Love Wins A&C Black

The fascinating and very moving story of the lovers, lawyers, judges and activists behind the groundbreaking Supreme Court case that led to one of the most important, national

civil rights victories in decades—the legalization of same-sex marriage. In June 2015, the Supreme Court made same-sex marriage the law in all fifty states in a decision as groundbreaking as *Roe v Wade* and *Brown v Board of Education*. Through insider accounts and access to key players, this definitive account reveals the dramatic and previously unreported events behind *Obergefell v Hodges* and the lives at its center. This is a story of law and love—and a promise made to a dying man who wanted to know how he would be remembered. Twenty years ago, Jim Obergefell and John Arthur fell in love in Cincinnati, Ohio, a place where gays were routinely picked up by police and fired from their jobs. In 2013, the Supreme Court ruled that the federal government had to provide married gay couples all the benefits offered to straight couples. Jim and John—who was dying from ALS—flew to Maryland, where same-sex marriage was legal. But back home, Ohio refused to recognize their union, or even list Jim’s name on John’s death certificate. Then they met Al Gerhardstein, a courageous attorney who had spent nearly three decades advocating for civil rights and who now saw

an opening for the cause that few others had before him. This forceful and deeply affecting narrative—Part Erin Brockovich, part Milk, part Still Alice—chronicles how this grieving man and his lawyer, against overwhelming odds, introduced the most important gay rights case in U.S. history. It is an urgent and unforgettable account that will inspire readers for many years to come.

In this electrifying bestseller, the shrewd and voluble trial lawyer Louis Nizer, who made a long career of representing famous people in famous cases, recounts some of his significant civil and criminal cases. Nizer rose to national fame with his real-life accounts of tension-filled courtrooms and the fervor of the advocate, and “My Life in Court” proved to be no exception: it rose to the top of the Times’s best-seller list on its publication in 1961 and logged 72 weeks as a sales leader. The book is an in-

depth collection of some of Mr. Nizer's court case success stories, including his client Quentin Reynolds' famous libel action against the columnist Westbrook Pegler, which would also become the basis of the 1963 Broadway play "A Case of Libel." Praised by critics as "entertaining and philosophically instructive, an unusual combination," Nizer's movie-like plots of real-life courtroom drama will keep you captivated until the very last page.

David E. McCraw recounts his experiences as the top newsroom lawyer for the New York Times during the most turbulent era for journalism in generations. In October 2016, when Donald Trump's lawyer demanded that The New York Times retract an article focused on two women that accused Trump of touching them inappropriately, David McCraw's scathing letter of refusal went viral and he became a hero of press freedom everywhere. But as you'll see in *Truth in Our Times*, for the top newsroom lawyer at the paper of record, it was just another day at the office. McCraw has worked at the Times since 2002, leading the paper's fight for freedom of information, defending it against libel suits, and providing legal counsel to the reporters breaking the biggest stories of the year. In short: if you've read a controversial story in the paper since the Bush administration, it went across his desk first. From Chelsea Manning's leaks to Trump's tax returns, McCraw is at the center of the paper's decisions about what news is fit to print. In *Truth in Our Times*, McCraw recounts the hard legal decisions behind the most impactful stories of the last decade with candor and style. The book is simultaneously a rare peek behind the curtain of the celebrated organization, a love letter to freedom of the press, and a decisive rebuttal of Trump's fake news slur through a series of hard cases. It is an absolute must-have for any dedicated reader of The New York

Times.

Michael Ratner (1943-2016) was one of America's leading human rights lawyers. He worked for more than four decades at the Center for Constitutional Rights (CCR) becoming first the Director of Litigation and then the President of what Alexander Cockburn called "a small band of tigerish people." He was also the President of the National Lawyers Guild. Ratner handled some of the most significant cases in American history. This book tells why and how he did it. His last case, which he worked on until he died, was representing truth-telling whistleblower and now political prisoner Julian Assange, the editor of WikiLeaks. Ratner "moved the bar" by organizing some 600 lawyers to successfully defend habeas corpus, that is, the ancient right of someone accused of a crime to have a lawyer and to be brought before a judge. Michael had a piece of paper taped on the wall next to his desk at the CCR. It read: 4 key principles of being a radical lawyer: 1. Do not refuse to take a case just because it is long odds of winning in court. 2. Use cases to publicize a radical critique of US policy and to promote revolutionary transformation. 3. Combine legal work with political advocacy. 4. Love people. Compelling and instructive, *Moving the Bar* is an indispensable manual for the next generation of activists and their lawyers.

