A dense black cloud boiled up in the southeastern sky. It rose high and fast, like a time-lapse movie of the birth of a thunderhead. But it was no rain cloud. Wholly black, it reached up and up until it loomed over her, blocking out the sun. Somehow, she knew, it was Death coming for her. Pre-med student Coral is on vacation in Idaho when something terrible happens. The black cloud is followed by a wildfire and searing heat that lasts for days. She survives deep in a cave but emerges days later to find the world transformed, with blackened trees, an ash-filled sky, and no living creatures stirring--except for her. So begins her desperate journey: to find water, and food, and other survivors...and the answer to the mystery of what happened. Gray I is the first novel in a series.

Cooking with Zac AmGovLong Story Short

What would happen if someone invented a machine that could create an exact duplicate of anything? That is the simple but remarkable premise of Damon Knight's classic 1959 novel, A for Anything. "The Gismo," as the machine is known, seems like it will end poverty and need forever. But of course, things are not that simple. Like any truly great work of science fiction, Knight's novel boldly pursues the ramifications of his premise. What will people do if there is no longer any need to work for anything? What happens if this device is spread carelessly throughout the world (it can even duplicate itself!). Finally, there is the supreme and most chilling of questions: what happens if you try to duplicate a human being? A for Anything is a classic work of science fiction, but it considers questions that are as relevant and

compelling today as they were fifty years ago, perhaps more so. Like most of us, Knight watches the mind-boggling technological advancements of our time with a mixture of awe and alarm, and wonders whether we are really in control of the things we are creating. Knight has put his finger on the pulse of our modern sensibility and, mixed with his truly remarkable imagination, created a novel that is gripping, thought-provoking and impossible to put down.

Guide to State Politics and Policy Princeton University Press

Rising young comedian Moshe Kasher is lucky to be alive. He started using drugs when he was just 12. At that point, he had already been in psychoanalysis for 8 years. By the time he was 15, he had been in and out of several mental institutions, drifting from therapy to rehab to arrest to...you get the picture. But KASHER IN THE RYE is not an "eye opener" to the horrors of addiction. It's a hilarious memoir about

the absurdity of it all. When he was a young boy, Kasher's mother took him on a vacation to the West Coast. Well it was more like an abduction. Only not officially. She stole them away from their father and they moved to Oakland , California. That's where the real fun begins, in the war zone of Oakland Public Schools. He was more than just out of control-his mother walked him around on a leash, which he chewed through and ran away. Those early years read like part Augusten Burroughs, part David Sedaris, with a touch of Jim Carrol...but a lot more Jewish. In fact, Kasher later spends time in a Brooklyn Hasidic community. Then came addiction... Brutally honest and laugh-out-loud funny, Kasher's first literary endeavor finds humor in even the most horrifying situations.
