Spanish Pronunciation; Theory and Practice

John Wiley & Sons

This unique atlas contains 248 charts of more than 300 of the brightest galaxies, each specially prepared to facilitate the discovery of supernovae. The comparison of these charts with the field seen in a telescope enables any extragalactic supernova to be spotted immediately. The charts include 345 galaxies printed on translucent paper for use on a light-box, each one carrying an explanation of the constellation in which the galaxy lies, special characteristics of the galaxy, observing instructions, expected maximum brightness for the supernovae in each galaxy, and the reference for the sequence. A handbook accompanies the charts advising on their use, on how to make and record supernova discoveries, and reviewing the present understanding of supernovae. Published for an international market, these charts carry real potential for numerous discoveries of supernovae. Supernova Search Charts are a must for both serious observers and the growing number of deep sky enthusiasts around the world.

Manual of Mineralogy (after James D. Dana)

Schirmer Trade Books

A collection of insightful philosophical thoughts and stories, in which Paulo Coelho offers inspiring answers to profound questions to delight spiritual seekers everywhere. This book is for all of us who look for meaning in our daily lives as we struggle along the spiritual path.

Within each of us is a warrior of the light. Each of us is capable of listening to the silence of the heart, of accepting failure without letting it get us down and of holding onto hope even in the face of weariness and depression. Values like love for all things, discipline, friendship and learning to listen to our own hearts are the arms with which this warrior confronts the battles we face in the name of personal growth and in the defence of the light.
