Performing a test You should perform a test of the Mobile alarm and become familiar with it before relying on it. A pre-delivery test has been performed by us using our test numbers only. *Life alert user manual - Issuu*
Most medical alert devices have a range of 350ft-1,500 ft. Be sure to check our medical alert comparison chart to see what range your system has. Some medical alert providers sell a range extender if needed. Wherever you choose, the traditional medical alert system needs to be near a telephone jack and AC power receptacle.
