A play is written, faces censorship and is banned in its native country. There is strong international interest; the play is translated into English, it is adapted, and it is not performed. Censoring Translation questions the role of textual translation practices in shaping the circulation and reception of foreign censored theatre. It examines three forms of censorship in relation to translation: ideological censorship; gender censorship; and market censorship. This examination of censorship is informed by extensive archival evidence from the previously unseen archives of V á clav Havel's main theatre translator, Vera Blackwell, which includes drafts of playscripts, legal negotiations, reviews, interviews, notes and previously unseen correspondence over thirty years with Havel and central figures of the theatre world, such as Kenneth Tynan, Martin Esslin, and Tom Stoppard. Michelle Woods uses this previously unresearched archive to explore broader questions on censorship, asking why texts are translated at a given time, who translates them, how their identity may affect the translation, and how the constituents of success in a target culture may involve elements of censorship.

More than any other public figure, VOclav Havel has reflected on the opportunities and dilemmas facing humankind as a result of the Communism's collapse. His life serves as an example of responsible and moral action, even at the cost of much personal suffering. In the first book to bring together Havel's life and work, James Pontuso examines the Czech president's political philosophy. Pontuso argues that Havel's life as a dissident and political leader, his political writings, and his plays are part of a whole and must be understood as intimately connected to one another. In this engaging work, Pontuso skillfully explores these connections and explains Havel's prescriptions for political life.

Indirect Translations and Non-T ranslation: The (Fateful) Adventures of Czech Literature in 20th-century Portugal, a pioneering study of the destiny of Czech and Slovak literature in 20th-century Portugal, is a gripping read for anyone seeking to look into intercultural exchanges in Europe beyond the so-called dominant or central cultures. Concentrating on relations between two medium-sized lingua- and socio-cultures via translation, this book discusses and thoroughly investigates indirect translations and the resulting phenomenon of indirect reception, the role of paratexts in evading censorship, surprising non-translation, and by extension, the impact of political ideology on the translation of literature. In drawing on the work of Ji í Lev ý and Anton Popovi , two outstanding Czechoslovak translation theorists, this book opens up new avenues of research, both theoretically and methodologically. As a whole, the author paints a much broader picture than might be expected. Scholars in areas as diverse as translation studies, comparative literature, reception studies, Czech literature and Portuguese culture will find inspiration in this book. By researching translation in two would-be totalitarian regimes, this monograph ultimately contributes to a better understanding of the international book exchanges in the 20th century between two non-dominant, or semi-peripheral, European cultures.

Michael C. Schoenfeldt here offers the first major exploration of the connections between George Herbert's devotional poetry and the social practices and political discourse of his day. Viewing The Temple and The Country Parson as part of the larger "civilizing process" of Western Europe, Schoenfeldt shows how Herbert discovers in the discourses of courtesy and theology a common vocabulary of authority, selfhood, petition, and discipline. Before entering the priesthood, Herbert nourished contacts in court, was elected University Orator at Cambridge, and served in Parliament. In turning to God, Schoenfeldt argues, Herbert did not simply turn away from the secular world but also turned its language, particularly the language of courtesy, into the medium for his lyric worship of God. The confluence of courtesy and spirituality in Herbert's poetry provides a fascinating insight into a society searching for an appropriate discourse of reverence in a time of baffling change. The first five chapters investigate the manifold ways in which Herbert's life and works exemplify the interdependence of

social and religious behavior in the English Renaissance. The sixth and final chapter extends this investigation into the nervous eroticism of Herbert's poems. Considering The Temple as well as Herbert's letters, speeches, Latin poems, collections of foreign proverbs, translations, The Country Parson, and less familiar lyrics, Schoenfeldt offers a thorough and detailed reading of Herbert's rich and conflicted corpus. Prayer and Power is not only a bold redefinition of the accomplishment of one of the finest poets of the English Renaissance but also the first sustained study to advance a cultural poetics of the religious lyric.

Agent-based modelling on a computer appears to have a special role to play in the development of social science. It offers a means of discovering general and applicable social theory, and grounding it in precise assumptions and derivations, whilst addressing those elements of individual cognition that are central to human society. However, there are important questions to be asked and difficulties to overcome in achieving this potential. What differentiates agent-based modelling from traditional computer modelling? Which model types should be used under which circumstances? If it is appropriate to use a complex model, how can it be validated? Is social simulation research to adopt a realist epistemology, or can it operate within a social constructionist framework? What are the sociological concepts of norms and norm processing that could either be used for planned implementation or for identifying equivalents of social norms among co-operative agents? Can sustainability be achieved more easily in a hierarchical agent society than in a society of isolated agents? What examples are there of hybrid forms of interaction between humans and artificial agents? These are some of the sociological questions that are addressed.

