Hard-hitting divorce lawyer James J. Sexton shares his insights and wisdom to help you reverse-engineer a healthy, fulfilling romantic relationship with *How to Stay in Love*. With two decades on the front lines of divorce Sexton has seen what makes formerly happy couples fall out of love and "lose the plot" of the story they were writing together. Now he reveals all of the "what-not-to-dos" for couples who want to build—and consistently work to preserve—a lasting, loving relationship. Sexton tells the unvarnished truth about love and marriage, diving straight into the most common issues that often arise from simple communication problems and relationships that develop by "default" instead of design. Though he deals constantly with the heartbreak of others, he still believes in romance and the transformative power of love. This book is his opportunity to use what he has learned from the mistakes of his clients to help individuals and couples find and preserve lasting connection. Previously published as *If You're In My Office, It's Already Too Late*.

In the aftermath of sixth-century barbarian invasions, the legal profession that had grown and flourished during the Roman Empire vanished. Nonetheless, professional lawyers suddenly reappeared in Western Europe seven hundred years later during the 1230s when church councils and public authorities began to impose a body of ethical obligations on those who practiced law. James Brundage's *The Medieval Origins of the Legal Profession* traces the history of legal practice from its genesis in ancient Rome to its rebirth in the early Middle Ages and eventual resurgence in the courts of the medieval church. By the end of the eleventh century, Brundage argues, renewed interest in Roman law combined with the rise of canon law of the Western church to trigger a series of consolidations in the profession. New legal procedures emerged, and formal training for proctors and advocates became necessary in order to practice law in the reorganized church courts. Brundage demonstrates that many features that characterize legal advocacy today were already in place by 1250, as lawyers trained in Roman and canon law became professionals in every sense of the term. A sweeping examination of the centuries-long power struggle between local courts and the Christian church, secular rule and religious edict, *The Medieval Origins of the Legal Profession* will be a resource for the professional and the student alike.

They baked New England's Thanksgiving pies, preached their faith to crowds of worshippers, spied for the patriots during the Revolution, wrote that human bondage was a sin, and demanded reparations for slavery. Black women in colonial and revolutionary New England sought not only legal emancipation from slavery but defined freedom more broadly to include spiritual, familial, and economic dimensions. Hidden behind the banner of achieving freedom was the assumption that freedom meant affirming black manhood. The struggle for freedom in New England was different for men than for women. Black men in colonial and revolutionary New England were struggling for freedom from slavery and for the right to patriarchal control of their own families. Women had more complicated desires, seeking protection and support in a male headed household while also wanting personal liberty. Eventually women who were former slaves began to fight for dignity and

respect for womanhood and access to schooling for black children.

In classical scholarship, the presence of legal language in love poetry is commonly interpreted as absurd and incongruous. Ovid's legalisms have been described as frivolous, humorous, and ornamental. Law and Love in Ovid challenges this wide-spread, but ill-informed view. Legal discourse in Latin love poetry is not incidental, but fundamental. Inspired by recent work in the interdisciplinary field of law and literature, Ioannis Ziogas argues that the Roman elegiac poets point to love as the site of law's emergence. The Latin elegiac poets may say 'make love, not law', but in order to make love, they have to make law. Drawing on Agamben, Foucault, and Butler, Law and Love in Ovid explores the juridico-discursive nature of Ovid's love poetry, constructions of sovereignty, imperialism, authority, biopolitics, and the ways in which poetic diction has the force of law. The book is methodologically ambitious, combining legal theory with historically informed closed readings of numerous primary sources. Ziogas aims to restore Ovid to his rightful position in the history of legal humanism. The Roman poet draws on a long tradition that goes back to Hesiod and Solon, in which poetic justice is pitted against corrupt rulers. Ovid's amatory jurisprudence is examined vis-à-vis Paul's letter to the Romans. The juridical nature of Ovid's poetry lies at the heart of his reception in the Middle Ages, from Boccaccio's *Decameron* to Forcadell's *Cupido iurisperitus*. The current trend to simultaneously study and marginalize legal discourse in Ovid is a modern construction that Law and Love in Ovid aims to demolish.

