i am thinking about getting a new 140cc motor for my pit bike but cant decide on the YX or the Lifan. let me hear all the pros and cons about both, like power output, reliability, and performance upgrades. by the way its gotta be the 4 up tranny, its the only way to go.

Lifan 110cc Engine (4-Speed Semi-Auto) (w/ Air Carby Kit ...
Right now its got a pit engine

Lifan 125cc and gets up to 50/55mph max, I never seen a Lifan 150cc Electric start until after I made a down payment on the Piranha 150cc But after 500mile mod which engine can I get to max top speed basically, not that I'd ride at that but just in case? LoL
Anyone here care to step in on this?

What Lifan engine is right for me on my CT90? | Adventure ...

My engine on my beater x200r went awhile ago. I picked up a lifan 163FML 200cc pushrod engine (supposedly bolts right in) complete for just under \$450. Id like to stick to riding with a honda engine under me, but you just cant beat the price and it even comes with electric start, plus ive never ha...

Crate Motors

It appears to be a 3 or 4 speed semi-automatic (clutchless) engine. With these engines, there is no clutch lever. You just let up on the gas and shift, then get back on it. When you said you had a Lifan with an internal CVT, I was expecting to see an engine like this scooter engine. Notice how long the scooter engine is because of the CVT belt.

The new generation of 140cc engine from the YX factory. 16BHP at the flywheel from this engine. 4 speed manual, all up gears with wet plate clutch. Comes with kick start (16mm), folding gear lever, intake manifold, heatstop, bolts & gaskets, flywheel cover, oil, 428 front sprocket. setup to run oil cooler and lights and has a NGK plug. YX 140cc VS. Lifan 140cc monster motors - Pit Bikes ... My only experience has been with the 110cc and 140cc horizontal engines and the 200cc vertical engine. The 110 isn't a whole lot faster than the stock CT90 engine but it does have a lower first gear and climbs quite well off road without the need for a low range. Top speed is around 50 mph and it takes a while to get there.
