This book provides an overview of the ACCESS program, a mental health program that has been developed and tested as an efficacious treatment for college students with ADHD. This program is at the cutting edge of clinical research, incorporating treatment strategies that allow for dissemination in real world settings in order to effectively assist college students experiencing difficulties in their academic, personal, social, and emotional functioning. As cognitive behavioral approaches have proved to be the most successful psychological treatments to date, the techniques in this volume follow that model in a detailed and nuanced fashion. The authors provide a week by week breakdown of the program, supplemented by handouts and worksheets designed to facilitate better understanding of the areas targeted by the program. Filling a notable gap in research addressing the ADHD college student population, CBT for College Students with ADHD is a crucial resource for campus mental health practitioners as well as a broad range of clinicians dealing with emerging adults.

A deadly disease outbreak intensifies the war between humans and monsters in this gripping dark fantasy from the New York Times – bestselling “master of drip-feeding horror and suspense” (The Guardian) There exists a secret and highly illegal trade in mythological creatures and their artifacts. Certain individuals pay fortunes for a sliver of a satyr's hoof, a gryphon's claw, a basilisk's scale, or an angel's wing. Embroiled in the hidden world of the Relics, creatures known as the Kin, Angela Gough is now on the run in the United States. Forty years ago, the town of Longford was the site of a deadly disease outbreak that wiped out the entire population. The infection was contained, the town isolated, and the valley in which it sits flooded and turned into a reservoir. The truth—that the outbreak was intentional, and not every resident of Longford died—disappeared beneath the waves. Now the town is revealed again. The Kin have an interest in the ruins, and soon the fairy Grace and the Nephilim leader, Mallian, are also drawn to them. When the infection rises from beneath silent waters this forgotten town becomes the focus of the looming battle between humankind and the Kin.

A Time to Speak

Research on the frontiers of urban studies was the subject of a conference on nineteenth-century cities held in November 1968 at Yale University. These papers from the conference attempt to define what is coming to be known as the "new urban history." The cities studied range from small communities - such as Springfield, Massachusetts, and Poughkeepsie, New York - to giants like Philadelphia, Chicago, and Boston. While the majority of the contributions deal with American cities, four essays examine cities in Canada, England, France, and Colombia. The studies focus on the dimensions of mobility and stability in the social structure of nineteenth-century cities. Within this general frame, the essays explore such areas as urban patterns of class stratification, changing rates of occupational and residential mobility, social origins of particular elite groups, the relations between political control and social class, differences in opportunities for various ethnic groups, and the relationships between family structure and city life. In all these fields, the authors relate sociological theory to the historical materials; a complex yet readable, interdisciplinary portrait of the origins of modern city life is the result.