An epic, award-winning biography of Malcolm X that draws on hundreds of hours of personal interviews and rewrites much of the known narrative. Les Payne, the renowned Pulitzer Prize-winning investigative journalist, embarked in 1990 on a nearly thirty-year-

The result is this historic, National Book Award–winning biography, which interweaves previously unknown details of Malcolm X’s life—from harrowing Depression-era vignettes to a moment-by-moment retelling of the 1965 assassination—into an extraordinary account that contextualizes Malcolm X’s life against the wider currents of American history. The Law Says What? Doubleday

From an award-winning civil rights lawyer, a profound challenge to our society's normalization of the caging of human beings, and the role of the legal profession in perpetuating it Alec Karakatsanis is interested in what we choose to punish. For example, it is a crime in most of America for poor people to wager in the streets over dice; dice-wagerers can be seized, searched, have their assets forfeited, and be locked in cages. It's perfectly fine, by contrast, for people to wager over international currencies, mortgages, or the global supply of wheat; wheat-wagerers become names on the wings of hospitals and museums. He is also troubled by how the legal system works when it is trying to punish people. The bail system, for example, is meant to ensure that people return for court dates. But it has morphed into a way to lock up poor people who have not been convicted of anything. He's so concerned about this that he has personally sued court systems across the country, resulting in literally tens of thousands of people being released from jail when their money bail was found to be unconstitutional. Karakatsanis doesn't think people who have gone to law school, passed the bar, and sworn to uphold the Constitution should be complicit in the mass caging of human beings—an everyday brutality inflicted disproportionately on the bodies and minds of poor people and people of color and for which the legal system has never offered sufficient justification. *Usual Cruelty* is a profoundly radical reconsideration of the American "injustice system" by someone who is actively, wildly successfully, challenging it.

A crucial guide to life before—and after—Tinder, IVF, and robots. What will happen to our notions of marriage and parenthood as reproductive technologies increasingly allow for newfangled ways of creating babies?

What will happen to our understanding of gender as medical advances enable individuals to transition from one set of sexual characteristics to another, or to remain happily perched in between? What will happen to love and sex and romance as our relationships migrate from the real world to the Internet? Can people fall in love with robots? Will they? In short, what will happen to our most basic notions of humanity as we entangle our lives and emotions with the machines we have created? In *Work Mate Marry Love*, Harvard Business School professor and former Barnard College president Debora L. Spar offers an incisive and provocative account of how technology has transformed our intimate lives in the past, and how it will do so again in the future. Surveying the course of history, she shows how marriage as we understand it resulted from the rise of agriculture, and that the nuclear family emerged with the industrial revolution. In their day, the street light, the car, and later the pill all upended courtship and sex. Now, as we enter an era of artificial intelligence and robots, how will our deepest feelings and attachments evolve? In the past, the prevailing modes of production produced a world dominated by heterosexual, mostly-monogamous, two-parent families. In the future, however, these patterns are almost certain to be reshaped, creating entirely new norms for sex and romance, and for the construction of families and the raising of children. Steering clear of both

techno-euphoria and alarmism, Spar offers a bold and inclusive vision of how our lives might be changed for the better.

Work-life balance is not just a woman's issue. Both men and women struggle to balance work and personal lives. This book of essays focuses on work-life balance from the male perspective. We asked a group of husbands of women lawyers - all ages, all generations, various professions - to share their observations, insights, and thoughts about the pressures they've faced achieving

work-life balance. Men wrote essays about prioritizing time as a spouse and parent, working arrangements, and being an effective team. They described efforts made to support the advancement of women in the law and, in particular, their spouse's career; professional and personal achievements and hardships; impossible challenges; changes in the legal profession for women observed and experienced; and workable solutions to balance competing demands. This collection of essays illustrates the pressures faced by men and their spouses; describes work-life balance issues and the satisfactions and difficulties of a dual career marriage; gives advice on how to do it; and explains the frustrations, disappointments, demands, and compromises - from the husband's perspective.
