*Schools Cannot Do It Alone* tells of Jamie Vollmer, businessman and attorney, as he travels through through the land of public education. His encounters with blueberries, bell curves, and smelly eighth graders lead him to two critical discoveries. First, we have a systems problem, not a people problem. We must change the system to get the graduates we need. Second, we cannot touch the system without touching the culture of the surrounding town; everything that goes on inside a school is tied to local attitudes, values, traditions, and beliefs. Drawing on his work in hundreds of districts, Jamie offers teachers, administrators, board members, and their allies a practical program to secure the understanding, trust, permission, and support they need to change the system and increase student success

Garcia, is a compelling, highly readable narrative of a young boy growing up in Los Angeles who made history by his leadership in the blowouts and in his career as a dedicated and committed teacher. *Blowout!* fills a major void in the history of the civil rights and Chicano movements of the 1960s, particularly the struggle for educational justice.