Articles appear frequently about individuals whose age is noted as a feature of their activism, but the activism of seniors as a growing and influential part of the population is often otherwise overlooked. The speed of change, the expansion of the senior demographic, the growth of citizen participation, and the constant visual images reminding us of these factors, tell us that it is time to look to seniors who are putting their time and energies into helping others and helping the world. Whatever one’s political view, there is consensus in recognizing that we are living in a time of tremendous change, when traditionally trusted institutions and cultural mores are questioned and seriously challenged. It is a time when more and more individuals feel a need to do something, something about issues that concern them, something that makes them aware of the need for a sense of control in a world in chaos, something that makes them aware of their own strength, power, and the value of the wisdom that comes with age. In a time when social media make shallow “clicktivists” of so many, the people profiled here are true activists. Their dedication crosses all societal lines—ethnic, political, religious, and socio-economic. Some have always considered themselves activists. Some find that this stage of life brings a new perspective that results in the need to do more than say. They tell us, in their own words the what, why, and meaning of their specific activism and show others how to do it. Their stories are inspiring for people of all ages.

In the playhouses of eighteenth-century France, clerks and students, soldiers and merchants, and the occasional aristocrat stood in the pit, while the majority of the elite sat in loges. These denizens of the parterre, who accounted for up to two-thirds of the audience, were given to disruptive behavior that culminated in full-scale riots in the last years before the Revolution. Offering a commoner's eye view of the drama offstage, this fascinating history of French theater audiences clearly demonstrates how problems in the parterre reflected tensions at the heart of the Old Regime.Jeffrey S. Ravel vividly depicts the scene in the parterre where the male spectators occupied themselves shoving one another, drinking, urinating, and confronting the actors with critiques of the performance. He traces the futile efforts of the Bourbon Court—and later its Enlightened opponents—to control parterre behavior by both persuasion and force. Ravel describes how the parterre came to represent a larger, more politicized notion of the public, one that exposed the inability of the government to accommodate the demands of French citizens. An important contribution to debates on the public sphere, Ravel's book is the first to explore the role of the parterre in the political culture of eighteenth-century France.

Seven years since his death (2013), Nelson Mandela still occupies an extraordinary place in the global imagination. Internationally, Mandela’s renown seems intact and invulnerable. In South Africa, however, his legacy and his place in the country’s history have become matters of contention and dispute, especially amongst younger black South Africans. The essays in this book analyse aspects of Mandela’s life in the context of South Africa’s national history, and make an important contribution to the historiography of the anti-apartheid political struggle. They reassess: the political context of Mandela’s youth; his changing political beliefs and connections with the Left; his role in the African National Congress and the turn to armed struggle; his marriage to Winnie Madikizela-Mandela and their political relationship. By providing new context, they explore Mandela as an actor in broader social processes such as the rise of the ANC and the making of South Africa’s post-apartheid constitution. The detailed essays are linked in a substantial introduction by Colin Bundy and current debates are addressed in a concluding essay by Elleke Boehmer. This book provides a scholarly counterweight both to uncritical celebration of Mandela and also to a simplistic attribution of post-apartheid shortcomings to the person of Mandela. This book was originally published as a special issue of the *Journal of Southern African Studies*.

Germany's Second Chance Oxford University Press

How does a country reconstitute itself as a functioning democracy after a period of dictatorship? The new community may execute, imprison, or temporarily disenfranchise some citizens, but it will be unable to exclude all who supported the fallen regime. Political reconciliation must lay the groundwork for political trust. Democracy offers the compromised--and many who were more than just compromised--a second chance. In this new book, Anne Sa'adah explores twentieth-century Germany's second chances. Drawing on evidence from intellectual debates, trials, literary works, controversies about the actions of public figures, and partisan competition, Sa'adah analyzes German responses to the problem of reconciliation after 1945 and again after 1989. She depicts the frustrations, moral and political ambiguities, and disappointments inherent to even successful processes of democratization. She constantly underscores the difficult trade-off between achieving a modicum of justice and securing the legitimacy and stability of the new regime. A strategy of reconciliation emphasizing outward conformity to democratic norms and behavior, she argues, has a greater chance of sustaining a new and fragile democracy than do more direct attempts to punish past misdeeds and alter people's inner convictions.

An eminent philosopher explains why we owe it to future generations to take immediate action on global warming Climate change is the supreme challenge of our time. Yet despite growing international recognition of the unfolding catastrophe, global carbon emissions continue to rise, hitting an all-time high in 2019. Unless humanity rapidly transitions to renewable energy, it may be too late to stop irreversible ecological damage. In The Pivotal Generation, renowned political philosopher Henry Shue makes an impassioned case for taking immediate, radical action to combat global warming. Shue grounds his argument in a rigorous philosophical analysis of climate change’s moral implications. Unlike previous generations, which didn’t fully understand the danger of burning carbon, we have the knowledge to comprehend and control rising carbon dioxide levels. And unlike future generations, we still have time to mitigate the worst effects of global warming. This generation has the power, and thus the responsibility, to save the planet. Shirking that responsibility only leaves the next generation with an even heavier burden—one they find impossible to bear. Written in direct, accessible language, The Pivotal Generation approaches the latest scientific research with a singular moral clarity. It’s an urgently needed call to action for anyone concerned about the planet’s future.

