Sellars (1912-1989) was, in the opinion of many, the most important American philosopher of the second half of the twentieth century. This collection, coedited by Sellars's chief interpreter and intellectual heir, should do much to elucidate and clearly establish the significance of this difficult thinker's vision for contemporary philosophy.

Randall Jarrell was only fifty-one at the time of his death, in 1965, yet he created a body of work that secured his position as one of the century's leading American men of letters. Although he saw himself chiefly as a poet, publishing a number of books of poetry, he also left behind a sparkling comic novel, four children's books, numerous translations, haunting letters, and four collections of essays. Edited by Brad Leithauser, No Other Bookdraws from these four essay collections, reminding us that Jarell the poet was also, in the words of Robert Lowell, "a critic of genius."

George Orwell set out ‘to make political writing into an art’, and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While 1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell’s essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In Politics and the English Language, the second in the Orwell’s Essays series, Orwell takes aim at the language used in politics, which, he says, ‘is designed to make lies sound truthful and murder respectable, and to give an appearance of solidity to pure wind’. In an age where the language used in politics is constantly under the microscope, Orwell’s Politics and the English Language is just as relevant today, and gives the reader a vital understanding of the tactics at play. From one of the world’s leading voices on white privilege and anti-racism work comes this collection of essays on complexities of privilege and power. Each of the four parts illustrates Peggy McIntosh’s practice of combining personal and systemic understandings to focus on power in unusual ways. Part I includes McIntosh’s classic and influential essays on privilege, or systems of unearned advantage that correspond to systems of oppression. Part II helps readers to understand that feelings of fraudulence may be imposed by our hierarchical cultures rather than by any actual weakness or personal shortcomings. Part III presents McIntosh’s Interactive Phase Theory, highlighting five different world views, or attitudes about power, that affect school curriculum, cultural values, and decisions on taking action. The book concludes with powerful insights from SEED, a peer-led teacher development project that enables individuals and institutions to work collectively toward equity and social justice. This book is the culmination of forty years of McIntosh’s intellectual and organizational work.

The late Leszek Kolakowski was one of the most influential philosophers of the twentieth century. A prominent anticommunist writer, Kolakowski was also a deeply humanistic thinker, and his meditations on society, religion, morality, and culture stand alongside his political writings as commentaries on intellectual—and everyday—life in the twentieth century. Kolakowski’s extraordinary empathy, humor, and erudition are on full display in Is God Happy?, the first collection of his work to be published since his death in 2009. Accessible and wide ranging, these essays—many of them translated into English for the first time—testify to the remarkable scope of Kolakowski’s work. From a provocative and deeply felt critique of Marxist ideology to the witty and self-effacing “In Praise of Unpunctuality” to a rigorous analysis of Erasmus’ model of Christianity and the future of religion, these essays distill Kolakowski’s lifelong engagement with the eternal problems of philosophy and some of the most vital questions of our age.

Alive with insight, wit and Dyer's characteristic irreverence, this collection of essays offers a guide around the cultural maze, mapping a route through the worlds of literature, art, photography and music. Besides exploring what it is that makes great art great, Working the Room ventures into more personal territory with extensive autobiographical pieces - 'On Being an Only Child', 'Sacked' and 'Reader's Block', among other gems. Dyer's breadth of vision and generosity of spirit combine to form a manual for ways of being in - and seeing - the world today.

A wry and compassionate selection of essays reflecting on mortals and mortality, from the acclaimed author of The Undertaking. For nearly four decades, poet, essayist, and small-town funeral director Thomas Lynch has probed relations between the literary and mortuary arts. His life’s work with the dead and the bereaved has informed four previous collections of nonfiction, each exploring identity and humanity with Lynch’s signature blend of memoir, meditation, gallows humor, and poetic precision. The Depositions provides an essential selection from these masterful collections—essays on fatherhood, Irish heritage, funeral rites, and the perils of bodiless obsequies—as well as new essays in which the space between Lynch’s hyphenated identities—as an Irish American, undertaker-poet—is narrowed by the deaths of poets, the funerals of friends, the loss of neighbors, intimate estrangements, and the slow demise of a beloved dog. In “Gladstone,” from The Undertaking, Lynch reflects on his then twenty-five years as an undertaker at the Midwinter Conference for Michigan funeral directors, which incongruously takes place on an island in the Caribbean. With brutal, generous honesty, “The Way We Are,” from Bodies in Motion and at Rest, grapples with Lynch’s time as a single parent coming to terms with generations of his family inheritance of alcoholism and recovery. The press of the author's own mortality animates the new essays, sharpening a curiosity about where we come from, where we go, and what it means. As Alan Ball writes in a penetrating foreword, Lynch's work allows us “to see both the absurdity and the beauty of death, sometimes simultaneously.” With this landmark collection, he continues to illuminate not only how we die, but also how we live.

This carefully crafted ebook: "Mrs. Dalloway" is formatted for your eReader with a functional and detailed table of contents. Mrs Dalloway, Virginia Woolf’s fourth novel, offers the reader an impression of a single June day in London in 1923. Clarissa Dalloway, the wife of a Conservative member of parliament, is preparing to give an evening party, while the shell-shocked Septimus Warren Smith hears the birds in Regent's Park chattering in Greek. There seems to be nothing, except perhaps London, to link Clarissa and Septimus. She is middle-aged and prosperous, with a sheltered happy life behind her; Smith is young, poor, and driven to hatred of himself and the whole human race. Yet both share a terror of existence, and sense the pull of death. The world of Mrs Dalloway is evoked in Woolf’s famous stream of consciousness style, in a lyrical and haunting language which has made this, from its publication in 1925, one of her most popular novels.

a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While 1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell’s essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In Why I Write, the first in the Orwell's Essays series, Orwell describes his journey to becoming a writer, and his movement from writing poems to short stories to the essays, fiction and non-fiction we remember him for. He also discusses what he sees as the ‘four great motives for writing’ – ‘sheer egoism’, ‘aesthetic enthusiasm’, ‘historical impulse’ and ‘political purpose’ – and considers the importance of keeping these in balance. Why I Write is a unique opportunity to look into Orwell's mind, and it grants the reader an entirely different vantage point from which to consider the rest of the great writer's oeuvre. His personal essays on Jean Genet, Andy Warhol, Philip Glass, and others, give us compelling portraits of his fellow artists. And his views on poetry, free speech, Buddhism, and the Beats reflect the concerns of the postwar American culture he helped shape. Provocative, playful, eloquent, and of the moment, these essays offer a social history of modern America that remind us of the events and issues that preoccupied the minds of a nation -- and one of its most influential citizens -- in the postwar years.

NATIONAL BESTSELLER • Here is the Nobel Prize winner in her own words: a rich gathering of her most important essays and speeches, spanning four decades that "speaks to today's social and political moment as directly as this morning's headlines" (NPR). These pages give us her searing prayer for the dead of 9/11, her Nobel lecture on the power of language, her searching meditation on Martin Luther King Jr., her heart-wrenching eulogy for James Baldwin. She looks deeply into the fault lines of culture and freedom: the foreigner, female empowerment, the press, money, “black matter(s),” human rights, the artist in society, the Afro-American presence in American literature. And she turns her incisive critical eye to her own work (The Bluest Eye, Sula, Tar Baby, Jazz, Beloved, Paradise) and that of others. An essential collection from an essential writer, The Source of Self-Regard shines with the literary elegance, intellectual prowess, spiritual depth, and moral compass that have made Toni Morrison our most cherished and enduring voice.
