An unprecedented and terrifying bioterrorism plot threatens to kill millions in the midst of a divisive presidential election in this new thriller from the #1 New York Times bestselling Mitch Rapp series. A toxic presidential election is underway in an America already badly weakened by internal divisions. While politicians focus entirely on maintaining their own power and privilege, ISIS kidnaps a brilliant French microbiologist and forces him to begin manufacturing anthrax. Slickly produced videos chronicling his progress and threatening an imminent attack are posted to the Internet, intensifying the hysteria gripping the US. ISIS recruits a Mexican drug cartel to smuggle the bioweapon across the border, but it's really just a diversion. The terrorist organization needs to keep Mitch Rapp and Irene Kennedy distracted long enough to weaponize a deadly virus that they stumbled upon in Yemen. If they succeed, they'll trigger a pandemic that could rewrite the world order. Rapp embarks on a mission to infiltrate the Mexican cartels and track down the ISIS leader who he failed to kill during their last confrontation. But with Washington's political elite increasingly lined up against him, he knows he'll be on his own. "In the world of black-ops thrillers, Mitch Rapp remains the gold standard" (Booklist, starred review).

NATIONAL BESTSELLER • WINNER OF THE PULITZER PRIZE • A searing, post-apocalyptic novel about a father and son's fight to survive, this "tale of survival and the miracle of goodness only adds to McCarthy's stature as a living master. It's gripping, frightening and, ultimately, beautiful" (San Francisco Chronicle). A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. The Road is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation.

"Dazzling. . . . A hard-won love letter to readers and to booksellers, as well as a compelling story about how we cope with pain and fear, injustice and illness. One good way is to press a beloved book into another's hands. Read The Sentence and then do just that."—USA Today, Four Stars In this New York Times bestselling novel, Pulitzer Prize and National Book Award–winning author Louise Erdrich creates a wickedly funny ghost story, a tale of passion, of a complex marriage, and of a woman's relentless errors. Louise Erdrich's latest novel, *The Sentence*, asks what we owe to the living, the dead, to the reader and to the book. A small independent bookstore in Minneapolis is haunted from November 2019 to November 2020 by the store's most annoying customer. Flora dies on All Souls' Day, but she simply won't leave the store. Tookie, who has landed a job selling books after years of incarceration that she survived by reading "with murderous attention," must solve the mystery of this haunting while at the same time trying to understand all that occurs in Minneapolis during a year of grief, astonishment, isolation, and furious reckoning. *The Sentence* begins on All Souls' Day 2019 and ends on All Souls' Day 2020. Its mystery and proliferating ghost stories during this one year propel a narrative as rich, emotional, and profound as anything Louise Erdrich has written.

February 1989. Captain Brian Halloran and his Special Forces team deploy to a remote jungle valley in Peru to establish a base for training elite Peruvian counter-narcotics police. Not only are they threatened by violent narco-traffickers, but they face possible attack by the ruthless Shining Path insurgents operating in the valley. Making matters worse, they quickly realize that powerful political forces may be conspiring to ensure their mission fails. A brilliant young guerrilla leader, Comrade Olivario, commands the most lethal force the insurgents have ever fielded. He must establish the Shining Path as the preeminent political power in the valley, and to do this he must eliminate every threat—including the Green Berets. The stakes are high, and Olivario's plan will not only decide who controls the valley, but very likely the fate of the woman he loves. Straight from the headlines, *White Passage: Red Sun* details the motivation behind US involvement in the drug war and accurately describes the tenuous relationship between the drug cartels and various terrorist insurgencies. The exciting story explains the powerful influence of global political events on the "drug war" and exposes the inner workings of one of the most misunderstood conflicts of our time.

I think the greatest cross they bore consisted in being compelled to settle down in home camp, as some regiments did for months, waiting to be sent off. Here they were in sight of home in many cases, yet outside of its comforts to a large extent; soldiers, yet out of danger; bidding their friends a tender adieu to-day, because they are to leave them—perhaps forever—tomorrow. But the morrow comes, and finds them still in camp. Yes, there were soldiers who bade their friends a long good-by in the morning, and started for camp expecting that very noon or afternoon to leave for the tented field, but who at night returned again to spend a few hours more at the homestead, as the departure of the regiment had been unexpectedly deferred. The soldiers underwent a great deal of wear and tear from false alarms of this kind, owing to various reasons. Sometimes the regiment failed to depart because it was not full; sometimes it was awaiting its field officers; sometimes complete equipments were not to be had; sometimes it was delayed to join an expedition not yet ready; and thus, in one way or other, the men and their friends were kept long on the tiptoe of expectation. Whenever a rumor became prevalent that the regiment was surely going to leave on a certain day near at hand, straightway there was an exodus from camp for home, some obtaining a furlough, but more going without one, to take another touching leave all around, for the dozenth time perhaps. Many of those who lived too far away to be sure of returning in time, remained in camp, and telegraphed friends to meet them at some large centre, as they passed through on

