Davie Jones—an ugly duckling growing up in small-town Mississippi with a mother who couldn't get any meaner—is positive her life couldn't be any worse. Just when she's resigned herself to her fate, she sees a movie that will change her life—Sixteen Candles. But in her case, life doesn't imitate art. Tormented in school and hopelessly in unrequited love with a handsome football player, Davie finds it bittersweet to dream of Molly Ringwald endings. When a cruel school prank goes too far, Davie leaves the life she knows and reinvents herself in the glittery world of Hollywood—as a beautiful and successful lounge singer. Just as she's about to ride off into the L.A. sunset, the past comes back with a vengeance, threatening to crush Davie's dreams—and break her heart again. With wholly original characters and a cinematic storyline, 32 Candles introduces Ernessa T. Carter, a new voice in fiction with smarts, attitude, and sassiness to spare.

Indirect Evidences in the New Testament for the Personal Divinity of Christ Pearson College Division

A world-weary university professor and an electrician with Autism discover they are on a mission as angelic souls to lift all life on Earth, assisted by dead comedians, angels of the highest heavens, and a mutual love for the 1980's. Christopher Wells (late 40's) hears the voice of Rodney Dangerfield giving a comedy routine inside a cave within a Sequoia forest. Jessica Rose (late 40's) hears 80's music while teaching Greek Mythology at a university. The two are brought together with the help of the angels and the hosts of the Seventh Heaven, Haniel and Ariel, who cause a rainstorm which forces Jessica and Christopher to take shelter inside a karaoke bar. When they discover a mutual love for 80's music and that they both have mysterious qualities unlike others, eventually they learn they have a unified mission to help souls in the lower heavens to rise into the highest heavens. The angels, Sandalfon and Metatron, act as guides to their lives and as narrators of their inner-most thoughts and

feelings. Sandalfon and Metatron are unknown to Jessica and to Christopher. A fellow professor, Isabel Tinkle, and her wife Jill, assist Jessica and Christopher into becoming the best mediums for their mission. Notes from the author: I envisioned Jennifer Aniston in the role of Jessica Rose and Johnny Depp in the role of Christopher Wells. There are many references to the movies Edward Scissorhands, and I like the irony of having Johnny Depp in that role. I envisioned Matthew Broderick as the voice of Metatron and Sarah Jessica Parker as the voice of Sandalfon to capture more of the aura of the 80's. Though Sandalfon and Metatron are seen only twice, it is only by profile, and all physical features are radiant light. I envisioned Rene-Jean Page as Haniel and Lindsey Stirling as Ariel. This work is a screenplay. It as a romantic comedy set in Fantasy.

Kodansha Amer Incorporated
Recipient of the Independent Publishers Award for Historical Fiction (Gold Medal), the Foreword Book of the Year Award for Historical Fiction (Bronze Medal), and an honorable mention in the category of General Fiction for the Eric Hoffer Award. Luis de Sant á ngel, chancellor to the court and longtime friend of the lusty King Ferdinand, has had enough of the Spanish Inquisition. As the power of Inquisitor General Tomás de Torquemada grows, so does the brutality of the Spanish church and the suspicion and paranoia it inspires. When a dear friend ' s demise brings the violence close to home, Sant á ngel is enraged and takes retribution into his own hands. But he is from a family of conversos, and his Jewish heritage makes him an easy target. As Sant á ngel witnesses the horrific persecution of his loved ones, he begins slowly to reconnect with the Jewish faith his family left behind.

Feeding his curiosity about his past is his growing love for Judith Migdal, a clever and beautiful Jewish woman navigating the mounting tensions in Granada. While he struggles to decide what his reputation is worth and what he can sacrifice, one man offers him a chance he thought he ' d lost...the chance to hope for a better world. Christopher Columbus has plans to discover a route to paradise, and only Luis de Sant á ngel can help him. Within the dramatic story lies a subtle, insightful

examination of the crisis of faith at the heart of the Spanish Inquisition.

Irresolvable conflict rages within the conversos in By Fire, By Water, torn between the religion they left behind and the conversion meant to ensure their safety. In this story of love, God, faith, and torture, fifteenth-century Spain comes to dazzling, engrossing life.

" The stories are skillfully told and entirely entertaining . . . An expert, mostly feel-good book about modern medicine " from the award-winning author (Kirkus Reviews, starred review). Behind every landmark drug is a story. It could be an oddball researcher ' s genius insight, a catalyzing moment in geopolitical history, a new breakthrough technology, or an unexpected but welcome side effect discovered during clinical trials. Piece together these stories, as Thomas Hager does in this remarkable, century-spanning history, and you can trace the evolution of our culture and the practice of medicine. Beginning with opium, the " joy plant, " which has been used for 10,000 years, Hager tells a captivating

story of medicine. His subjects include the largely forgotten female pioneer who introduced smallpox inoculation to Britain, the infamous knockout drops, the first antibiotic, which saved countless lives, the first antipsychotic, which helped empty public mental hospitals, Viagra, statins, and the new frontier of monoclonal antibodies. This is a deep, wide-ranging, and wildly entertaining book. " [An] absorbing new book. " —The New York Times Book Review " [A] well-written and engaging chronicle. " —The Wall Street Journal " Lucidly informative and compulsively readable. " —Publishers Weekly " Entertaining [and] insightful. " —Booklist " Well-written, well-researched and fascinating to read Ten Drugs provides an insightful look at how drugs have shaped modern medical practices. Towards the end of the book Hager writes that he ' came away surprised by some of the things he had learned. ' I had the very same reaction. " —Penny Le Couteur, coauthor of Napoleon ' s Buttons: How 17 Molecules Changed History

ABOUT THE BOOKAt some point in our life we all lose someone very dear to us, then we have to grieve. Truly it's nothing wrong, it's just that pain demands to be felt and understanding that and not looking at it as a bad thing changes a lot of things. To me poetry was my way of grieving, getting words out on paper helps me process things a lot easier. The book is not centered entirely on grieving but on how I grown since the incident and things and people that have happened along the way. This book is titled after my late mother and I sincerely hope you enjoy the book.
