"My love story all started with a letter. Only it wasn't from the man I'd eventually fall in love with. It was from his daughter. A sweet little girl named Birdie Maxwell who'd written to the magazine that I worked for. You see, once a year my employer fulfilled a few wishes for readers. Only that column didn't start up again for months. So I fulfilled some of her wishes myself. It was harmless, so I thought. Until one day I took things too far."--Provided by publisher.

The Nobel Lecture in Literature, delivered by Kazuo Ishiguro (*The Remains of the Day* and *When We Were Orphans*) at the Swedish Academy in Stockholm, Sweden, on December 7, 2017, in an elegant, clothbound edition. In their announcement of the 2017

Nobel Prize in Literature, the Swedish Academy recognized the emotional force of Kazuo Ishiguro's fiction and his mastery at uncovering our illusory sense of connection with the world. In the eloquent and candid lecture he delivered upon accepting the award, Ishiguro reflects on the way he was shaped by his upbringing, and on the turning points in his career—"small scruffy moments . . . quiet, private sparks of revelation"—that made him the writer he is today. With the same generous humanity that has graced his novels, Ishiguro here looks beyond himself, to the world that new generations of writers are taking on, and what it will mean—what it will demand of us—to make certain that literature remains not just alive, but essential. An enduring work on writing and becoming a writer, by one of the most accomplished novelists of our generation.

Letter to My Daughter Harper Collins

"The Last Letter is a haunting,

heartbreaking and ultimately inspirational love story."—InTouch Weekly Beckett, If you're reading this, well, you know the last-letter drill. You made it. I didn't. Get off the guilt train, because I know if there was any chance you could have saved me, you would have. I need one thing from you: get out of the army and get to Telluride. My little sister Ella's raising the twins alone. She's too independent and won't accept help easily, but she has lost our grandmother, our parents, and now me. It's too much for anyone to endure. It's not fair. And here's the kicker: there's something else you don't know that's tearing her family apart. She's going to need help. So if I'm gone, that means I can't be there for Ella. I can't help them through this. But you can. So I'm begging

you, as my best friend, go take care of my sister, my family. Please don't make her go through it alone. Ryan

Letter to a Child Never Born Pocket Books

Dear Pope Francis Paper Peony Press

Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family

environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated

with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

The Perfect Wife Workman Publishing

“This crazy, gorgeous family novel” written at the end of the Great Depression “is one of the great literary achievements of the twentieth century” (Jonathan Franzen, *The New York Times*). First published in 1940, *The Man Who Loved Children* was rediscovered in 1965 thanks to the poet Randall Jarrell’s eloquent introduction (included in this ebook edition), which compares Christina Stead to Leo Tolstoy. Today, it stands as a masterpiece of dysfunctional family life. In a country crippled by the Great Depression, Sam and Henny Pollit have too much—too much contempt for one another, too many children, too much strain under endless obligation. Flush with ego and chilling charisma, Sam torments and manipulates his children in an esoteric world of

his own imagining. Henny looks on desperately, all too aware of the madness at the root of her husband's behavior. And Louie, the damaged, precocious adolescent girl at the center of their clashes, is the "ugly duckling" whose struggle will transfix contemporary readers. Named one of the best novels of the twentieth century by Newsweek, Stead's semiautobiographical work reads like a Depression-era *The Glass Castle*. In the *New York Times*, Jonathan Franzen wrote of this classic, "I carry it in my head the way I carry childhood memories; the scenes are of such precise horror and comedy that I feel I didn't read the book so much as live it."
