Gabi Garcia's "Listening With My Heart" provides students with an opportunity to reflect on ways to extend themselves compassion all year long. This engaging lesson supports students in understanding what kindness is, as well as how to be kind to themselves and others in their daily lives.

The heart is enclosed in a protective sac, the pericardium, which also contains a small amount of fluid. The wall of the heart is made up of three layers: epicardium, myocardium, and endocardium. The right heart consists of two chambers, the right atrium and the right ventricle, separated by a valve, the tricuspid valve.
