Cultural Maturity: A Guidebook for the Future is the most detailed of three new future-related works by the author. It looks deeply at how the most important challenges ahead for the species will require not just better ideas, but new human capacities; in the end, an essential "growing up" as a species—a new Cultural Maturity. It is written for those interested in acquiring the newly sophisticated leadership abilities that we will more and more need in all parts of our lives in times ahead. The concept of Cultural Maturity

---

makes understandable how institutional structures and beliefs that in modern times have served us well can't be the ideals and end points that we have assumed them to be. It goes on to articulate a new guiding story for our time, one able to take us equally beyond denial, cynicism, and naïve wishful thinking. This book looks deeply at the changes the concept of Cultural Maturity describes—both how they make needed new capacities possible, and how we see their beginnings in many parts of our personal and collective lives. The concept of Cultural Maturity is based on the ideas of Creative Systems Theory, a comprehensive framework for understanding change, purpose, and interrelationship in human systems. Creative Systems Theory describes how Cultural Maturity's changes are as, or more, significant than those that brought us modern democratic governance 250 years ago. It also argues that if the concept of Cultural Maturity is not basically correct, it is hard to imagine a healthy and vital human future. In addition to introducing the concept of Cultural Maturity, *Cultural Maturity: A Guidebook for the Future* presents important related ideas from Creative Systems Theory. Creative Systems Theory represents an example of culturally mature conception and offers a rich array of conceptual tools able to guide us in making the future's increasingly complex choices.

The Vision of a Mother's Heart is the story of Isabel Greene, an ordinary ten-year-old girl from an ordinary southern family that is living off the land in the 1920s. They are hardworking, God-honoring, fun-loving people who are

considered poor by some but think of themselves as quite happy. Isabel's Mama teaches her the joys of cooking, sewing, doing laundry, and taking care of children, while always turning each chore into a time of singing and laughter and striving to instruct her children in the truth by planting seeds of faith in their hearts. When tragedy strikes, life drastically changes for the Greene family. Although the family attempts to press on, they are faced with further calamity when a fire ravages their home. Despite their escape, they are left with difficult questions: Where is God in tragedy and suffering? Why does He allow people to face hardships when all they want to do is honor Him? What if their worst fear-separation from one another-is realized? Can the Greene family trust God when everything around them is falling apart? The Vision of a Mother's Heart was inspired by the author's grandmother, Isabel. Her mother's life, love, and instruction sewed seeds of faith in the hearts of her children that now have been passed to the next generation. The story weaves a heartwarming tale that will leave you thinking about the long-term impact of your everyday decisions.

Long before it was the "oil state," Alaska was the "salmon state" Emphasizes that salmon protection is good for Alaska Alaskans have deeply personal relationships with their salmon. These remarkable fish provide a fundamental source of food, livelihood, and identity, and connect generations and communities throughout the state. Yet while salmon are integral to the lives of many Alaskans, the habitat they need to thrive is increasingly at risk as communities and decision makers evaluate large-scale development proposals. The Salmon Way celebrates and explores the relationships between people and salmon in Alaska. Through story and images, author Amy Gulick shows us that people from wildly different backgrounds all value a salmon way of life. In researching her new book, Amy spent time with individuals whose lives are inextricably linked with salmon. Commercial fishermen take her on as crew; Alaska Native families teach her the art of preserving fish and culture; and sport fishing guides show her where to cast her line as well as her mind. Each experience expands our understanding of the "salmon way" in Alaska. Learn more at [www.thesalmonway.org](http://www.thesalmonway.org)

Asia is at a crossroads. It is the world's most populous region, it

---

accounts for a rising share of global greenhouse gas emissions, and it is the region most vulnerable to climate risks. *Low-Carbon Green Growth in Asia: Policies and Practices* recognizes that in order to develop the region, low-carbon green growth is imperative. The volume reviews low-carbon policy initiatives taken by Asian countries at the national, sectoral, and local levels while assessing their achievements, identifying the remaining gaps, and examining new opportunities. The volume notes that actions taken by several Asian countries to date have been both impressive and replicable and that the region's commitment to low-carbon green growth represents a move away from the old economic notion of "grow first and clean later." However, emerging Asia's carbon emissions remain high, and failure to act swiftly could increase mitigation costs by two to five times and lock in a high-carbon footprint for decades to come.
