"The Life of Olaudah Equiano" is one of the earliest-known examples of published writing by an African writer and the first influential slave narrative of what became a large literary genre. Equiano's autobiography helped in the creation of the

Slave Trade Act 1807 which ended the African slave trade for Britain and its colonies. Olaudah Equiano (c. 1745 – 1797), known in his lifetime as Gustavus Vassa was a freed slave of Igbo extraction from the eastern part of present-day Nigeria, who supported the British movement to end the slave trade. Gina Frangello tells the morally complex story of her adulterous relationship with a lover and her shortcomings as a mother,

and in doing so, highlights the forces that shaped, silenced, and shamed her: everyday misogyny, puritanical expectations regarding female sexuality and maternal sacrifice, and male oppression." —Adrienne Brodeur, author of *Wild Game* Gina Frangello spent her early adulthood trying to outrun a youth marked by poverty and violence. Now a long-married wife and devoted mother, the better life she carefully built is emotionally upended by the death of her closest friend. Soon, awakened to fault lines in her troubled marriage,

Frangello is caught up in a recklessly passionate affair, leading a double life while continuing to project the image of the perfect family. When her secrets are finally uncovered, both her home and her identity will implode, testing the limits of desire, responsibility, love, and forgiveness. *Blow Your House Down* is a powerful testimony about the ways our culture seeks to cage women in traditional narratives of self-sacrifice and erasure. Frangello uses her personal story to examine the place of women in contemporary society: the violence they experience, the

---

rage they suppress, the ways their bodies often reveal what they cannot say aloud, and finally, what it means to transgress "being good" in order to reclaim your own life. The Blow-In Moody Pub

The title of the book expresses that I am talking about my life. I refer to my life as if I'm fighting every day just to make it through the simple task. It states that life is hard and you have to be able to endure everything that comes along with it. The fight is never over.

The COVID-19 pandemic

has robbed college students of countless sacred, rite-of-passage experiences long taken for granted, a blow compounded by this country's political upheaval. "COVID Chronicles" started as a blog assignment in a Media Writing class and became a raw, gripping look at the impact of the pandemic on young adults - written in their own words as they navigated the all-online fall 2020 semester. Students shared heartfelt stories of fear, despair, anger - and - on occasion - hope. One struggled to see a way out of

his depression. Another was afraid to leave her home and isolated herself from friends and family. One lived through a grandmother's COVID-19 diagnosis. And one, adopted from Korea as a baby, wrote about feeling staring, blaming eyes on her, as if she were somehow responsible for the virus. But there were uplifting posts too, including one student who was thankful for his isolated and safe mountaintop home and another who savored family time that otherwise wouldn't have happened. If you

wonder how this pandemic is impacting our college students, "COVID Chronicles" will leave you wondering no more, and wanting to help them.

**Blow** HarperCollins

An extraordinary biography of Isabella Blow, whose pedigree, wild style, and outrageous antics catapulted her onto the London social scene and made her a fashion icon. In 2007, the news of Isabella Blow's suicide at the age of 48 made headlines around the world—but there is more to the story of Isabella than her tragic end. The key supporter and muse of milliner

Philip Treacy and designer Alexander McQueen, Blow was truly more than a muse or patron. She was a spark, an electrical impulse that set imaginations racing, an individual who pushed others to create their best work. Her fascination with clothing began early, as did a willingness to wear things—and say things—that would amuse and shock. She began her fashion career in New York City as assistant to Anna Wintour at Vogue. Over time she became famous for her work, yet it wasn't enough to assuage her devastating feelings of inadequacy. Still, in her darkest moments, even as she began

a series of suicide attempts and prolonged hospital stays, Blow retained her wicked sense of humor, making her friends laugh even as they struggled to help. Lauren Goldstein Crowe has crafted a superbly entertaining narrative; wrapping the anecdotes of Isabella's antics around a candid, insightful portrayal of a woman whose thirst for the fantastical ultimately became irreconcilable with life in the real world.

"The more you are willing to do, the more he will do in return." That about sums it up. We are all selfish in bed, when it comes down to it, apparently. At least in the eyes of this author. While I haven't attempted the auto-fellatio test or the ever-awkward, "Hey, I need help reviewing this zine"

line, this is a solidly-compelling read. Aside from the obvious skills, there's the lesson here in understanding that people come in different shapes and sizes and how that will benefit your relationship skills out of bed.