'An irresistible page-turner that reads like the most compelling, sleep defying fiction' TIME OUT One was an architect. The other a serial killer. This is the incredible story of these two men and their realization of the Chicago World's Fair of 1893, and its amazing 'White City'; one of the wonders of the world. The architect was Daniel H. Burnham, the driving force behind the White City, the massive, visionary landscape of white buildings set in a wonderland of canals and gardens. The killer was H. H. Holmes, a handsome doctor with striking blue eyes. He used the attraction of the great fair - and his own devilish charms - to lure scores of young women to their deaths. While Burnham overcame politics, infighting, personality clashes and Chicago's infamous weather to transform the swamps of Jackson Park into the greatest show on Earth, Holmes built his own edifice just west of the fairground. He called it the World's Fair Hotel. In reality it was a torture palace, a gas chamber, a crematorium. These two disparate but driven men are brought to life in this mesmerizing, murderous tale of the legendary Fair that transformed America and set it on course for the twentieth century . . .

'A compelling tale... a narrative that makes such a brave effort to see history as it evolves and not as it becomes.' SPECTATOR Suffused with the tense atmosphere of the times, and with brilliant portraits of Hitler, Goebbels, Goering and Himmler amongst others, Erik Larson's new book sheds unique light on events as they unfold, resulting in an unforgettable, addictively readable work of narrative history. Berlin, 1933. William E. Dodd, a mild-mannered academic from Chicago, has to his own and everyone else's surprise, become America's first ambassador to Hitler's Germany, in a year that proves to be a turning point in history. Dodd and his family, notably his vivacious daughter, Martha, observe at first-hand the many changes - some subtle, some disturbing, and some horrifically violent - that signal Hitler's consolidation of power. Dodd has little choice but to associate with key figures in the Nazi party, his increasingly concerned cables make little impact on an indifferent U.S. State Department, while Martha is drawn to the Nazis and their vision of a 'New Germany' and has a succession of affairs with senior party players, including first chief of the Gestapo, Rudolf Diels. But as the year darkens, Dodd and his daughter find their lives transformed and any last illusion they might have about Hitler are shattered by the violence of the 'Night of the Long Knives' in the summer of 1934 that established him as supreme dictator . . .