From the IX Bishop of the Diocese of New Hampshire in the Episcopal Church, the first openly gay person elected to the episcopate and the world's leading religious spokesperson for gay rights and gay marriage—a groundbreaking book that persuasively makes the case for same-sex marriage using a commonsense, reasoned, religious argument. Robinson holds the religious text of the Bible to be holy and sacred and the ensuing two millennia of church history to be relevant to the discussion. He is equally familiar with the secular and political debate about gay marriage going on in America today, and is someone for whom same-sex marriage is a personal issue; Robinson was married to a woman for fourteen years and is a father of two children and has been married to a man for the last four years of a twenty-five-year relationship. Robinson has a knack for taking complex and controversial issues and addressing them in plain

direct language, without using polemics or ideology, putting forth his argument for gay marriage, and bringing together sacred and secular points of view.

Please note that the supplemental materials website has moved to [caplaw.com/rll](http://caplaw.com/rll) Studies show that the reading skills your students have developed in college may not be enough to ensure their success in law school. Reading law requires professionals to understand the purpose of their reading, to form and express opinions about what they're reading, to apply legal logic, to read with energy, and to adopt sophisticated reading habits that are unique to the study of law. Written for law students, pre-law students, paralegals, and others interested in developing these reading skills, *Reading Like a Lawyer* teaches each of the following critical legal reading skills: how to read legal casebooks and engage in class, as well as how to use your reading to prepare for exams; how to read published court cases outside of a casebook; how to read legislative material; and how to read online effectively. Based on sound educational research, each chapter includes exercises that challenge students to apply what that chapter has taught. A website accompanies the book and includes additional readings (e.g., on logic) plus opportunities for students to gain confidence by testing their own thoughts against those of the author. For faculty, *Reading Like a Lawyer* includes a separate teacher's manual and a faculty website with a powerpoint that mirrors the book's principle lessons.

In *Rebels at the Bar*, prize-winning legal historian Jill Norgren recounts the life stories of a small group of nineteenth century women who were among the first female attorneys in the United States. Beginning in the late 1860s, these determined rebels pursued the radical ambition of entering the then all-male profession of law. They were motivated by a love of learning. They believed in fair play and equal opportunity. They desired recognition as professionals and the ability to earn a good living. *Rebels at the Bar* expands our understanding of both women's rights and the history of the legal profession in the nineteenth century. It focuses on the female renegades who trained in law and then, like men, fought considerable odds to create successful professional lives. In this engaging and beautifully written book, Norgren shares her subjects' faith in the art of the possible. In so doing, she ensures their place in history.

**Love After 50** Oxford University Press, USA

A comprehensive and intimate guide to finding, keeping, and enjoying love after fifty, the best kind of love there is.

Studies keep showing that love after fifty is more satisfying than at any other stage in life, and it makes sense: at this stage, you are more emotionally stable and more focused on the present; you know what you absolutely have to have, but also what you can live without; partnering is no longer about building family and fortune—it's about sharing intimacy as grounded individuals. And sex isn't pass/fail anymore, but about becoming erotic friends. So, if this is the promised land, how do you get there? In *Love After 50*, journalist Francine Russo interviewed the best experts in the field and dozens of couples to help show the way. Her "practical, excellent guide" (John Gottman, author of *The Seven Principles for Making Marriage Work*) includes advice like: -How to recover from the emotional damage of divorce, the grief of widowhood, or a history of unfulfilling relationships -How to build realistic requirements for a partner -What attitudes to bring to dating -How to overcome the psychological challenges of sex and embrace your erotic selves -How to evaluate the financial, emotional, and practical results of marrying, living together, or living apart -How to deal with (hostile) adult kids to safeguard your relationship and family *Love After 50* is "essential reading" (Pauline Boss, PhD, author of *The Myth of Closure*) that is not only practical but also unassuming and candid. It is full of real people's stories (including the author's), with vivid examples of couples who have overcome their pasts to form healthy and nurturing partnerships. In other words, it's as real as love after fifty can be.

There are legal issues triggered by the simple act of a CAC opening a file. As the case progresses, the legal issues often expand exponentially. Ultimately, decisions made that affect the health, welfare and future of a child will be decided in a courtroom or other legal processes leading up to the courtroom. This is the third edition of *Legal Letters* written by Andrew Agatston to CACs as part of his national *Legal Eagle List Serv*.
