The subject of personality has received increasing attention from industrial/organizational psychologists in both research and practice settings over the past decade. But while there is an overabundance of information related to the narrow area of personality testing and employee selection, there has been no definitive source offering a broader perspective on the overall topic of personality in the workplace. Personality and Work at last provides an in-depth examination of the role of personality in work behavior. An array of expert authors discusses the connection of personality to a wide range of outcomes beyond performance, including counterproductive behaviors, contextual performance, retaliatory behaviors, retention, learning, knowledge creation, and the process of sharing that knowledge. Throughout the book, the authors present theoretical perspectives, introduce new models and frameworks, and integrate and synthesize prior studies in ways that will stimulate future research and practice. Contributors to this volume include: Murray R. Barrick, Michael J. Cullen, David V. Day, Ed Diener, J. Kevin Ford, Lewis R. Goldberg, Leaetta Hough, Jeff W. Johnson, Martin J. Kilduff, Amy Kristof-Brown, Katherine E. Kurek, Richard E. Lucas, Terence R. Mitchell, Michael K. Mount, Frederick L. Oswald, Ann Marie Ryan, Paul R. Sackett, Gerard Saucier, Greg L. Postcolonial Poetics is about how we read postcolonial and world literatures today, and about how the structures of that writing shape our reading. The book's eight chapters explore the ways in which postcolonial writing in English from various 21st-century contexts, including southern and West Africa, and Black and Asian Britain, interacts with our imaginative understanding of the world. Throughout, the focus is on reading practices, where reading is taken as an inventive, border-traversing activity, one that postcolonial writing with its interests in margins, intersections, subversions, and crossings specifically encourages. This close, sustained focus on reading, reception, and literariness is an outstanding feature of the study, as is its wide generic range, embracing poetry, essays, and life-writing, as well as fiction. The

field-defining scholar Elleke Boehmer holds that literature has the capacity to keep reimagining and refreshing how we understand ourselves in relation to the world and to some of the most pressing questions of our time, including resistance, reconciliation, survival after terror, and migration.

"Staten Island, the last of New York City's five boroughs to enter Akashic's noir series, severs as the setting for this exceptionally strong anthology." --Publishers Weekly (starred review) "Smith's introduction is a revelation. She knows the Island I have in my head. It was like finding a literary sibling, separated since birth." --Washington Independent "It's not enough for noir to be dark. It's got to be bad-ass. Its words, its decaying and horrible beauty have got to hit you like a spiked heel dragged from your guts to your gullet. It's got to twist the hot knife of passion in that soft space right below your belly while pumping bullets into your heart. It's got to make you bleed. Akashic Books' latest in their noir series, Staten Island Noir features some dusky and drop-dead gorgeous gems (emphasis on the dead) that do just that." --Grub Street Daily "Staten Island is the forgotten borough, lacking a subway system, left out of Jay-Z's songs, known for organized crime, bad accents, fake tans, and garbage--which makes it a rich setting for Akashic's noir series...In a thrilling tilt-a-whirl of crime and drama, editor Patricia Smith has carefully chosen writers concerned with the true nature of the small suburban borough." --Electric Literature's "The Outlet" "Each story in this enjoyable collection has its own charms, if the words 'enjoyable' or 'charms' can be used with these dark tales, and each can stand-alone. However, if, like me, you had always looked at Staten Island as banal and benign, by the book's end your ideas will be forever changed." --ReviewingTheEvidence.com Patricia Smith, editor of Staten Island Noir, has won the Robert L. Fish Memorial Award for her short story included in the anthology, "When They Are Done with Us."

Not since the Industrial Revolution has the world experienced such a vast transformation in the nature of work as is now in progress. The winds of change are buffeting the terms and conditions of work, its content, and its context. The rapidity and discontinuity of these changes produce discomfort and anxiety among employees and unprecedented challenges to the leadership of organizations. What will the future hold as information technology, global competition, and the quest for efficiency and flexibility rapidly displace jobs and workers? and how can human resource scientists and professionals anticipate what lies ahead and generate better understanding of emerging work behavior?The Changing Nature of Work envisions the future nature of work, its effect on workers and organizations, and the expanded knowledge that will be needed to optimize its returns. The book examines critical post-industrial transformations in work, workers, and the experience of working and assesses the implications of those changes. It investigates what is driving change at work, what is constraining it, and where work is headed as governments, societies, and work organizations respond to its revolutionary thrust.Demonstrating that most knowledge of work life is rooted in jobs, organizations, and workers of the past, Ann Howard and her contributors call for rethinking the psychology of work. In fourteen original chapters, leading authorities within and outside industrial and organizational psychology--including job design, personnel selection, training, teamwork, organizational commitment, careers, leadership, performance appraisal, political and labor economics, sociology, and information technology--question, test, revise, and expand the current body of knowledge about work behavior.The authors explore the human side of the changing nature of work in both service and manufacturing settings and provide new directions for the work and workers of tomorrow. The following morning I woke up feeling terribly blue. I was afraid that Ben would never phone me. "I'll phone you some time"--a guy can easily say that to a girl, even if he has no interest in her and never plans to see her again. I stayed in bed until my mother left for work. I didn't feel like talking to anyone. Then I washed and had a small breakfast. I thought about phoning Joyce, but I couldn't think of what to say to her either. I felt so downhearted. All I could think about was Ben. What did I do to make him never want to see me again?