Vaclav Havel is one of the most important European writers of our time. In 1979 he was sentenced to four and a half years of hard labour for his involvement in the Czech human rights movement, Charter 77. In prison he was allowed to write to his wife, Olga, once a week. He used the opportunity for profound reflections, on theatre, society and philosophy. These letters form a remarkable document, and a work of lasting value.'From Havel, we learn that the true heroes of our time are those who stay the course.' Bruce Chatwin

Political Action in Vaclav Havel's Thought: The Responsibility of Resistance, by Delia Popescu, examines resistance to oppression and individual responsibility in political action, all in the context of Vaclav Havel's political philosophy. The famous anti-communist dissident, acclaimed playwright, former President of the Czech Republic, and eminent political thinker argues that there is a certain tendency in modern humanity towards the creation, or at least toleration, of a political system that is invasive and controlling. Not unlike Tocqueville and Arendt, Havel claims that modern liberal democracy contains potential tendencies toward a new form of despotism that capitalizes on modern alienation and social atomization. Political Action in Vaclav Havel's Thought suggests that Havel's theory of individual opposition can be used to secure political freedom under the conditions of modernity. Popescu demonstrates that Havel's idea of attaining true political participation and freedom requires a strong connection between an individually constructed ethics and the realm of politics. On this basis she reveals that a thick notion of morality can be usefully integrated into an account of both private and public accountability. Vaclav Havel's essays, plays, speeches, and letters can therefore be integrated into a coherent political theory which contributes significantly to some of the central debates in modern political thought. Delia Popescu concludes that Havel's theory of individual opposition to totalitarianism may also serve as the foundation for a conception of responsible participation in modern liberal democracies.

According to the Chinese zodiac, 2017 was the year of the 'fire rooster', an animal often associated with the mythical fenghuang, a magnificently beautiful bird whose appearance is believed to mark the beginning of a new era of peaceful flourishing. Considering the auspicious symbolism surrounding the fenghuang, it is fitting that on 18 October 2017, President Xi Jinping took to the stage of the Nineteenth Party Congress to proclaim the beginning of a 'new era' for Chinese socialism. However, in spite of such ecumenical proclamations, it became immediately evident that not all in China would be welcome to reap the rewards promised by the authorities. Migrant workers, for one, remain disposable. Lawyers, activists and even ordinary citizens who dare to express critical views also hardly find a place in Xi's brave new world. This Yearbook traces the stark new 'gilded age' inaugurated by the Chinese Communist Party. It does so through a collection of more than 40 original essays on labour, civil society and human rights in China and beyond, penned by leading scholars and practitioners from around the world.

The “definitive biography” of the poet and political dissident who became the last president of Czechoslovakia—and first president of the Czech Republic (Walter Isaacson). This portrait of Vaclav Havel, iconoclast and intellectual, renowned playwright turned political dissident, president of a united then divided nation, and dedicated human rights activist, is written by his former press secretary, advisor, and longtime friend—and recounts the turbulent twentieth-century era through which he prevailed. Havel’s lifelong perspective as an outsider began with his privileged childhood in Prague and his family’s blacklisted status following the Communist coup of 1948. This feeling of being outcast fueled his career as an essayist and a

dramatist writing absurdist plays as social commentary. His involvement during the Prague Spring and his leadership of Charter 77, his unflagging belief in the power of the powerless, and his galvanizing personality catapulted Havel into a pivotal role as the leader of the Velvet Revolution in 1989. Although Havel was a courageous visionary, he was also a man of great contradictions, wracked with doubt and self-criticism. But he always remained true to himself. This “smart and exciting” biography is “both inspiring and filled with lessons for our time” (Walter Isaacson). “Havel was one of the most important intellectual-troublemaking statesmen of his time—a nonconformist, determined to live in truth, who questioned the system, his countrymen and himself constantly. No one is better suited than Michael Zantovsky to describe, interpret, and analyze this moral giant . . . A brilliantly informed intellectual and political history.” —Madeleine Albright “Entertaining, intimate, and moving . . . Zantovsky’s voice—that of a natural storyteller with an eye for the memorable anecdote, a mischievous wit, an easy intelligence, and keen sense of balance and fairness—is so engaging.” —Paul Wilson, The New York Review of Books
