The Seventh Edition of Canadian Organizational Behaviour is truly a "new and improved" McShane: new trim size, fresh new design, new co-author, reorganized table of contents, improved examples, and even enhanced readability. The McShane brand is known for its cutting edge research and scholarship, recognized for its "for Canadians, by Canadians" approach to content, and respected for its firm anchoring of Canadian material within a global context. No other OB book offers the kind of comprehensive coverage in such an accessible, readable format. Canadian Organizational Behaviour continues to lead the way as the most innovative OB text on the market. McShane was the first OB textbook to include topics such as workplace emotions, appreciative inquiry, social identity theory, future search events, virtual teams, workaholism, and emotional intelligence. The innovation continues in the seventh edition with new and expanded coverage of topics such as employee engagement, resilience, four-drive theory, blogs and wikis, psychological harassment, learning orientation, Schwartz's values model, and separating socioemotional from constructive conflict. The pedagogical features have been completely overhauled to speak to new and emerging topics in OB worldwide, including the opening vignettes, the photo essays in each chapter, and many of the end-of-chapter exercises and end-of-part cases.

Attorney General's Manual on the Administrative Procedure Act Pearson South Africa

An investigative approach to Cambridge IGCSE Geography, written in partnership with the Geographical Association. Encourage students to make links between case studies and their own local contexts as well as exploring the core themes and skills of the 0460 syllabus in the context of global case studies and processes. Prepare for exam success with full coverage of the core themes of Paper 1 (Population and Settlement, The Natural Environment, Economic Development and the Use of Resources) as well as the geographical and fieldwork skills elements of Papers 2, 3 and 4. Help students focus on achieving the best grades with excellent exam support for each Paper, with exam-style questions, answers at different levels and accompanying comments. Be confident in the content and approach - this resource is written by highly experienced Geography teachers, consulted edited by a CIE Principal Examiner, and produced in partnership with the UK Geographical Association - the home of best practice in Geography teaching.

Issues and trends in education for sustainable development NB Publishing

Study & Master Agricultural Sciences Grade 10 has been especially developed by an experienced author team for the Curriculum and Assessment Policy Statement (CAPS). This new and easy-to-use course helps learners to master essential content and skills in Agricultural Sciences. The comprehensive Learner's Book includes: * an expanded contents page indicating the CAPS coverage required for each topic * activities throughout that help develop learners' knowledge and skills * revision tasks and review at the end of each module that provides for consolidation of learning * case studies that link science to real-life situations and present balanced views on sensitive issues * 'information' boxes providing interesting additional information and 'Note' boxes that bring important information to the learner's attention * Glossary boxes to explain unfamiliar and difficult terms

Recruiting and Retaining Culturally Different Students in Gifted Education Study and Master Geography Grade 10 CAPS Study Guide Leonardo Pisano (Fibonacci)

In September of 1893, Norwegian zoologist Fridtjof Nansen and a crew manned the schooner Fram, intending to drift, frozen in the Arctic pack-ice, to the North Pole. When it became clear that they would miss the pole, Nansen and his companion Hjalmar Johansen struck off by themselves. Racing the shrinking pack-ice, they

attempted, by dog-sled, to go "farthest north." They survived a winter in a moss hut eating walrus and polar bears, and the public assumed they were dead. In the spring of 1896, after three years of trekking, and having made it to within four degrees of the pole, they returned to safety. Nansen's narrative stands with the best writing on polar exploration.

Work-Related Learning Harcourt Brace Jovanovich Nico se pa is 'n uitvinder. Hy het al baie vreemde dinge ontwerp... Haarjel wat van kleur verander. 'n Stool wat jou kielie as jy aan die slaap raak. Selfs sandale wat jou toonnaels knip! Maar sy nuutste uitvinding is die heel beste...

Reproduction of the original: Eskimo Life by Fridtjof Nansen Geography, Grade 12 LAPA Uitgewers

This classic volume applies linear algebra to a variety of disciplines—engineering, the physical sciences, social sciences, and business. It motivates the reader with illustrative examples. This is a competitor to Strang.

Ladybird Tales: Classic Stories to Share National Academies Press

This edited book brings together an international cast of contributors to examine how academic literacy is learned and mastered in different tertiary education settings around the world. Bringing to the fore the value of qualitative enquiry through ethnographic methods, the authors illustrate in-depth descriptions of genre knowledge and academic literacy development in first and second language writing. All of the data presented in the chapters are original, as well as innovative in the field in terms of content and scope, and thought-provoking regarding theoretical, methodological and educational approaches. The contributions are also representative of both novice and advanced academic writing experiences, providing further insights into different stages of academic literacy development throughout the career-span of a researcher. Set against the backdrop of internationalisation trends in Higher Education and the pressure on multilingual academics to publish their research outcomes in English, this volume will be of use to academics and practitioners interested in the fields of Languages for Academic Purposes, Applied Linguistics, Literacy Skills, Genre Analysis and Acquisition and Language Education.

Study and Master Geography Grade 10 CAPS Study Guide Springer Science & Business Media Study & Master Life Skills has been specially developed to support the Curriculum and Assessment Policy Statement (CAPS). The innovative Teacher's Guide with CD-ROM includes: * a detailed work schedule for the whole year * step-by-step guidance on the teaching of each lesson and form of assessment, as well as Remedial and Extension activities for each Unit * photocopiable record sheets and templates * recordings to support the Performing Arts topic.

