural attention—and offered a challenge for contemporary architects obsessed with the heroic and monumental.

In Learning from Las Vegas, architecture appears as “ decorated shed ” or “ duck ” . The former relies on imagery and signage to convey its program. The latter expresses its program and meaning in its form. If much of the then-dominant “ late Modernism ” eschewed ornament, prior architectures acted more as “ ducks ” .
