For the son of the local sergeant

in an isolated Garda station on the border between Cavan and Fermanagh, life is balanced between the brooding, taciturn presence of his father, whom he loves and fears in equal measure, and the reassurance of his warm and witty mother. His world is narrowed to lakes, woods, hayfields, country lanes and the amazing characters he encounters - tinkers, drinkers, publicans, policemen, farmers and the tantalising older sister of his Protestant friend. Amidst the drumlins and bogs, the boy's imagination roams free and unfettered. And at night, lulled by the rhythm of his mother's fleecy breathing, he finds solace. But change is coming. It's time to

grow up...

Today, the final exam at  
the end of Secondary  
School is the main gateway  
to further education,  
training, and jobs in Ireland.  
With an enhanced level of  
completion, the importance  
of this exam has come  
sharply into focus. The  
emphasis is now swaying  
towards continuous

assessment; you, as a  
student, have an  
opportunity to develop,  
enhance and show off your  
skills during the year and  
work done will be  
aggregated towards your  
final mark. I am sure you  
would prefer to have some  
marks in the bag heading  
into the final exam as  
opposed to having all the  
emphasis on one day,  
similar to what is currently  
happening in subjects like  
History, Construction  
Studies and Geography for  
example. Spreading the risk  
is wise, especially as things  
can go wrong on the day;  
you could be unlucky with

your paper, have a personal  
problem, or even feel  
unwell. While a model of  
continuous assessment is  
welcomed, I feel that the  
terminal exam is, and will  
continue to be, the fairest  
and most efficient way to  
differentiate students in  
preparation for third level  
education. The brilliant  
thing about the Leaving  
Certificate final exam is that  
everyone is on the one level  
playing field. The standard  
of integrity of the State  
Exams Commission (SEC)  
is extremely high, therefore  
grades achieved by  
students are genuine and  
earned. I have always been

fascinated with how students prepare, cope with, react to and write final exams. I am intrigued how we, as teachers and parents, can help you improve your knowledge and develop your skills to help you achieve better results. Every year a new group of enthusiastic students arrive into sixth year thinking "How Can I ACE the Leaving Cert?" This book focuses on providing essential advice and techniques that will help you do exactly that. It will discuss studying in the most efficient way, preparing for your mocks, the final lead up, just before the exams, the exam hall itself, and of course, writing the paper. This book will also give an insight into nutrition and advice for your parents, so that they can help you in the best way possible. It is natural for anxiety levels to elevate as the exams approach and you may even find you can't breathe properly or the worry causes butterflies in your stomach. The advantage of knowing what to expect and being seriously prepared is that you can relax and feel confident as you start your exams. This book will provide loads of information that will build your confidence and settle those nerves. You can open it on any chapter depending on what stage of the year you are at. Along with imparting my own practical knowledge, advice lists and examples, I have also enlisted the help of current sixth years and former students who have just completed their exams. They have advised me on what they would have liked to have in place, the pitfalls and what worked and didn't work for them. The survey results from the sixty-strong cohort in Chapter Nine is a very interesting

read. On my part, I have attended many conferences and seminars, have reviewed many videos, presentations and documents, and handpicked the most relevant facts for you. Wrapped together, I hope each page will inspire and give you the confidence to achieve your wildest educational dreams, and above all 'ACE' the Leaving Cert.

Seminar Papers: Issues, Opportunities and Challenges for Social, Political and Development Education in the Post-Primary Classroom "There is a part of the soul that stirs at night, in the dark and soundless times of day, when our defenses are down and our daylight distractions no longer serve to protect us from ourselves," writes beloved author, Joan Chittister. "It's then, in the still of life, when we least expect it, that questions emerge from

---

the damp murkiness of our inner underworld...These questions do not call for the discovery of data; they call for the contemplation of possibility." In words as wise as they are inspiring, *Between the Dark and the Daylight* explores the concerns of modern life, of the overworked mind and hurting heart. These are the paradoxical—and often frustrating—moments when our lives feel at odds with everything around us. Only by embracing the contradictions, Chittister contends, may we live well amid stress, withstand emotional storms, and satisfy our yearnings for something transcendent and real. By

delving into the chaos, this book guides us through the questions that seemed easier to avoid and enlightens what has been out of focus. With her signature elegance, wit, and spirit, the bestselling author of *The Gift of Years* and *Following the Path* opens our eyes and hearts in these times of confusion. With simple and poignant meditations, *Between the Dark and the Daylight* reveals how we can better understand ourselves, one another, and God.
