We all love to read and learn from books, but The Repurposed Library takes our passion even further, presenting us with 33 projects to make--quite literally--out of books. For these projects, Lisa Occhipinti rescues and repurposes orphaned and outdated books from flea markets and library sales and turns them into new art objects and practical items for the home. Her creations range from artfully constructed mobiles, wreaths, and vases, to functional items like

shelves, storage boxes, and even a Kindle "keeper" for those who want to replicate the sensation of holding a "real" book while reading from an e-reader. Projects utilize every imaginable part of a book--from hardback cover to individual pages--and are a DIY celebration of a new way to view a book's potential.

Lincoln Logs Building Manual Skyhorse Publishing Inc.

Since the "Automatic Binding Bricks" that LEGO produced in 1949, and the LEGO "System of Play" that began with the release of Town Plan No. 1 (1955), LEGO bricks have gone on to become a global phenomenon, and the favorite building toy of children, as well as many an AFOL (Adult Fan of LEGO). LEGO has also become a medium into which a wide number of media franchises, including Star Wars, Harry Potter, Pirates of the Caribbean, Batman, Superman, Lord of the

Rings, and others, have adapted their characters, vehicles, props, and settings. The LEGO Group itself has become a multimedia empire, including LEGO books, movies, television shows, video games, board games, comic books, theme parks, magazines, and even MMORPGs. LEGO Studies: Examining the Building Blocks of a Transmedial Phenomenon is the first collection to examine LEGO as both a medium into which other franchises can be adapted and a transmedial franchise of its own. Although each essay looks at a particular aspect of the LEGO phenomenon, topics such as adaptation, representation, paratexts, franchises, and interactivity intersect throughout these essays, proposing that the study of LEGO as a medium and a media empire is a rich vein barely touched upon in Media Studies.

The LEGO® Ideas Book Chronicle Books

"The right story at the right time. . . . It's not just a narrative; it's an experience. It's the novel we've been waiting for." —The New York Times A boy tries to steer a safe path through the projects in Harlem in the wake of his brother's death in this outstanding debut novel that celebrates community and creativity. Winner of the Coretta Scott King John Steptoe Award for New Talent and soon to be a major motion picture directed by Michael B. Jordan! It's Christmas Eve in Harlem, but twelve-year-old Lolly Rachpaul and his mom aren't celebrating. They're still reeling from his older brother's death in a gang-related shooting just a few months earlier. Then Lolly's mother's girlfriend brings him a gift that will change everything: two enormous bags filled with Legos. Lolly's always loved Legos, and he prides himself on following the kit instructions exactly. Now, faced with a pile of building blocks and no instructions, Lolly must find his own way forward. His path isn't clear—and the pressure to join a "crew," as his brother did, is always there. When Lolly and his friend are beaten up and robbed, joining a crew almost seems like the safe choice. But

building a fantastical Lego city at the community center provides Lolly with an escape—and an unexpected bridge back to the world. David Barclay Moore paints a powerful portrait of a boy teetering on the edge—of adolescence, of grief, of violence—and shows how Lolly’s inventive spirit helps him build a life with firm foundations and open doors. A New York Times Notable Book A Time Magazine Top 10 Children's Books of the Year A Boston Globe Best Children's Book of the Year Six Starred Reviews “A fast and furious read in which we meet some amazing people, people that stay with us. David Barclay Moore is an exciting new voice. We definitely haven’t heard the last of his brilliance.” —Jacqueline Woodson, Newbery Honor and National Book Award–winning author of *Brown Girl Dreaming* “The Stars Beneath Our Feet is about the weight of the world on the back of a child, and the creative tools necessary to alleviate that pressure. I found myself rooting for Lolly, and you will too.” —Jason Reynolds, Coretta Scott King Honor Winner for *As Brave As You*
Parenting Matters No Starch Press

Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant

ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

"Get off your phone and read Jess Kimball Leslie's funny book!"

---Andy Cohen, host of Bravo's *Watch What Happens Live* *I LOVE MY COMPUTER BECAUSE MY FRIENDS LIVE IN IT* is a hilarious memoir of growing up in the early days of the Internet and celebrating technology's role in our lives. Coming of age in suburban Connecticut in the late '80s and early '90s, Jess Kimball Leslie looked to the nascent Internet to find the tribes she couldn't find IRL: fellow Bette Midler fans; women who seemed impossibly sure of their sexuality; interns trudging through similarly soul-crushing media jobs. Through effortlessly comedic storytelling and looks at tech through the ages (with photos!), Jess takes you on a journey through the hilarious times that technology and the Internet changed her life. From accounts of the lawless chat rooms of early AOL to the perpetual high school reunions that are modern-day Facebook and Instagram, Jess's essays paint a clear picture: That each of us has a much more twisted, meaningful, emotional relationship with the online world than we realize or let on.

Play It! Christmas Songs ABDO

This book investigates a paradox of creative yet scripted play—how LEGO invites players to build ‘freely’ with and within its highly structured, ideologically-laden toy system. First, this book considers theories and methods for deconstructing LEGO as a medium of bricolage, the creative reassembly of already-significant elements. Then, it pieces together readings of numerous LEGO sets, advertisements, videogames, films, and other media that show how LEGO constructs five ideologies of play: construction play, dramatic play, digital play, transmedia play, and attachment play. From suburban traffic patterns to architectural croissants, from feminized mini-doll bodies to toys-to-life stories, from virtual construction to playful fan creations, this book explores how the LEGO medium conveys ideological messages—not by transmitting clear statements but by providing implicit instructions for how to reassemble meanings it had all along.
