### **From the Silent Era Through 1965: Third Edition** Penguin

Why has the myth of Pygmalion and his ivory statue proved so inspirational for writers, artists, philosophers, scientists, and directors and creators of films and television series? The 'authorised' version of the story appears in the epic poem of transformations, *Metamorphoses*, by the first-century CE Latin poet Ovid; in which the bard Orpheus narrates the legend of the sculptor king of Cyprus whose beautiful carved woman was brought to life by the goddess Venus. Focusing on screen storylines with a Pygmalion subtext, from silent cinema to *Buffy the Vampire Slayer* and *Lars and the Real Girl*, this book looks

at why and how the made-over or manufactured woman has survived through the centuries and what we can learn about this problematic model of 'perfection' from the perspective of the past and the present. Given the myriad representations of Ovid's myth, can we really make a modern text a tool of interpretation for an ancient poem? This book answers with a resounding 'yes' and explains why it is so important to give antiquity back its future.

Leonard Maltin's 2014 Movie Guide Gale Cengage

Hollywood historian and film reviewer Leonard Maltin invites readers to pull up a chair and listen as he tells stories, many of them hilarious, of 50+ years interacting with legendary movie stars, writers, directors, producers, and cartoonists. Maltin grew up in the first decade of television, immersing himself in TV programs and accessing 1930s and '40s movies hitting the small screen. His fan letters to admired performers led to unexpected correspondences, then to interviews and publication of his own fan magazine. Maltin's career as a freelance writer and New York Times-bestselling author as well as his 30-year run on Entertainment Tonight, gave

him access to Katharine Hepburn, Elizabeth Taylor, Sean Connery, Shirley Temple, and Jimmy Stewart among hundreds of other Golden Age stars, his interviews cutting through the Hollywood veneer and revealing the human behind each legend. Starstruck also offers a fascinating glimpse inside the Disney empire, and Maltin's tenure teaching USC's popular film course reveals insights into moviemaking along with access to past, current, and future stars of film, such as George Lucas, Kevin Feige, Quentin Tarantino, and Guillermo del Toro.