#1 NEW YORK TIMES BESTSELLER • From the bestselling author and master of narrative nonfiction comes the enthralling story of the sinking of the Lusitania "Both terrifying and enthralling."—Entertainment Weekly "Thrilling, dramatic and powerful."—NPR "Thoroughly engrossing."—George R.R. Martin On May 1, 1915, with WWI entering its tenth month, a luxury ocean liner as richly appointed as an English country house sailed out of New York, bound for Liverpool, carrying a record number of children and infants. The passengers were surprisingly at ease, even though Germany had declared the seas around Britain to be a war zone. For months, German U-boats had brought terror to the North Atlantic. But the Lusitania was one of the era's great transatlantic "Greyhounds"—the fastest liner then in service—and her captain, William Thomas Turner, placed tremendous faith in the gentlemanly strictures of warfare that for a century had kept civilian ships safe from attack. Germany, however, was determined to change the rules of the game, and Walther Schwieger, the captain of Unterseeboot-20, was happy to oblige. Meanwhile, an ultra-secret British intelligence unit tracked Schwieger's U-boat, but told no one. As U-20 and the Lusitania made their way toward Liverpool, an array of forces both grand and achingly small—hubris, a chance fog, a closely guarded secret, and more—all converged to produce one of the great disasters of history. It is a story that many of us think we know but don't, and Erik Larson tells it thrillingly, switching between hunter and hunted while painting a larger portrait of America at the height of the Progressive Era. Full of glamour and suspense, *Dead Wake* brings to life a cast of evocative characters, from famed Boston bookseller Charles Lauriat to pioneering female architect Theodate Pope to President Woodrow Wilson, a man lost to grief, dreading the widening war but also captivated by the prospect of new love. Gripping and important, *Dead Wake* captures the sheer drama and emotional power of a disaster whose intimate details and true meaning have long been obscured by history. In this "crisp, engaging, and very smart" (*The New York Times Book Review*) work, *The Washington Post's* Pulitzer Prize-winning book critic digs into books of the Trump era and finds that our response to this presidency often reflects the same polarization, contradictions, and resentments that made it possible. It is an irony of our age that a man who rarely reads has unleashed an onslaught of books about his tenure and his time. Dissections of the white working class. Manifestos of political resistance. Works on identity, gender, and migration. Memoirs on race and protest. Revelations of White House mayhem. Warnings over the future of conservatism, progressivism, and of American democracy itself. As a book critic for *The Washington Post*, Carlos Lozada has read just about all of them. In *What Were We Thinking*, he draws on some 150 recent volumes to explore how we understand ourselves in the Trump era. Lozada's characters are not the president, his advisers, or his antagonists but the political and cultural ideas at play—and at stake—in America. Just as Trump's election upended the country's political establishment, it shocked its intellectual class. Though some of the books of the Trump era skillfully illuminate the challenges and transformations the nation faces, too many works are more defensive than incisive, more righteous than right. Lozada offers a provocative argument: Whether written by liberals or conservatives, activists or academics, true believers or harsh critics, the books of Trump's America are vulnerable to the same failures of imagination that gave us this presidency in the first place. In *What Were We Thinking*, Lozada's selections range from bestselling titles to little-known works, from thoroughly reported accounts of the administration to partisan polemics, from meditations on the fate of truth to memoirs about

enduring—or enabling—the Trump presidency. He also identifies books that challenge entrenched assumptions and shift our vantage points, the books that best help us make sense of this era. The result is an "elegant yet lacerating" (*The Guardian*) intellectual history of our time, a work that transcends daily headlines to discern how we got here and how we thought here. *What Were We Thinking* will help today's readers understand America, and will help tomorrow's readers look back and understand us.

Poland and Czechoslovakia had already fallen, and the Dunkirk evacuation was just two weeks away. For the next twelve months, Hitler would wage a relentless bombing campaign, killing 45,000 Britons. It was up to Churchill to hold his country together and persuade President Franklin Roosevelt that Britain was a worthy ally—and willing to fight to the end. In *The Splendid and the Vile*, Erik Larson shows, in cinematic detail, how Churchill taught the British people "the art of being fearless." It is a story of political brinkmanship, but it's also an intimate domestic drama, set against the backdrop of Churchill's prime-ministerial country home, Chequers; his wartime retreat, Ditchley, where he and his entourage go when the moon is brightest and the bombing threat is highest; and of course 10 Downing Street in London. Drawing on diaries, original archival documents, and once-secret intelligence reports—some released only recently—Larson provides a new lens on London's darkest year through the day-to-day experience of Churchill and his family: his wife, Clementine; their youngest daughter, Mary, who chafes against her parents' wartime protectiveness; their son, Randolph, and his beautiful, unhappy wife, Pamela; Pamela's illicit lover, a dashing American emissary; and the advisers in Churchill's "Secret Circle," to whom he turns in the hardest moments. *The Splendid and the Vile* takes readers out of today's political dysfunction and back to a time of true leadership, when, in the face of unrelenting horror, Churchill's eloquence, courage, and perseverance bound a country, and a family, together.

This devastating book illuminates America's gun culture -- its manufacturers, dealers, buffs, and propagandists -- but also offers concrete solutions to our national epidemic of death by firearm. It begins with an account of a crime that is by now almost commonplace: on December 16, 1988, sixteen-year-old Nicholas Elliot walked into his Virginia high school with a Cobray M-11/9 and several hundred rounds of ammunition tucked in his backpack. By day's end, he had killed one teacher and severely wounded another. In *Lethal Passage* Erik Larson shows us how a disturbed teenager was able to buy a weapon advertised as "the gun that made the eighties roar." The result is a book that can -- and should -- save lives, and that has already become an essential text in the gun-control debate. With a new afterword. "Touches on all aspects of the gun issue in this country. Gives great voice to that feeling...that something real must be done." --*San Diego Union-Tribune* "One of the most readable anti-gun treatises in years." --*Washington Post Book World*
