On the day of Emerald's birthday party, a terrible train wreck occurs on a branch line and the stranded passengers seek refuge at Sterne. Among these passengers is Charlie Traversham-Beechers, a

Gigi Levangie Grazer, the New York Times bestselling author of *The Starter Wife*, returns with a hilarious and spirited tale of love—both lost and found. L.A. is no place for widows. This is what forty-four-year-old Hannah Bernal quickly discovers after the tragic death of her handsome and loving husband, John. Misery and red-rimmed eyes are little tolerated in the land of the beautiful. But life stumbles on: Hannah's sweet three-year-old daughter, Ellie, needs to be dropped off at her overpriced preschool, while Hannah herself must get back to work in order to pay the bills on "Casa Sugar," the charming Spanish-styled bungalow they call home.

---

Fortunately, Hannah has her “Grief Team” for emotional support: earth mother and fanatical animal lover Chloe, who finds a potential blog post in every moment; aspiring actress Aimee, who has her cosmetic surgeon on speed dial; and Jay, Hannah’s TV producing partner, who has a penchant for Mr. Wrong. But after a series of mishaps and bizarre occurrences, one of which finds Hannah in a posh Santa Monica jail cell, her friends start to fear for her sanity. To make matters worse, John left their financial affairs in a disastrous state. And when Hannah is dramatically fired from her latest producing gig, she finds herself in danger of losing her house, her daughter, and her mind. One night, standing in her backyard under a majestic avocado tree, in the throes of grief, Hannah breaks down and asks, “Why?” The answer that comes back—Why not?—begins an astounding journey of discovery and transformation that leads Hannah to her own truly extraordinary life after death.

One typical morning, Sarah Nickerson, a woman in her mid-thirties, is late for work, racing in her car after dropping her kids off at school and daycare. She tries to phone in to a meeting she should already be at when she takes her eye off the road for a second too long. In that

blink of an eye, all the rapidly moving parts of her over-scheduled life come to a screeching halt. Sarah suffers a traumatic head injury. Her memory and intellect are intact, but she has lost all interest in, and the ability to perceive, information coming from the left side of space. The left side of her world has gone. Sarah only eats the food from the right side of her plate. She can't see her watch, or her engagement diamond or her wedding ring. She tries to use a wheel chair but can only spin in circles as her left arm dangles by her side. Until Proven Guilty Harper Collins

Julia Fox Garrison refused to listen to the professionals she called Dr. Jerk and Dr. Panic, who—after she suffered a massive, debilitating stroke at age thirty-seven—told her she'd probably die, or to Nurse Doom, who ignored her emergency call button. Instead she heeded the advice of kind, gifted Dr. Neuro, who promised her he would "treat your mind as well as your body." Julia figured if she could somehow manage to get herself into a wheelchair, at least she'd always find parking. But after many, many months of hospitalization and rehab—with the help of family, friends, and her own indomitable spirit—Julia not only got into a wheelchair, but she got back out. Don't Leave Me This Way is the funny, inspiring, profoundly moving true story of a woman's fight for her life and dignity—and her determined quest to awaken an entrenched, unfeeling medical community to the fact that there's always a human being inside every patient.

*The Names They Gave Us*  
Simon and Schuster

This is a book about living with Alzheimer's, not dying with it. It is a book about hope, faith, and humor—a prescription far

more powerful than the conventional medication available today to fight this disease. Alzheimer's is the sixth leading cause of death in the US—and the only one of these diseases on the rise. More than 5 million Americans have been diagnosed with Alzheimer's or a related dementia; about 35 million people worldwide. Greg O'Brien, an award-winning investigative reporter, has been diagnosed with early-onset Alzheimer's and is one of those faceless numbers. Acting on long-term memory and skill coupled with well-developed journalistic grit, O'Brien decided to tackle the disease and his imminent decline by writing frankly about the journey. O'Brien is a master storyteller. His story is naked, wrenching, and soul searching for a generation and their loved ones about to cross the threshold of this death in slow motion. There is a piercing epidemic of trauma in the world today. Every few days there are reports of another tragedy, of more lives

lost to gun violence, loved ones and family homes lost to floods, hurricanes, or fires. Women have come to speak openly about the trauma of sexual assault, and we are finally talking openly about the trauma inflicted on people of color, on transgender people, and immigrants. But now that this trauma is out in the open, how do we heal? For years, we ' ve understood the connection between trauma and mental health issues, such as depression and anxiety. But somatic psychology has recently shown that our bodies hold on to trauma, and trauma can manifest in physical symptoms, such as pain, hormone imbalance, sexual dysfunction, and addiction. In addition, we now know that developmental trauma—trauma that emerges when basic childhood needs are not met—can result in profound emotional stress and lead to serious diseases. Building on this knowledge, this cutting-edge

---

guide offers simple skills for connecting and calming your body, balancing your emotions, and rewiring old patterns of reactivity for better self-regulation. The mind-body approach in this book is designed to guide you away from post-traumatic stress disorder (PTSD) and trauma and toward posttraumatic growth. Using these exercises, you 'll learn how to reconnect and relate to your body—and yourself as a whole—in a new and healthy way. If you 're ready to move past your trauma and rediscover your body 's innate capacity for healing, growth, vitality, and joy, this unique guide will help light the way.

Simple, accessible, and direct, this picture book is perfect for kids and parents or teachers to read together, opening the door to conversations about gender stereotypes and everyone's right to be their true selves. Is it okay for boys to cry? Can girls be strong?

Should girls and boys be given different toys to play with and different clothes to wear? Should we all feel free to love whoever we choose to love? In this incredibly kid-friendly and easy-to-grasp picture book, author-illustrator Elise Gravel and transgender collaborator Mykaell Blais raise these questions and others relating to gender roles, acceptance, and stereotyping. With its simple language, colorful illustrations, engaging backmatter that showcases how "appropriate" male and female fashion has changed through history, and even a poster kids can hang on their wall, here is the ideal tool to help in conversations about a multi-layered and important topic.

From the bestselling author of *GIRL IN HYACINTH BLUE*, "A vivid exploration of one of the most beloved Renoir paintings in

the world, done with a flourish worthy of Renoir himself" (USA Today) With her richly textured novels, Susan Vreeland has offered pioneering portraits of artists' lives. As she did in *Girl in Hyacinth Blue*, Vreeland focuses on a single painting, Auguste Renoir's instantly recognizable masterpiece, which depicts a gathering of Renoir's real friends enjoying a summer Sunday on a café terrace along the Seine. Narrated by Renoir and seven of the models, the novel illuminates the gusto, hedonism, and art of the era. With a gorgeous palette of vibrant, captivating characters, Vreeland paints their lives, loves, losses, and triumphs so vividly that "the painting literally comes alive" (The Boston Globe).

BESTSELLER "As sweet and funny and sad and true and heartfelt a memoir as one could find." —from the foreword by Augusten Burroughs Ever since he was young, John Robison longed to connect with other people, but by the time he was a

teenager, his odd habits—an inclination to blurt out non sequiturs, avoid eye contact, dismantle radios, and dig five-foot holes (and stick his younger brother, Augusten Burroughs, in them)—had earned him the label "social deviant." It was not until he was forty that he was diagnosed with a form of autism called Asperger's syndrome. That understanding transformed the way he saw himself—and the world. A born storyteller, Robison has written a moving, darkly funny memoir about a life that has taken him from developing exploding guitars for KISS to building a family of his own. It's a strange, sly, indelible account—sometimes alien yet always deeply human.
