Whether you're new to Arduino and Android development, or you've tinkered a bit with either one, this is the book for you. Android has always been a natural fit with Arduino projects, but now that Google has released the Android Open Accessory Development Kit (the Android ADK), combining Android with Arduino to create custom gadgets has become even easier. **Beginning Android ADK with Arduino** shows how the ADK works and how it can be used with a variety of Arduino boards to create a variety of fun projects that showcase the abilities of the ADK. Mario Böhmer will walk you through several projects, including making sounds, driving motors, and creating alarm systems, all while explaining how to use the ADK and how standard Arduino boards may differ from Google-branded Arduinos. You aren't tied to specific hardware with this book; use what you have, and this book will show you how.

Schroeder's Collectible Toys Antique to Modern Price Guide CRC Press  
The Dictionary of Media and Communication Studies has provided students and the general public alike with a gateway into the study of intercultural communication, public relations and marketing communications since 1984. In this 9th edition, James Watson and Anne Hill provide a detailed compendium of the different facets of personal, group, mass-media and internet communication that continues to be a vital source of information for all those interested in how communication affects our lives. They cover new applications and developments, such as the incorporation of Neuroscience techniques in advertising and marketing. Other updates include Cyber-bullying, Twitter scandals, conduct in media organizations, on-line lobbying, global protesting/petitioning, and gender issues relating to social media in general. While new entries explore the profound shifts that have taken place in the world of communication in recent years, the purpose of this new edition is not necessarily to keep abreast of every new media event but to reflect the trends that influence and prompt such events, such as the Leveson Inquiry and Report and phone hacking via mobile phones. Politics seems to be playing out more on Twitter than in The Times. This volume seeks to make its twenty-first century readers more media literate, as well as more critical consumers of modern news.

**Identification and Price Guide** MicroStrategy, Inc.

A Practical, What-You-Need-to-Know Guide to Getting on Echolink Echolink is a powerful system for linking the worlds of amateur radio and the Internet. You can link your PC, Android, iPhone, iPad or handheld radio to repeaters, individuals, or conferences located anywhere in the world, quickly and easily. And because it's all digital, you get crystal clear, digital sound. If you are a licensed Amateur Radio operator (ham), now you can communicate with other hams directly over the Internet, using streaming audio technology. Complex interfacing isn't necessary to get started with Echolink. All you need is either a Windows PC with a microphone or an Apple iOS or Android device (iPads, iPods, Nexus, iPhone, Samsung, etc.). Yes, all you need to start is an app on your smartphone, there are no other costs involved. This short book gives you a practical, step-by-step walkthrough of all the options to set up your Echolink "Station." From registering your call sign with Echolink to installing the software on your PC, Android, or Apple device and making your first calls to individuals, ham repeaters, or conferences. This book covers everything you need to get started. The book boils down the vast amount of unnecessary technical information that can be found on the Echolink website (and other websites). It really is all-you-need-to-know. This new edition now adds a new chapter, "Sysop Mode," which covers basic interfacing between your computer and a radio. It uses the example of connecting up a Baofeng UV-5R radio with a Signalink device to use as an Echolink node. This step-by-step example works easily for this common radio, and is easily modified to suit other radios. Inside you'll find step-by-step tutorials on how use your radio or dongle to: \* Install and configure the software\* Connect to Conferences, the "Chat rooms" of Echolink\* Link to distant amateur radio repeaters repeaters\* Link to individuals without knowing their location\* Setup a linked radio to allow you to access Echolink from your handheld radioThis short book gives you a simple step-by-step walkthrough of all the options to set up your Echolink station using dozens of screenshots and many examples. The whole process is detailed, from registering your call sign with the Echolink network to installing the Echolink software on your PC or mobile device and making your first calls to individuals, ham repeaters, or conferences.