America is the most punitive nation in the world, incarcerating more than 2.3 million people—or one in 136 of its residents. Against the backdrop of this unprecedented mass imprisonment, punishment permeates everyday life, carrying with it complex cultural meanings. In *The Culture of Punishment*, Michelle Brown goes beyond prison gates and into the routine and popular engagements of everyday life, showing that those of us most distanced from the practice of punishment tend to be particularly harsh in our judgments. *The Culture of Punishment* takes readers on a tour of the sites where culture and punishment meet—television shows, movies, prison tourism, and post 9/11 new war prisons—demonstrating that because incarceration affects people along distinct race and class lines, it is only a privileged group of citizens who are removed from the experience of incarceration. These penal spectators, who often sanction the infliction of pain from a distance, risk overlooking the reasons for democratic oversight of the project of punishment and, more broadly, justifications for the prohibition of pain.

Bertie Blikbrein Elsevier

Health services can and should be improved by applying research findings about best practice. Yet, in *Knowledge to Action?*, the authors explore why it nevertheless proves notoriously difficult to implement change based on research evidence in the face of strong professional views and complex organizational structures. The book draws on a large body of evidence acquired in the course of nearly fifty in-depth case studies, following attempts to introduce evidence-based practice in the UK NHS over more than a decade. Using qualitative methods to study hospital and primary care settings, they are able to shed light on why some of these attempts succeeded where others faltered. By opening up the intricacies and complexities of change in the NHS, they reveal the limitations of the simplistic approaches to implementing research or introducing evidence-based health care. A unique synthesis of evidence, the book brings together data from 1,400 interviews with doctors, nurses, and managers, as well as detailed observations and documentary analysis. The authors provide an analysis, rooted in a range of theoretical perspectives, that underlines the intimate links between organizational structures and cultures and the utilization of knowledge, and draws conclusions which will be of significance for other areas of public management. Their findings have implications for the utilization of knowledge in situations where there is a professional tradition working within a politically sensitive blend of public service, managerial accountability, and technical expertise. *Knowledge to Action?* will be of interest to Academics, Researchers, and Advanced Students of Organizational Behaviour, Public and Health Management, and Evidence-Based Medicine; and also of particular interest to Practitioners, Clinicians, and Public Health Managers concerned with implementing change to clinical practice.

Farthest North LAPA Uitgewers

Nominated for a 2014 NAACP Image Award! One pervasive educational issue is the national underrepresentation of Black and Hispanic students in gifted education. Virtually every school district is grappling with having too few students from these groups identified as gifted and served in gifted classes and programs. *Recruiting and Retaining Culturally Different Students in Gifted Education* addresses this long-standing national problem through the dual lens of recruitment and retention. The focus is on how to equitably recruit (screen, refer, and/or assess) culturally different students and, just as importantly, to retain them. Recruitment and retention require providing academic, cultural, and social supports to culturally different students and ensuring that educators are willing and able to address issues and barriers. No time is better than now to address and correct the underachievement albatross, and the focus on recruitment and retention holds the greatest promise.

General information on the interface between intellectual property (IP) and traditional knowledge (TK), traditional cultural expressions (TCEs), and genetic resources (GRs). It briefly addresses the most important questions that arise when considering the role that IP principles and systems can play in protecting TK and TCEs from misappropriation, and in generating and equitably sharing benefits from their commercialization, and the role of IP in access to and benefit sharing in GRs.

Study & Master Physical Sciences Grade 10 has been especially developed by an experienced author team for the Curriculum and Assessment Policy Statement (CAPS). This new and easy-to-use course helps learners to master essential content and skills in Physical Sciences. The innovative Teacher's File includes: * guidance on the teaching of each lesson for the year * answers to all activities in the Learner's Book * assessment guidelines * photocopiable templates and resources for the teacher

Life Skills, Grade 6 Paul John Gioio

Ladybird has published fairy tales for over forty-five years, bringing the magic of traditional stories to each new generation of children. These classic stories are based on the original Ladybird retellings by Vera Southgate, with beautiful new illustrations of the kind children like best - full of richness and detail. An essential part of any child's bookshelf, Ladybird Tales are perfect for sharing together and creating memories to treasure forever. This beautiful treasury brings together five of everyone's favourite fairy tales: Hansel and Gretel, Cinderella, Aladdin, Snow White and the Seven Dwarfs, and Puss in Boots.

Global Ocean Science BoD – Books on Demand

Work-related learning (WRL) is a topic of steadily increasing interest to today's vocational education institutions as well as organizations in business and industry. This book derives from an international HRD conference held at the University of Twente, The Netherlands. Key papers from the conference have been combined with other high-standard contributions.

Together they offer an international collection of leading edge research. The book brings together contributors from various parts of the EU and the USA and includes examples of good practice and recent research on work-related learning. Work-related learning can be broadly seen to be concerned with all forms of education and training closely related to the daily work of (new) employees, and is increasingly playing a central role in the lives of individuals, groups or teams and the agenda's of organizations. However, as this area of study becomes more prominent, debates have opened about the nature of the field, as well as about its configurations and effects. For example, some authors have a broad definition of WRL and define it as learning for work, at work and through work, ranging from formal, through semi-structured to informal learning. Others prefer to use the concept of WRL mainly in connection to informal, incidental learning processes during work, leading to competent workplace learners. Formal and informal learning are distinguished from each other with respect to the level of intention (implicit/non-intentional/incidental versus deliberate/intentional/structured). Another point of discussion originates from the different 'theoretical backgrounds' of the authors: the 'learning theorists' versus the 'organizational theorists'. The first group is mainly interested in the question of how learning comes about; the second group is predominantly interested in the search for factors affecting learning. This book is essential reading for practitioners, researchers, teachers and students in the HRM and HRD field as well as in the field of VET.
