The Law of EU External Relations American Bar Association

It is not unusual in corporate litigation for the outcome of a case to hinge on the discovery in court of electronically-stored information (ESI). Yet in most jurisdictions (notably among EU Member States) the withholding of such information is required by privacy laws or even laws specifically blocking the transfer of data for discovery purposes. Companies that ignore such laws may face severe sanctions. In the United States, however, discovery of ESI is often compulsory, and failure to comply can lead to contempt of court and losing the case. This book deals with the dilemma faced by multinational corporations when a United States court demands discovery of ESI that is protected in other countries. In fine detail the authors cover the full spectrum of possible responses, from evaluating the comparative cost of legal sanctions in a variety of major global jurisdictions to recognizing when to avoid litigation entirely. The tone throughout is eminently practical, specifying the precise nature and degree of risk involved and offering optimal solutions to all the conflicts likely to arise. On the theoretical side, the rationales of both the US e-discovery model and data privacy laws (focusing on the European data protection directive) are clearly explained. Specific jurisdictions covered include Austria, Belgium, Bulgaria, the Czech Republic, Estonia, Finland, France, Germany, Greece, Hungary, Israel, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Macau, Malaysia, the Netherlands, Norway, Poland, Portugal, Romania, Serbia, Singapore, Slovakia, Slovenia, Spain, Switzerland, Taiwan and United Kingdom.

The third edition of this book incorporates more than 10 years of fascinating dynamics since the entry into force of the Lisbon Treaty. Apart from analysing the general basis of the Union's external action and its relationship to international law, the book explores the law and practice of the EU in more specialized fields of external action, such as common commercial policy, neighbourhood policy, development cooperation, cooperation with third countries, humanitarian aid, external environmental policy, and common foreign and security policy, as well as EU sanctions. Five years after the second edition published, this fully updated edition contains major developments within the law itself, along with changes and restructuring of the themes within the book. Carefully selected primary documents are accompanied with analytic commentary on the issues they raise and their significance for the overall structure of EU external relations law. The primary materials selected include many important legal documents that are hard to find elsewhere but give a vital insight into the operation of EU external relations law in practice.

This is a non-fiction true story that I tell about some good and some bad parts of my lifetime experiences. You should find the good things to be enjoyable reading, and become intrigued by the documented lengthy bad encounter with the court system after I retired. What was happening was unbelievable. It's about my four year encounter with the California Judicial System over a minor traffic infraction, without a lawyer. You should be shocked to learn what can and does happen in court. The courts applied a double standard that negated the rule of law for equal rights. I spent hundreds of dollars fighting for equal justice and the price of the book is well worth it. Now, the same can happen to anyone at any time, thus you can be on the alert by my true story encounters.
